The #1 New York Times Bestseller "An engaging look at the often head-scratching, frequently infuriating mating behaviors that shape our love lives." —Refinery 29 A hilarious, thoughtful, and in-depth exploration of the pleasures and perils of modern romance from Aziz Ansari, the star of Master of None and one of this generation's sharpest comedic voices At some point, every one of us embarks on a journey to find love. We meet people, date, get into and out of relationships, all with the hope of finding someone with whom we share a deep connection. This seems standard now, but it's wildly different from what people did even just decades ago. Single people today have more romantic options than at any point in human history. With technology, our abilities to connect with and sort through these options are staggering. So why are so many people frustrated? Some of our problems are unique to our time. "Why did this guy just text me an emoji of a pizza?" "Should I go out with this girl even though she listed Combos as one of her favorite snack foods? Combos?!" "My girlfriend just got a message from some dude named Nathan. Who's Nathan? Did he just send her a photo of his penis? Should I check just to be sure?" But the transformation of our romantic lives can't be explained by technology alone. In a short period of time, the whole culture of finding love has changed dramatically. A few decades ago, people would find a decent person who lived in their neighborhood. Their families would meet and, after deciding neither party seemed like a murderer, they would get married and soon have a kid, all by the time they were twenty-

four. Today, people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years, Aziz Ansari has been aiming his comic insight at modern romance, but for Modern Romance, the book, he decided he needed to take things to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project, including hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral data and surveys and created their own online research forum on Reddit, which drew thousands of messages. They enlisted the world's leading social scientists, including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and Robb Willer. The result is unlike any social science or humor book we've seen before. In Modern Romance, Ansari combines his irreverent humor with cutting-edge social science to give us an unforgettable tour of our new romantic world.

Arguably the world's most popular partnered social dance form, salsa's significance extends well beyond the Latino communities which gave birth to it. The growing international and cross-cultural appeal of this Latin dance form, which celebrates its mixed origins in the Caribbean and in Spanish Harlem, offers a rich site for examining issues of cultural hybridity and commodification in the context of global migration. Salsa consists of countless dance dialects enjoyed by varied communities in different locales. In short, there is not one dance called salsa, but many. *Spinning Mambo into Salsa*, a history of salsa dance, focuses on its evolution in three major hubs for international commercial export-New York, Los Angeles, and Miami. The book examines how commercialized salsa dance in the 1990s departed from earlier practices of Latin dance, especially 1950s mambo. Topics covered include generational differences between Palladium Era mambo and modern salsa; mid-century antecedents to modern salsa in Cuba and Puerto Rico; tension between salsa as commercial vs. cultural practice; regional differences in New York, Los Angeles, and Miami; the role of the Web in salsa commerce; and adaptations of social Latin dance for stage performance. Throughout the book, salsa dance history is linked to histories of salsa music, exposing how increased separation of the dance from its musical inspiration has precipitated major shifts in Latin dance practice. As a whole, the book dispels the belief that one version is more authentic than another by showing how competing styles came into existence and contention. Based on over 100 oral history interviews, archival research, ethnographic participant observation, and analysis of Web content and commerce, the book is rich with quotes from practitioners and detailed movement description.

Indonesian court dance is famed for its sublime calm and stillness, yet this peaceful surface conceals a time of political repression and mass killing. Rachmi Diyah Larasati reflects on her own experiences as an Indonesian national troupe dancer from a family of persecuted female dancers and activists, examining the relationship between female dancers and the Indonesian state since 1965.

The language of the body is central to the study of flamenco. From the records of the Inquisition, to 16th century literature, to European travel diaries, the Spanish dancer beguiles and

fascinates. The word flamenco evokes the image of a sensuous and rebellious woman--the bailaora --whose movements seduce the audience, only to reject their attention with a stomp of defiance. The dancer's body is an agent of ideological resistance, conveying a conflicting desire for subjectivity and autonomy and implying deeply held ideas about history, national identity, femininity and masculinity. This collection of new essays provides an overview of flamenco scholarship, illuminating flamenco's narrative and chronology and addressing some common misconceptions. The contributors offer fresh perspectives on age-old themes and suggest new paradigms for flamenco as a cultural practice. Instructors considering this book for use in a course may request an examination copy here.

*Asian Development Outlook 2019* Wesleyan University Press

The annual Asian Development Outlook, now in its 30th year, analyzes economic performance in the past year and forecasts

performance in the next 2 years for the 45 economies in Asia and the Pacific that make up developing Asia. Growth prospects in developing Asia remain strong despite persistent external headwinds responsible for moderating expansion since 2017. Global trade and economic activity weakened toward the end of 2018, slowing growth in many economies in the region. The outlook is cloudy with risks that tilt to the downside. A drawn-out trade conflict could undermine trade and investment in the region, and US fiscal policy and the consequences of a disorderly Brexit could weigh on growth in the advanced economies and the People's Republic of China. Though the risk of sharp increases in US interest rates has subsided, policy makers must stay vigilant. Disasters are shaped by natural hazards and the dynamics of the economy, society, and environment in which they occur. They pose a growing threat to development and prosperity in the region, their consequences disproportionately severe in developing countries, especially for the poor and marginalized. As developing Asia is home to more than four-fifths of the people

affected by disasters globally in the past 2 decades, the region must strengthen its disaster resilience. This means integrating disaster risk reduction into national development and investment plans, spending more on prevention for a better balance with spending on rescue and recovery, and pooling risk through insurance and reinsurance.

Why are some films regarded as classics, worthy of entry into the canon of film history? Which sorts of films make the cut and why? *Movie Greats* questions how cinema is ranked and, in doing so, uncovers a history of critical conflict, with different aesthetic positions battling for dominance. The films examined range across the history of cinema: *The Battleship Potemkin*, *The 39 Steps*, *Modern Times*, *Citizen Kane*, *It's a Wonderful Life*, *Black Narcissus*, *The Night of the Hunter*, *Lawrence of Arabia*, *8 1/2*, *2001: A Space Odyssey*, *The Godfather*, *Raging Bull*, *The Piano* and *Kill Bill: Vol. 1*. Each chapter opens with a brief summary of

the film's plot and goes on to discuss the historical context, the key individuals who made the film, and initial and subsequent popular and critical responses. Students studying the history of film, canon formation or film aesthetics will find this book relevant, provocative and absorbing.
