SAP S/4hana Sourcing and Procurement Certification Guide Industrial Press

The approach used on a given spend item should largely depend on the balance between supply power and demand power. That is the logic behind the bestselling Purchasing Chessboard®, used by hundreds of corporations worldwide to reduce costs and increase value with suppliers. The 64 squares in the Purchasing Chessboard provide a rich reservoir of methods that can be applied either individually or combined. And because many of these methods are not customarily used by procurement, the Purchasing Chessboard is also the perfect tool for helping buyers to think and act outside the box and find new solutions. A well-proven concept that works across all industries and all categories in any given situation, it is little wonder that business leaders and procurement professionals alike are excited by, and enjoy strategizing around, the Purchasing Chessboard. This second edition of The Purchasing Chessboard addresses the new realities of a highly volatile economic environment and describes the many—sometimes surprising—ways in which the Purchasing Chessboard is being used in today's business world. Yet despite all of the great achievements of procurement executives and their teams, they do not always receive the recognition they deserve. In response, the authors have developed and outlined within the book an unequivocal approach to measure procurement's impact on a company's performance—Return on Supply Management Assets (ROSMA®).

SAP Certified Application Associate - Ariba Procure-to-Pay (P2P)

These questions are similar to the ones asked in the actual Test. How should I know? I know, because although I have been working as an SAP Ariba consultant for many years, I have myself recently certified with the latest version of the Certification test. Before you start here are some Key features of the Certification Exam. This certification exam verifies that the candidate has the knowledge required in the area of SAP Certified Application Associate - Ariba Procure-to-Pay (P2P). This certificate builds on basic consultant skills and experience that is then refined by practical experience during several projects. Candidates must also demonstrate understanding of P2P Software, Consulting, Integration, Ariba Process Knowledge, Best Practices and Procurement. The exam is Computer based and you have three hours to to answer 80 Questions. The Questions are (mostly) multiple choice type and there is NO penalty for an incorrect answer. Some of the Questions have more than one correct answer. You must get ALL the options correct for you to be awarded points. For questions with a single answer, the answers will have a button next to them. You will be able to select only one button. For questions with multiple answers, the answers will have a 'tick box' next to them. This allows you to select multiple answers. You are not allowed to use any reference materials during the certification test (no access to online documentation or to any SAP system). Clearing the Certification will not automatically lead you to a job. However a Certification with some project experience will certainly open a lot of doors for you. So if you have little or no experience, you should get yourself certified, get some project experience, and then the whole of the SAP Consulting World open for you to explore. Helping you with the first step on you ladder to success is this book! Some UNIQUE

features of this Book: - There is NO Other quality material in the market for this Certification exam. - The authors have themselves cleared the exam. - All questions are multiple choice format, similar the questions you will get in the actual exam. - Over 150 authentic questions, testing the exact same concepts that will be tested in Your exam!

SAP S/4HANA Financial Accounting Certification Guide SAP PRESS

In the 1950s, a method called Material Requirements Planning (or "MRP") changed the world of manufacturing forever. But times have changed--customer tolerance times are shorter, product variety and complexity has increased, and supply chains have spread around the world. MRP is dramatically failing in this "New Normal." Demand Driven Material Requirements Planning (DDMRP), Version 2 presents a practical, proven, and emerging method for supply chain planning and execution that effectively brings the 1950s concept into the modern era. The foundation of DDMRP is based upon the connection between the creation, protection, and acceleration of the flow of relevant materials and information to drive returns on asset performance in the New Normal. Using an innovative multi-echelon "Position, Protect and Pull" approach, DDMRP helps plan and manage inventories and materials in today's more complex supply scenarios, with attention being paid to ownership, the market, engineering, sales, and the supply base. It enables a company to decouple forecast error from supply order generation and build in line to actual market requirements, and promotes better and quicker decisions and actions at the planning and execution level. DDMRP is already in use by MAJOR Global 1000 companies. This book is THE definitive work on DDMRP, and will be required as courseware for all those taking the Certified Demand Driven Planner (CDDP) Program. New Features in Version 2 Completely new Chapter 13, introducing the Demand Driven Adaptive Enterprise (DDAE) Model New Appendix E: The Innovations of DDMRP New and revised graphics scattered throughout the book

Profit from Procurement John Wiley & Sons

Your lack of focus on Procurement is limiting your profits. Multiply them by making Procurement a company-wide priority. *Profit from Procurement: Add 30% to Your Bottom Line by Breaking Down Silos* delivers an insightful, compelling, and fresh take on a subject that typically comprises 50% of a business's total costs: Procurement. Alex Klein, Simon Watson and Jose Oliveira, leaders at the world's largest dedicated Procurement consultancy, highlight the limitations of the traditional, functionally siloed approach to Procurement, and demonstrate how significant EBITDA gains can be made by lifting Procurement out of the back office and enabling it to fundamentally reset a company's cost base. Its accessible, frank, and refreshing style, combined with practical, actionable advice, based on the authors' extensive real-life experience, make it a must read for any executive looking to make an impact through Procurement. The book offers readers a practical and concrete roadmap to optimizing, integrating, and deploying a company's Procurement capabilities, creating a less siloed, more impactful function. Readers will learn how to: Plan their company's Procurement transformation Reskill teams for the coming change Reposition the Procurement function to become the driver of cross-functional change Integrate new topics such as digitalization and sustainability into their Procurement roadmaps Ensure that Procurement efficiencies are fully reflected in bottom-line profits Perfect for C-Suite executives and Procurement professionals at companies of all sizes, *Profit from Procurement* belongs on the bookshelves of every employee and leader tasked with company operations and profit strategy.
