My Alien Origin is an intriguing fish out of water story from outer space. An alien named Lyrad has his mind magically transferred inside the mind of a dying human baby boy named Daryl. The alien grows within his young black host's body and experiences the true meaning of family, and he adjusts to sharing his consciousness with the black child, who miraculously has survived. Lessons are learned by Lyrad as he is confronted by the budding Civil Rights movement in New York City. As Lyrad discovers firsthand the meaning of the words discrimination and prejudice, Daryl comes to understand the meaning of despair and hopelessness. Together they learn to find happiness despite their despair, the way black folks have done for generations.

Donna M. Mosch Craft Murdock retired in 2008 after teaching for 38 years in grades 4 - 6. As a

graduate of Elmira College, her first 17 years were spent teaching in Elmira, NY for the Rochester Diocese. the remaining time was in Williamsburg, VA. During this time she took numerous courses from Shenandoah University and the College of William and Mary. She retired from York County School Division where she taught 5th grade. Her notes that she gave her math students (the basis for this book) have helped her many students excel on their 5th grade math SOL (Standard of Learning) test.

The hot and temperate deserts and their marginal steppe lands comprise one-third of the land surface of the world and are an increasingly critical area for the economic wellbeing of world populations. The remarkable mechanisms of floral, faunal, and human adaptation to the distinct and difficult environment of these arid zones, as well as the potential of modern technology for facilitating adaptation, are described and explained by Walton in the light of our most recent knowledge of the phenomena and processes involved. Beginning with a clarification of the definitions of arid and semi-arid regions and with the delineation of techniques for measuring the degree of aridity in these areas, the author shows that there is wide variation among the arid zones in landscape and climate and that there are numerous local and microclimates within any single arid region. The life cycles of the plants and animals of the arid zones are described and the water resources, including problems of salinity, mineral contamination, and the construction of reservoirs, are examined. Extensive treatment is given to potential agricultural adaptations and to

pastoralism as the most widespread response to dry land. A final chapter summarizes attempts at adaptation to prevailing drought and discusses the kinds of future development that the author deems most likely in arid zones. Throughout the book emphasis is placed on specific, detailed analysis, with adequate tables and formulas for in-depth understanding of particular aspects of aridity. Examples from both Old and New Worlds are used to demonstrate the spheres in which progress is being made and to show the mistakes in past and present land use in arid areas. An essential supplement for courses in physical geography, the book will be useful in many area studies and in studies of economic development.

Jim Rayburn was the Texas Ranger assigned to the bad lands of west Texas from down by Alpine up past Mr. Lubbock's range. His wife was killed by a complete bad boy named Billy Blue Eyes. The gun fight in the middle of town was what Jim hoped it would be. He'd gotten through a year or more of drunk trying to forget the loss, but hadn't. Billy Blue Eye's death would be the only thing to save Jim. Billy and his gang lost the gun battle. Jim moved on to New Mexico and took the job as local Marshal for a small town. He had to solve a murder and when he did he ran up against the local wealthy land owner and a cut throat band of hands who would kill just for the reward the man offered. Jim had to battle the land owner and save the wife and daughter of the dead man at the same time. He lived up to his reputation, man of law. There was no quit in him. He lived the law of the west and made it work. Jim Rayburn, Texas Ranger and Town Marshal. A real western hero.

I wrote this book based on a very challenging fourth grade class that I taught during the 2006-2007 school year. I am both thankful and amazed at how God gave me a special way to teach them a unit on customary measurement which lasted about ten days. It was a year and a class to be remembered. The most memorable experience was teaching the children to measure using my hands, fingers, and other objects to keep the students engaged while learning. I taught, and they learned very well. At the end of the school year, my children showed lots of improvement and growth in their learning. They all were successful with measuring and other subjects as well. I was the happiest 4th grade teacher on this side of heaven. All thanks and praise be to God!!!

"Daring Venture is the story of a great man who influenced the lives of many people. I write the story as one who has been helped by that influence and in the hope it will help his daring spirit to go marching on in the lives of those of us who knew him and loved him, and in others who meet him for the first time in these pages."—Gordon M. Philpott

Notes on the Bronx is a literary portrait of a place that follows the format of Vivaldi's Four Seasons. Each season in this very short book is illustrated with a photograph as a prelude and then moves into an allegro that is a poem and a first-person short, short as an adagio. Each season then ends with a longer story as a concluding movement. All stories and poems are in some way linked to one another with motifs recurring throughout the book, but it is left to the reader to discover, as in a concert, when each theme recurs and how it varies.

The paperback version of *Endzone* includes an all-new, 57-page Afterword covering Michigan's triumphant 2015 season, and never-dull 2016 off-season. Informed by exclusive, in-depth interviews with Jake Rudock, Blake O'Neill, Jake Butt, Jim and Sarah Harbaugh and his parents, the Afterword addresses the players' initial shock at Harbaugh's long practices, their renewed confidence, and the story behind the stunning finish to the Michigan State game, the Wolverines' comebacks against Minnesota and Indiana, and their Citrus Bowl victory over Florida. It also goes a long way to answering the question on everyone's mind: How long will Harbaugh stay in Ann Arbor? Bestselling author John U. Bacon's *Endzone* tells the story of how college football's most successful, richest and respected program almost lost all three in less than a decade - and entirely of its own doing. It is a story of hubris, greed, and betrayal - a tale more suited to Wall Street than the world's top public university. *Endzone* takes you inside the offices, the board rooms and the locker rooms of the University of Michigan Wolverines to see what happened, and why - with countless eye-opening, head-shaking scenes of conflict and conquest. But *Endzone* is also an inspiring story of redemption and revival. When those who loved Michigan football the most recognized it was being attacked from within, they rallied to reclaim the values that made it great for over a century -- values that went deeper than dollars. The list of heroes includes players, students, lettermen, fans and faculty - and the leaders who had the courage to listen to them. Their unprecedented uprising produced a new athletic director, and a new coach - the hottest in the land - who vindicated the fans' faith when he turned down more money and fame to return to the place he loved most: Michigan. If you love a good story, you'll want to dive into *Endzone: The Rise, Fall and Return of Michigan Football*.

The Unlearning Leader is about how today's leaders need to connect for success. The premise of this book is that we all need to unlearn. In order to change and prepare for tomorrow, the authors submit that much of what leaders have learned must be unlearned as we aim to create a new tomorrow for our nation's children. The learning purposes of this book include: Energize people to think, act, and lead differently Embody innovative mindsets Model and share new ways of leading from within the organization Put forth the power and positive impact and legacy for leadership Unlearn old truths to lead in new ways Leverage connection opportunities like #suptchat to lead and learn for tomorrow
