Winner of the NASSS Outstanding Book Award Hockey and multiculturalism are often noted as defining features of Canadian culture; yet, rarely are we forced to question the relationship and tensions between these two social constructs. This book examines the growing significance of hockey in Canada's South Asian communities. The Hockey Night in Canada Punjabi broadcast serves as an entry point for a broader consideration of South Asian experiences in hockey culture based on field work and interviews conducted with hockey players, parents, and coaches in the Lower Mainland of British Columbia. This book seeks to inject more "color" into hockey's historically white dominated narratives and representations by returning hockey culture to its multicultural roots. It encourages alternative and multiple narratives about hockey and cultural citizenship by asking which citizens are able to contribute to the webs of meaning that form the nation's cultural fabric.

Serious Leisure offers a comprehensive view and analysis of the current state of the sociology of leisure. Defining and differentiating the way people use their free time, Stebbins divides such activity into categories of serious, casual, and project-based leisure that he further separates into a variety of types and subtypes. Together they comprise what he calls "serious leisure." In this perspective, serious leisure constitutes systematic pursuit of an amateur, hobbyist, or volunteer activity sufficiently substantial and interesting in nature and requiring special skills, knowledge, and experience. Casual leisure, though immediately, intrinsically rewarding, is by contrast a relatively short-lived pleasurable activity, requiring little or no special training to enjoy it. Project-based leisure is a short-term, reasonably complicated, occasional creative undertaking carried out in free time. Stebbins sets out the basic concepts and propositions that make up the three forms, focusing on their essential elements. He takes stock of the serious leisure literature

as well as that for casual and project-based leisure. Stebbins sees "serious leisure" realized by way of a set of foundational concepts--organization, community, history, lifestyle, and culture--and several of their component areas. He reviews the history and background of the concept of serious leisure and then adds historical commentary on, first, casual leisure and, then, project-based leisure. Finally, he examines the future and the importance of the serious leisure perspective in a globalizing world, and some of its critical links with other fields of knowledge and practice, notably the nonprofit sector and preventive medicine. Together with its original insights, *Serious Leisure* offers a single, handy, coherent, comprehensive resource. It will be of interest to sociologists, labor studies specialists, and economists.

"The book has two aims. First, it demonstrates the common ground between the fast-growing fields of environmental history and mobility studies in terms of subject matter, theoretical approaches, and methodology. Second, it shows how mobility--the movements of people, things, and ideas, as well as their associated cultural meanings--has been a key factor in shaping Canadians' perceptions of and interactions with their country. Approaching the burgeoning field of environmental history in Canada through the lens of mobility reveals some of the distinctive ways in which Canadians have come to terms with the country's climate and landscape. The collection seeks to accomplish these aims with a broad scope: a series of case studies that span Canada's diverse regions, from the closing of the age of sail in the late nineteenth century to post-World War II automobile culture. Chapters examine a wide range of topics, from the impact of seasonal climactic conditions on different transportation modes, to the environmental consequences of building mobility corridors and pathways, and the relationship between changing forms of mobility with tourism and other

recreational activities. The contributors employ a number of methodologies, including the use of traditional archival sources (correspondence, government reports, business ledgers, publicity materials) as well as historical geographic information systems (HGIS), qualitative and quantitative analysis, and critical theory."--

What role does history play in contemporary society? Has the frenetic pace of today's world led people to lose contact with the past? A high-profile team of researchers from across Canada sought to answer these questions by launching an ambitious investigation into how Canadians engage with history in their everyday lives. The results of their survey form the basis of this eye-opening book. *Canadians and Their Pasts* reports on the findings of interviews with 3,419 Canadians from a variety of cultural and linguistic communities. Along with yielding rich qualitative data, the surveys generated revealing quantitative data that allows for comparisons based on gender, ethnicity, migration histories, region, age, income, and educational background. The book also brings Canada into international conversation with similar studies undertaken earlier in the United States, Australia, and Europe. *Canadians and Their Pasts* confirms that, for most Canadians, the past is not dead. Rather, it reveals that our histories continue to shape the present in many powerful ways.

This book responds to the need to investigate the complex links between sex and leisure and their implications for research and practice. Understanding sex as leisure aligns with sex-positive culture that focuses on affirming pleasure in the contemporary sexual discourse and advocating for sexual diversity, freedom, empowerment, and fulfilling sex lives. The focus of this book is on analyzing the complexity of sex as leisure in various socio-cultural and geographical contexts, with particular reference to vulnerable populations and pressing sexual issues, including sexual pleasure and expression, biomedicalization of sexuality, and social justice

and sexuality. Specific chapters offer diverse international coverage and address the links between a positive sexuality framework and leisure research. The chapters cover sexual play and sex toys based on consumer experience perspectives; using the leisure lens to analyze sex and pornography addiction; quadriplegic sexuality and leisure; rejection and resilience on a gay cruise; relational dynamics of aging, exploitation, and deceit in sex tourism; sexual harassment of solo female travelers; and the complexity of consent in the sexualized leisure space of a pornography expo. This book will be of great value to those interested in transdisciplinary scholarship as it critically broadens the bio-psycho-socio-cultural perspective of sex as leisure. The chapters in this book were originally published as a special issue of the journal, *Leisure Sciences*.

Changing on the Fly Deep Vellum Publishing

Emma had the perfect trifecta: a long-term job as an engineer designing sewers; a steady relationship with her reliable boyfriend; and an adoring and creative best friend (about whom she wasn't quite ready to admit her unrequited feelings). Then early one morning, a phone call changed her world forever. Now she's having nightmares that threaten to disrupt the space-time continuum -- nightmares of hiding from bombs in basements, of glass shattering from nearby explosions. But these disturbing dreams, in which she inhabits the body of a young girl named Lily, seem all too real, and Emma's waking life begins to be affected by the events that transpire in this mysterious wartime landscape. Convinced she has been given a chance to save a life, Emma tries to rescue Lily from heartache, but ultimately it is through Lily that Emma finds her way back. *The Almond in the Apricot* navigates connections formed across space and time and explores love, grief, and the possibility that the universe might be bigger than either Emma or Lily ever imagined.
