We live in a world of seeds. From our morning toast to the cotton in our clothes, they are quite literally the stuff and staff of life, supporting diets, economies, and civilizations around the globe. Just as the search for nutmeg and the humble peppercorn drove the Age of Discovery, so did coffee beans help fuel the Enlightenment, and cottonseed help spark the Industrial Revolution. And from the Fall of Rome to the Arab Spring, the fate of nations continues to hinge on the seeds of a Middle Eastern grass known as wheat. In nature and in culture, seeds are fundamental—objects of beauty, evolutionary wonder, and simple

fascination. How many times has a child dropped the winged pip of a maple, marveling as it spirals its way down to the ground, or relished the way a gust of wind (or a stout breath) can send a dandelion's feathery flotilla skyward? Yet despite their importance, seeds are often seen as a commonplace, their extraordinary natural and human histories overlooked. Thanks to Thor Hanson and this stunning new book, they can be overlooked no more. What makes *The Triumph of Seeds* remarkable is not just that it is informative, humane, hilarious, and even moving, just as what makes seeds remarkable is not simply their fundamental importance to life. In

both cases, it is their sheer vitality and the delight that we can take in their existence—the opportunity to experience, as Hanson puts it, “the simple joy of seeing something beautiful, doing what it is meant to do.”

Spanning the globe from the Raccoon Shack—Hanson’s backyard writing hideout-cum-laboratory—to the coffee shops of Seattle, from gardens and flower patches to the spice routes of Kerala, this is a book of knowledge, adventure, and wonder, spun by an award-winning writer with both the charm of a fireside story-teller and the hard-won expertise of a field biologist. A worthy heir to the grand tradition of Aldo

Leopold and Bernd Heinrich, *The Triumph of Seeds* takes us on a fascinating scientific adventure through the wild and beautiful world of seeds. It is essential reading for anyone who loves to see a plant grow.

Beware...this book is cursed! These strange but true stories of the world's most infamous items will appeal to true believers as well as history buffs, horror fans, and anyone who loves a good spine-tingling tale. They're lurking in museums,

graveyards, and private homes. Their often tragic and always bizarre stories have inspired countless horror movies, reality TV shows, novels, and campfire tales. They're cursed objects, and all they need to unleash a wave of misfortune is . . . you. Many of these unfortunate items have intersected with some of the most notable events and people in history, leaving death and destruction in their wake. But never before have the true stories of these eerie oddities been compiled into a fascinating and chilling volume. Inside, readers will learn about: • Annabelle the Doll, a Raggedy Ann doll that featured in the horror franchise The Conjuring • The Unlucky Mummy, which is rumored to

have sunk the Titanic and kick-started World War I • The Dybbuk box, which was sold on eBay and spawned the horror film The Possession • The Conjured Chest, which has been blamed for fifteen deaths within a single family • The Ring of Silvianus, a Roman artifact believed to have inspired J. R. R. Tolkien's The Hobbit • And many more!

From the fish that started a war to the pope poisoned with chocolate, discover the fascinating stories behind the origins, traditions, and uses of our food. Explore the tales, symbolism, and traditions that come wrapped up in the food on our plates - food that not only feeds our bodies but also makes up our culture. The Story of Food is a sumptuously illustrated exploration of our millennia-old

relationship with nearly 200 foods. A true celebration of food in all its forms, this book explores the early efforts of humans in their quest for sustenance through the stories of individual foods. Covering all food types including nuts and grains, fruit and vegetables, meat and fish, and herbs and spices, this fascinating reference provides the facts on all aspects of a food's history. Discover how foods have become a part of our culture, from their origins and how they are eaten to their place in world cuisine today. *DK Eyewitness Books: Tree* Yearling Books Kids, ages 9 to 12, get ready to meet your new heroes in the exciting first book of the Botanic Hill Detectives Mysteries

series! World-famous Egyptologist Dr. Winston Thornsley died suddenly two months ago in disgrace. His widow, Ida Thornsley, remains convinced her husband was falsely accused of stealing an ancient burial urn he discovered in Egypt last summer, but local and federal law enforcement officers are stumped. Mrs. Thornsley, desperate for answers, calls in her thirteen-year-old neighbors, the Botanic Hill Detectives--twins Lanny and Lexi Wyatt, Moki Kalani, and Rani Kumar. Their exciting mission? To find the urn and its real thief, bring the criminal to justice, and exonerate Dr. Thornsley so his spotless reputation can be restored. A roomful of venomous snakes, the poisoned Egyptian

pond, and Dragon Pit Man are just a few of the tests awaiting the four tech-savvy teenagers. As the detectives begin to unravel the sinister plot, the mystery takes a dangerous turn. Answers are at their fingertips--if they can only convince their parents to let them solve the case.

as well as a mission statement about comprehending, protecting, and truly experiencing the outdoors, fueled by three journeys undertaken by actor, humorist, and New York Times bestselling author Nick Offerman. Nick Offerman has always felt a particular affection for the Land of the Free—not just for the people and their purported ideals but to the actual land itself: the bedrock, the topsoil, and everything in between that generates the health of your local watershed. In his new book, Nick takes a humorous, inspiring, and elucidating trip to America's trails, farms, and frontier to examine the people who inhabit the land, what that has meant to them and us,

and to the land itself, both historically and currently. In 2018, Wendell Berry posed a question to Nick, a query that planted the seed of this book, sending Nick on two memorable journeys with pals—a hiking trip to Glacier National Park with his friends Jeff Tweedy and George Saunders, as well as an extended visit to his friend James Rebanks, the author of *The Shepherd's Life and English Pastoral*. He followed that up with an excursion that could only have come about in 2020—Nick and his wife, Megan Mullally, bought an Airstream trailer to drive across (several of) the United States. These three quests inspired some “deep-ish” thinking from Nick, about the history and philosophy

of our relationship with nature in our national parks, in our farming, and in our backyards; what we mean when we talk about conservation; and the importance of outdoor recreation, all subjects very close to Nick's heart. With witty, heartwarming stories and a keen insight into the human problems we all confront, this is both a ramble through and celebration of the land we all love.
