### **Letters to the First Man from All Mankind** Harper Collins

Follows Abraham Lincoln from his childhood to the presidency, showing how he spoke up about fairness and eventually led the country to abolish slavery.

#### [How to Become an Astronaut for Kids!](#)

Purdue University Press

Travel to space and back with astronaut Chris Hadfield's "enthraling" bestseller as your eye-opening guide (Slate).

Colonel Chris Hadfield has spent decades training as an astronaut and has logged nearly 4000 hours in space. During this time he has broken into a Space Station with a Swiss army knife, disposed of a live snake while piloting a plane, and been temporarily blinded while clinging to the exterior of an orbiting spacecraft. The secret to Col. Hadfield's success-and survival-is an unconventional philosophy he learned at NASA: prepare for the worst- and enjoy every moment of it. In *An Astronaut's Guide to Life on Earth*, Col. Hadfield takes readers deep into his years of training and space exploration to show how to make the impossible possible. Through eye-opening, entertaining stories filled with the adrenaline of launch, the mesmerizing wonder of spacewalks, and the measured, calm responses mandated by

crises, he explains how conventional wisdom can get in the way of achievement — and happiness. His own extraordinary education in space has taught him some counterintuitive lessons: don't visualize success, do care what others think, and always sweat the small stuff. You might never be able to build a robot, pilot a spacecraft, make a music video or perform basic surgery in zero gravity like Col. Hadfield. But his vivid and refreshing insights will teach you how to think like an astronaut, and will change, completely, the way you view life on Earth — especially your own. "Hadfield proves himself to be not only a fierce explorer of the universe, but also a deeply thoughtful explorer of the human condition." —Maria Popova, *Brain Pickings*

*Who Was Neil Armstrong?* Rockridge Press

As a young boy, Neil Armstrong had a recurring dream in which he held his breath and floated high in the sky. He spent his free time reading stacks of flying magazines, building model airplanes, and staring through a homemade telescope. As a teenager, Neil worked odd jobs to pay for flying lessons at a nearby airport. He earned his student pilot's license on his sixteenth birthday. But who was to know that this shy boy, who also loved books and music, would become the first person to set foot on the moon, on July 20, 1969.

**Dear Neil Armstrong** Open Road Media  
Apollo 11 astronaut Buzz Aldrin's courageous, candid memoir of his return

to Earth after the historic moon landing and his personal struggle with fame and depression. "We landed with all the grace of a freight elevator," Buzz Aldrin relates in the opening passages of *Return to Earth*, remembering Command Module Columbia's abrupt descent into the gravity of the blue planet. With that splash, Aldrin takes readers on a journey through the human side of the space program, as one of the first two men to land on the moon learns to cope with the pressures of his new public persona. In honest and compelling prose, Aldrin reveals a side of instant fame for which West Point and NASA could never have prepared him. One day a fighter pilot and engineer, the next a cultural hero burdened with the adoration of thousands, Aldrin gives a poignant account of the affair that threatened his marriage, as well as his descent into alcoholism and depression that resulted from trying to be too many things to too many people. He didn't realize that when he landed on his home planet his odyssey had just begun. As Aldrin puts it, "I traveled to the moon, but the most significant voyage of my life began when I returned from where no man had been before." *Return to Earth* is a powerful and moving memoir that exposes the stresses suffered by those in the Apollo program and the price Buzz Aldrin paid when he became an American icon.

**Letters to Neil Armstrong** Purdue University Press

A biography of the first man on the moon, covering his youth, his career as an astronaut, and his life after NASA. Childrens Press

A colorfully illustrated, pocket-size picture book biography of the first man to walk on the moon, astronaut Neil Armstrong. Neil Armstrong is an American astronaut most famous for

being the first person to walk on the moon: "One small step for man, one giant leap for mankind." Before enrolling in the NASA Astronaut Corps in 1962, Armstrong was an officer in the U.S. Navy and served in the Korean War. Follow this extraordinary man's life and accomplishments, from childhood to space and back again. *Pocket Bios* are full of personality, introducing readers to fascinating figures from history with simple storytelling and cheerful illustrations. Titles include men and women from history, exploration, the sciences, the arts, the ancient world, and more.

Neil Armstrong Puffin

Part of the best-selling *Little People, BIG DREAMS* series, Neil Armstrong tells the inspiring story of the first person to every step foot on the moon.

