The Panchatantra is a collection of folktales and fables claimed to have been authored in Sanskrit over 2500 years ago by the famous Hindu Scholar Pandit Vishnu Sharma. It provides insight into human behaviour despite the fact that all the characters are from the animal realm. The precise date of the composition of the Panchatantra is unknown and ranges between 1200 BCE and 300 CE. Some researchers date him to the third century BCE.

The Kularnava is perhaps the foremost Tantra of the Kaula School and is constantly cited as an authority in Tantric literature. It is worthy of close study by those who would understand the tenets and practice of the tradition of which it is a Sastra. The Introduction by Arthur Avalon gives a concise outline of the work. Sri M.P. Pandit who is a keen student of the Tantras and Vedas has rendered the work in English in eleven chapters. The readings are free translations, with annotations where necessary, omitting technical details but preserving the spirit and essential import of the original in his characteristically lucid style. The Kularnava prescribes the modes of preparation for the high quest; it draws upon ethics, religion, philosophy, yoga to elevate human life gradually to the level of godly life. It comprehends the multiple personality of man and provides for the healthy growth of his mental faculties, purification of his physical faculties through ritual, japa, mantra and upasana. Who is fit for the path of Tantra? Who is competent to guide the novice on the double-edged razor path? What is the responsibility of a Guru to a disciple? These and other relevant questions are raised and answered in a satisfying manner.

Life of Pi Routledge

Weekly Knowledge Sheets given by Sri Sri Ravi Shankar, a practice which began from the year 1995 and now, have been compiled into Seven Volume Series of books. This book (Volume I) is a collection of weekly talks, conversations and messages that Sri Sri Ravi Shankar gave between June 21 1995 to June 13 1996. An Intimate Note to the Sincere Seeker is a compilation of excerpts of talks by Sri Sri Ravi Shankar in the year 1995 - 1996. While these talks often

discuss the state of the world at the time they were written, because they discuss human life on the most basic levels - love, hatred, trust, peace, silence, happiness, they are still valuable today. They give us an insight into this knowledge that is so deeply profound, yet so simple, knowledge that does not just remain in the intellect, but is beautifully and effortlessly integrated into daily life. Sri Sri avoids lengthy discussions about the deeper philosophy of life, yet his talks reflect these values to their very core. This book is specially compiled to help readers going through an emotional phase or who need a guidance in life. The reader can go through any one random page (365 chapters for 365 days) for help or can follow as per ones discretion

Verses of Vemana - Scholar's Choice Edition The Floating Press

This book documents the history of Tamil cinema, one of the most colossal film industries in the world, and studies the major studios of Madras, the largest outside classical Hollywood in the private sector. It engages with five major studios

of Madras—Modern Theatres, AVM, Gemini, Vijaya-Vauhini, and Prasad—through the origins of their founders, and explicates how their history influenced the narratives, genre, and ideology of the canonical films made in Madras studios, arguing for their lasting influence on Tamil cinema. Based on rare primary and secondary materials, and oral history, this book engages with Tamil cinema at the intersection of its industrial, cultural, and socio-political history to argue for its specificity in terms of its aesthetics and its belief in the potential of the medium to mobilize audiences for ideology, politics, and reflexivity.

In the heat of the city, a man is out of time: speeding in a beat-up Ford Tempo, blasting easy-listening music. Reporter Steve Everett drinks too much, makes love to his boss's wife, and has just stumbled upon a shocking truth: a convicted killer is about to be executed for a crime he didn't commit. In the cold confines of Death Row, Frank Beachum is also out of time. Ready to say goodbye to the wife and child he loves and hello to the God he still believes in, Beachum knows he did not kill a convenience store clerk six years ago. But in a few hours—if Steve Everett can't find the evidence to stop it—a needle is going to pierce Frank Beachum's skin. The killing machine is primed. The executioner is waiting. And so is the priest. Now the clock is ticking down and the race is on—between the reporter and his demons, between the system and its lethal flaws, between the last innocent man and society's ultimate crime. . . .

The classical tradition in Telugu, the mellifluous language of Andhra Pradesh

in southern India, is one of the richest yet least explored of all South Asian literatures. In this volume, Velcheru Narayana Rao and David Shulman have brought together mythological, religious, and secular texts by twenty major poets who wrote between the eleventh and nineteenth centuries, providing an authoritative volume overview of one of the world's most creative poetic traditions. An informative, engaging introduction fleshes out the history of Telugu literature, situating its poets in relation to significant literary themes and historical developments and discussing the relationship between Telugu and the classical literature and poetry of Sanskrit.

When Bina shifts to a school in Nauti- which is a long way from Koli, her village-she must daily cross the mountain, the river and walk through the jungle to get there. She is accompanied by Prakash, a boisterous twelve year old, and Sonu, her excitable younger brother. Together, they have many adventures- from helping old Mr Mani save his potatoes from porcupines to visiting the town of Tehri; and from escaping a landslide to encountering a leopard in the jungle. A touching and warm story by Ruskin Bond, this beautifully illustrated book showcases life in the hills and the wonders of friendship and bravery.

Master the art of writing beautiful and powerful Python by using all of the features that Python 3.5 offers About This Book Become familiar with the most important and advanced parts of the Python code style Learn the trickier aspects of Python and put it in a structured context for deeper understanding of the language Offers an

expert's-eye overview of how these advanced tasks fit together in Python as a whole along with practical examples Who This Book Is For Almost anyone can learn to write working script and create high quality code but they might lack a structured understanding of what it means to be 'Pythonic'. If you are a Python programmer who wants to code efficiently by getting the syntax and usage of a few intricate Python techniques exactly right, this book is for you. What You Will Learn Create a virtualenv and start a new project Understand how and when to use the functional programming paradigm Get familiar with the different ways the decorators can be written in Understand the power of generators and coroutines without digressing into lambda calculus Create metaclasses and how it makes working with Python far easier Generate HTML documentation out of documents and code using Sphinx Learn how to track and optimize application performance, both memory and cpu Use the multiprocessing library, not just locally but also across multiple machines Get a basic understanding of packaging and creating your own libraries/applications In Detail Python is a dynamic programming language. It is known for its high readability and hence it is often the first language learned by new programmers. Python being multi-paradigm, it can be used to achieve the same thing in different ways and it is compatible across different platforms. Even if you find writing Python code easy, writing code that is efficient, easy to maintain, and reuse is not so straightforward. This book is an authoritative guide that will help you learn new advanced methods in a clear and contextualised way. It starts off by creating a project-specific environment

using venv, introducing you to different Pythonic syntax and common pitfalls before moving on to cover the functional features in Python. It covers how to create different decorators, generators, and metaclasses. It also introduces you to `functools.wraps` and coroutines and how they work. Later on you will learn to use `asyncio` module for asynchronous clients and servers. You will also get familiar with different testing systems such as `py.test`, `doctest`, and `unittest`, and debugging tools such as Python debugger and `faulthandler`. You will learn to optimize application performance so that it works efficiently across multiple machines and Python versions. Finally, it will teach you how to access C functions with a simple Python call. By the end of the book, you will be able to write more advanced scripts and take on bigger challenges. **Style and Approach** This book is a comprehensive guide that covers advanced features of the Python language, and communicate them with an authoritative understanding of the underlying rationale for how, when, and why to use them.
