For fans of Kate DiCamillo's Louisiana's Way Home, this heartwarming novel tells the story of ten-year-old Glory Bea as she prepares for a miracle of her very own—her father's return home. Glory Bea Bennett knows that miracles happen in Gladiola, Texas, population 3,421. After all, her grandmother—the best matchmaker in the whole county—is responsible for thirty-nine of them. Now, Glory Bea needs a miracle of her own. The war ended three years ago, but Glory Bea's father never returned home from the front in France. Glory Bea understands what Mama and Grams and Grandpa say—that Daddy died a hero on Omaha Beach—yet deep down in her heart, she believes Daddy is still out there. When the Gladiola Gazette reports that one of the boxcars from the Merci Train (the “thank you” train)—a train filled with gifts of gratitude from the people of France—will be stopping in Gladiola, she just knows daddy will be its surprise cargo. But miracles, like people, are always changing, until at last they find their way home.

THE SUNDAY TIMES BESTSELLER SHORTLISTED FOR SPORTS AUTOBIOGRAPHY OF THE YEAR AT THE 2020 TELEGRAPH SPORTS BOOK AWARDS. BEN STOKES: WINNER OF THE 2019 BBC SPORTS PERSONALITY OF THE YEAR AWARD 'He is the Special One, and I intend to call him that for the rest of his career' Sir Ian Botham, Daily Telegraph 'There are not enough superlatives to describe Ben Stokes' Nasser Hussain, Daily Mail 'The undisputed hero of English cricket' The Times Early evening on Sunday 14th July 2019. Lord's Cricket Ground in London. Something unprecedented had just happened: England had won the Cricket World Cup for the very first time since the tournament's inception in 1975. At the epicentre of England's historic triumph was Ben Stokes, the talismanic all-rounder with an insatiable appetite for The Big Occasion. He contributed a critical 84 runs off 98 balls when England batted, a seemingly nerveless innings of discipline and maturity. Thrillingly, it was enough to tie the scores at 241 runs each, so the match reverted to a Super Over - just six balls for each side to bat in the ultimate in sporting sudden-death. Stokes and Jos Buttler saw England to 15 runs off their over. When it was finally confirmed that Martin Guptill had been run out off the very last ball of New Zealand's Super Over with the scores level once again, England had astonishingly won on the boundary count-back, and the nation could finally breathe again. Early evening on Sunday 25th August 2019. A sun-drenched Headingley in Leeds. Having been bowled out for just 67 earlier in the Third Test, England were facing the prospect of failing to regain the Ashes. In their second innings England were still 73 runs short of victory with a solitary wicket remaining. Australia were near certainties to retain the Ashes there and then. Cue one of the most amazing innings ever witnessed as Ben Stokes thrashed the Australian bowlers to all corners of the ground, in the process scoring 135 not out, driving England to a barely-believable one-wicket victory, and keeping the series very much alive. The nation took another breath. On Fire is Ben Stokes' brand new book, and in it he tells the story of England's electrifying first ever Cricket World Cup triumph, as well as this summer's momentous Ashes Test series. It is the ultimate insider's account of the most nerve-shredding but riveting three-and-a-half months in English cricket history.

A new conception of housing justice grounded in moral principles that appeal to the home's special connection to American life. In response to the twin crises of homelessness and housing insecurity, an emerging “housing justice” coalition argues that America's apparent inability to provide decent housing for all is a moral failing. Yet if housing is a right, as housing justice advocates contend, what is the content of that right? In a wide-ranging examination of these issues, Casey Dawkins chronicles the concept of housing justice, investigates the moral foundations of the US housing reform tradition, and proposes a new conception of housing justice that is grounded in moral principles that appeal to the home's special connection to American life. Dawkins examines the conceptual foundations of justice and explores the social meaning of the American home. He chronicles the evolution of American housing reform, showing how housing policy was pieced together from layers of housing and land-use policies enacted over time, and investigates the endurance—from the

founding of the republic through the postwar era—of the owned single-family home as the embodiment of national values. Finally, Dawkins considers housing justice, drawing on elements of liberalism, republicanism, progressivism, and pragmatism to defend a right-based conception of housing justice grounded in the ideal of civil equality. Arguing that any defense of private property must appeal to the interests of those whose tenure is made insecure by the institution of private property, he proposes a “secure tenure” property regime and a “negative housing tax” that would fund a guaranteed housing allowance.

A warm and unforgettable portrait of a family letting go of the known world to encounter an unfamiliar one filled with rich possibilities and new understandings. Bruce Kirkby had fallen into a pattern of looking mindlessly at his phone for hours, flipping between emails and social media, ignoring his children and wife and everything alive in his world, when a thought struck him. This wasn't living; this wasn't him. This moment of clarity started a chain reaction which ended with a grand plan: he was going to take his wife and two young sons, jump on a freighter and head for the Himalaya. In *Blue Sky Kingdom*, we follow Bruce and his family's remarkable three months journey, where they would end up living amongst the Lamas of Zanskar Valley, a forgotten appendage of the ancient Tibetan empire, and one of the last places on earth where Himalayan Buddhism is still practiced freely in its original setting. Richly evocative, *Blue Sky Kingdom* explores the themes of modern distraction and the loss of ancient wisdom coupled with Bruce coming to terms with his elder son's diagnosis on the Autism Spectrum. Despite the natural wonders all around them at times, Bruce's experience will strike a chord with any parent—from rushing to catch a train with the whole family to the wonderment and beauty that comes with experience the world anew with your children.

"Like citrus, oil, movies, radio, and television, aerospace helped create Southern California and embody its values. Blue Sky Metropolis launches an entirely fresh consideration of an iconic industry that answered the immemorial hunger of the human race for flight and the future."--Kevin Starr, University of Southern California "Blue Sky Metropolis presents an intriguing survey of a unique time in Southern California history, when cheap land and benign weather lured massive aerospace enterprises to the region—eventually serving as home to nearly half of the nation's defense and space fabricators. Before there was a Silicon Valley, high-tech dreamers were on the loose in the Southland, creating inventions as diverse as the Voyager planetary spacecraft and the Stealth bomber. These highly readable essays help us understand how it happened—how Southern California shaped aerospace, and vice versa."—Charles Elachi, Director, Jet Propulsion Laboratory "Peter Westwick has assembled a rich collection of essays that tell a wonderful story about the importance of the aerospace industry to Southern California and the importance of Southern California to the aerospace industry. There's technology, sociology, economics, geography, anthropology, and much more woven through the chapters. It's an ambitious project, but it succeeds in being interesting, informative, and entertaining."—Michael Rich, President and CEO, The RAND Corporation