Return to Earth Macmillan

"This behind-the-scenes look at the first Apollo moon landing has the feel of a public television documentary in its breadth and detail" (Publishers Weekly, starred review). Here is a rare perspective on a story we only thought we knew. For Apollo 11, the first moon landing, is a story that belongs to many, not just the few and famous. It belongs to the seamstress who put together twenty-two layers of fabric for each space suit. To the engineers who created a special heat shield to protect the capsule during its fiery reentry. It belongs to the flight directors, camera designers, software experts, suit testers, telescope crew, aerospace technicians, photo developers, engineers, and navigators. Gathering direct quotes from some of these folks who worked behind the scenes, Catherine Thimmesh reveals their very human worries and concerns. Culling NASA transcripts, national archives, and stunning NASA photos

from Apollo 11, she captures not only the sheer magnitude of this feat but also the dedication, ingenuity, and perseverance of the greatest team ever—the team that worked to first put man on that great gray rock in the sky. Winner of the Robert F. Sibert Informational Book Award “An edge-of-your-seat adventure . . . Lavishly illustrated . . . This exhilarating book . . . will captivate.” —Chicago Sun-Times “Thimmesh gives names and voices to the army that got Neil Armstrong and company to the moon and back. The result is a spectacular and highly original addition to the literature of space exploration.” —The Horn Book “This beautiful and well-documented tribute will introduce a new generation to that triumphant time.” —Kirkus Reviews (starred review)

**Neil Armstrong** Time Home Entertainment

History Maker Biographies takes a look into the lives of past and present distinguished people who have gone down in history for contributing to sports, society, science, entertainment, and more. Each title features relevant and/or historical photographs, photo captions, and a timeline. Aligned to Common Core Standards and correlated to state standards. Abdo Kids is a division of ABDO.

Neil Armstrong: First Man on the Moon!

Dial Books for Young Readers

An authorized portrait of the first astronaut to set foot on the moon sheds light on other aspects of his career, from the honors he received as a naval aviator to the price he and his family paid for his professional dedication.

*Growing Cannabis Indoors* Simon and Schuster

Much has been written about Neil Armstrong, America's modern hero and

history's most famous space traveler. Yet shy of fame and never one to steal the spotlight Armstrong was always reluctant to discuss his personal side of events. Here for the first time is the definitive story of Neil's life of flight he shared for five decades with a trusted friend – Jay Barbree. Working from 50 years of conversations he had with Neil, from notes, interviews, NASA spaceflight transcripts, and remembrances of those Armstrong trusted, Barbree writes about Neil's three passions – flight, family, and friends. This is the inside story of Neil Armstrong from the time he flew combat missions in the Korean War and then flew a rocket plane called the X-15 to the edge of space, to when he saved his Gemini 8 by flying the first emergency return from Earth orbit and then flew Apollo-Eleven to the moon's Sea of Tranquility. Together Neil and Jay discussed everything, from his love of flying, to the war years, and of course his time in space. The book is full of never-before-seen photos and personal details written down for the first time, including what Armstrong really felt when he took that first step on the moon, what life in NASA was like, his relationships with the other astronauts, and what he felt the future of space exploration should be. As the only reporter to have covered all 166 American astronaut flights and moon landings Jay knows these events intimately. Neil Armstrong himself said, “Barbree is history's most experienced space journalist. He is exceptionally well qualified to recall and write the events and emotions of our time.” Through his friendship with Neil and his dedicated research, Barbree brings us the most accurate account of his friend's life of flight, the book he planned for twenty years.

*History Maker Biographies* Capstone  
Ever since he was a child Neil Armstrong had been fascinated by flight and airplanes. He learned to fly when he was just 15 years of age and went on to become a navy pilot who saw action in the Korean War. After the war Neil Armstrong spent 7 years testing powerful rocket planes and other types of experimental aircraft before becoming an astronaut with NASA. On July 21 1969 more than 500 million TV viewers back on Earth saw Neil Armstrong become the first human being to set foot on another world. Rod Weston's book gives you the important events in Neil Armstrong's fascinating life in the form of a detailed list of facts. Reading a complete biography can often be intimidating for a young person, but Weston gives you Neil Armstrong's life in 136 easy to understand segments. We are sure that the facts about Neil Armstrong in this book will fascinate you and inspire you to learn much more about the first man to ever walk on the Moon.

*The Story of Neil Armstrong Av2* by Weigl

An introduction to the life of astronaut Neil Armstrong, who was the first man to walk on the moon.

**A Reluctant Icon** Scholastic, Incorporated

!-[if gte mso 9] ![endif]-- Read the bestselling book that inspired the ABC television series. As America's Mercury Seven astronauts were launched on death-defying missions, television cameras focused on the brave smiles of their young wives. Overnight, these women were transformed from military spouses into American royalty. They had tea with Jackie Kennedy, appeared on the cover of Life magazine, and quickly grew into fashion icons. Annie Glenn, with her picture-perfect marriage, was

the envy of the other wives; JFK made it clear that platinum-blond Rene Carpenter was his favorite; and licensed pilot Trudy Cooper arrived with a secret that needed to stay hidden from NASA. Together with the other wives they formed the Astronaut Wives Club, providing one another with support and friendship, coffee and cocktails. As their celebrity rose-and as divorce and tragedy began to touch their lives-the wives continued to rally together, forming bonds that would withstand the test of time, and they have stayed friends for over half a century. THE ASTRONAUT WIVES CLUB tells the story of the women who stood beside some of the biggest heroes in American history. *Reaching for the Moon* Portable Press  
How to become an Astronaut for KIDS! Start your child's Astronaut training and Go to the moon and back! Specially designed for kids ages 5 - 12. Do YOU know how to become an Astronaut? What do you do when your little girl or boy says, "I wanna be an Astronaut when I grow up!" and you don't know yourself!? Here it is, you can put this in her or his little hands and say "This is it kid, your handbook for becoming an astronaut!" ENGAGING pics with just the right amount of words helps your child learn, and at their own pace, because they want to! We should never make the mistake of "dumbing down" our material for what we "perceive" as the right difficulty level for a certain age. Let your kid decide. This book starts out super simple and then gets a little more technical in the end. Just right for all ages! Astronaut training, the Apollo 11 mission, and a very detailed journey to the moon and back and much much more! All with fabulous full-color FULL-PAGE photos in this book to get your kids motivated! Help your kid learn to read -

he or she will WANT to read this if they like planes or want to be an astronaut. Children need role models today, additionally READING -instead of playing video games- should be more encouraged. This is an INTERACTIVE book with lots of Videos--no Apps required!. DEFINITIONS for the harder words are provided to ADVANCE reading skills and comprehension. Razor-sharp graphics and DIAGRAMS to explain the cool parts of the spacecraft and ANSWER all of those questions your kids might have :-)! 80+ pages of LARGE PRINT (16pt.) 8.5 x 11" More Detailed Breakdown: Becoming an Astronaut NASA's requirements to become an Astronaut Astronaut training The Centrifuge Weightlessness Training Weightlessness training in the swimming pool Zero G Aircraft "The Vomit Comet" Astronaut Suits How Does a Rocket Engine Work? The Moon Mission - Apollo 11 Neil Armstrong Buzz Aldrin Michael Collins The Saturn V Rocket and rocket stages The Apollo Spacecraft: The Apollo Command Module The Apollo Service Module The Command and Service Module The Apollo Lunar Module Going to the Moon - Step by Step Gravity on the Moon Moon Buggies Manned Maneuvering Unit (MMU) Returning from the Moon and REENTRY! **An Astronaut's Guide to Life on Earth** First Man The Life of Neil A.

Armstrong

A little mouse who dreams of the moon, travels to the Smithsonian Museum where he learns about the history of mouse aviation and begins preparing for his own journey into outer space.

*Neil Armstrong* Franklin Watts

Presents the biography of the first man on the moon, covering his youth and his career as an astronaut.

*Neil Armstrong* Grand Central Publishing

"Astronaut Neil Armstrong couldn't be held down by Earth's gravity. As the first person to step foot on the moon, Neil took the US space program to new heights. But before he did that, he had humble boyhood jobs-cutting lawns, cleaning ovens, washing airplanes-and plenty of adventures, including building a wind tunnel in his parents' basement! This playful story shows young readers that not even the sky is the limit for their own dreams."--Publisher's description.

*Trailblazers: Neil Armstrong* Penguin

First Man on the Moon: His Life and Legacy "That's one small step for a man, one giant leap for mankind." When Neil Armstrong placed his booted foot on the lunar surface, he took what was already conceived as a transcendent moment in a tumultuous time and, unbelievably, he elevated it. He wasn't just an astronaut, and it wasn't just about science, the space race with the Russians, or any other one thing. It was about possibility, and joy. Neil Armstrong, the new special edition from the editors of LIFE, tells the story of a legendary pilot that risked everything, alongside a brave team of astronauts and NASA engineers, to achieve the impossible. You'll learn all about the space race, and how Houston's finest made good on President John F. Kennedy's promise to reach the moon by the end of the 1960s. About the immense sacrifices-both in time spent and lives lost-the number of missions, and the number of failures before the ultimate success of the Apollo 11 landing. Plus: TIME senior writer Jeffrey Kluger stops by to regale us with a tale of the time he spent with Armstrong, and

we take a peek behind the curtain at the new Oscar-nominated film based on the American hero's life, *First Man*. LIFE's Neil Armstrong is a must-have for the adventurer in your life, and a totemic reminder that when we put our minds to it, anything is possible.

*The Adventurous Journey of a Mouse to the Moon* Createspace Independent Publishing Platform

Discover the life of Neil Armstrong--a story about working hard and achieving the impossible Neil Armstrong became the first person ever to step foot on the moon. Before he flew space missions and made history with his moon landing, Neil was a curious kid who loved putting together model airplanes. He dreamed

about pushing the boundaries of flight and studied hard in school to achieve his goals. Explore how Neil went from being a young boy growing up in Ohio to one of the most famous astronauts in the entire world (and beyond!). How will his can-do attitude and strong dedication inspire you? The Story of Neil Armstrong includes: Test your knowledge--Make sure you understand the story of Neil's life with a fun quiz. Visual timeline-- Watch Neil Armstrong progress from curious kid to famous astronaut. Word definitions--Find a helpful glossary with some of the more advanced words and ideas in the book. You, too, can reach for the stars and do the impossible--just like Neil Armstrong!
