[A Chief Inspector Gamache Novel](#) Minotaur Books

This book includes research papers from the 11th National Technical Symposium on Unmanned System Technology. Covering a number of topics, including intelligent robotics, novel sensor technology, control algorithms, acoustics signal processing, imaging techniques, biomimetic robots, green energy sources, and underwater communication backbones and protocols, it will appeal to researchers developing marine technology solutions and policy-makers interested in technologies to facilitate the exploration of coastal and oceanic regions.

Ibn Khaldun among the ruins -- The game of thrones in fourteenth-century North Africa -- The nomads, their virtues and their place in history -- Underpinning the methodology of the Muqaddima: philosophy, theology and jurisprudence -- Ibn khaldun's sojourn among the Mamluks in Egypt -- The sufi mystic -- Messages from the dark side -- Economics before economics had been invented -- Teaching and writing: what Ibn Khaldun did for a living

-- The strange afterlife of the Muqaddima -- Ending up

A Chief Inspector Gamache Novel Grove/Atlantic, Inc.

Chief Inspector Armand Gamache of the Surete du Quebec is called to investigate the death of a villager at an Easter seance that was held at the Old Hadley House.

A Chief Inspector Gamache Novel Minotaur Books

“‘A Better Man,’ with its mix of meteorological suspense, psychological insight and criminal pursuit, is arguably the best book yet in an outstanding, original oeuvre.” —Tom Nolan, The Wall Street Journal “Enchanting... one of his most ennobling missions.” —Marilyn Stasio, New York Times Book Review Catastrophic spring flooding, blistering attacks in the media, and a mysterious disappearance greet Chief Inspector Armand Gamache as he returns to the Sûreté du Québec in the latest novel by #1 New York Times bestselling author Louise Penny. It’s Gamache’s first day back as head of the homicide department, a job he temporarily shares with his previous second-in-command, Jean-Guy Beauvoir. Flood waters are rising across the province. In the middle of the turmoil a father approaches Gamache, pleading for help in finding his daughter. As crisis piles upon crisis, Gamache tries to hold off the encroaching chaos, and realizes the search for Vivienne Godin should be abandoned. But with a daughter of his own, he finds himself developing a profound, and perhaps unwise, empathy for her distraught father. Increasingly hounded by the question, how would you feel..., he resumes the search. As the rivers rise, and the social media onslaught against Gamache becomes crueler, a body is discovered. And in the tumult, mistakes are made. In the next novel in this “constantly surprising series that deepens and darkens as it evolves” (New York Times Book Review),

Gamache must face a horrific possibility, and a burning question. What would you do if your child's killer walked free?

Morgan Kaufmann

When a very, very small beetle decides to attend a ball, he won't let anything stop him -- not even the danger of being squished on the dance floor.

Instant New York Times bestseller: #1 in Hardcover Fiction #1 in E-book Fiction #1 in Combined Print and E-book Fiction "Deep and grand and altogether extraordinary....Miraculous." —The Washington Post "Artful...Powerful...Magical." - The New York Times Book Review "Superb" - People "A Great Reckoning succeeds on every level." —St. Louis Post-Dispatch #1 New York Times bestselling author Louise Penny pulls back the layers to reveal a brilliant and emotionally powerful truth in her latest spellbinding novel. When an intricate old map is found stuffed into the walls of the bistro in Three Pines, it at first seems no more than a curiosity. But the closer the villagers look, the stranger it becomes. Given to Armand Gamache as a gift the first day of his new job, the map eventually leads him to shattering secrets. To an old friend and older adversary. It leads the former Chief of Homicide for the Sûreté du Québec to places even he is afraid to go. But must. And there he finds four young cadets in the Sûreté academy, and a dead professor. And, with the body, a copy of the old, odd map. Everywhere Gamache turns, he sees Amelia Choquet, one of the cadets. Tattooed and pierced. Guarded and angry. Amelia is more likely to be found on the other side of a police line-up. And yet she is in the academy. A protégée of the murdered professor. The focus of the investigation soon turns to Gamache himself and his mysterious relationship with Amelia, and his possible involvement in the crime. The frantic search for answers takes the investigators back to Three Pines and a stained glass window with its own horrific secrets. For both Amelia Choquet and Armand Gamache, the time has come for a great reckoning.

Robert Lacoste's The Darker Side column has quickly become a must read among Circuit Cellar devotees. His column provides readers with succinct theoretical concepts and practical applications on topics as far reaching as digital modulation to antenna basics. Difficult concepts are demystified as Robert shines a light on complex topics within electronic design. This book collects sixteen Darker Side articles that have been enriched with new, exclusive content from the author. An intro into The Darker Side will give examples of material that can enhance and optimize the way you design. A Scilab tutorial along with Scilab software and all project material will be included with this package so that all projects can be tackled hands-on. It's time to stop being afraid of the dark, let this book easily guide you through the time-draining, problematic elements of your application design. Tips and tricks to enhance design performance Practical advice on topics from digital signal design to electromagnetic interference

The Wretched of the Earth John Wiley & Sons

"Elvis Cole provides more fun for the reader than any L.A. private eye to come along in years."—Joseph Wambaugh WINNER OF THE ANTHONY AND MACAVITY AWARDS FOR BEST NOVEL • NOMINATED FOR THE EDGAR AND SHAMUS AWARDS FOR BEST NOVEL Meet Elvis Cole, L.A. Private Eye. . . . He quotes Jiminy Cricket and carries a .38. He's a literate, wisecracking Vietnam vet who is determined to never grow up. When quiet Ellen Lang enters Elvis Cole's Disney-Deco office, she's lost something very valuable—her husband and her young son. The case seems simple enough, but Elvis isn't thrilled. Neither is his enigmatic partner and firepower, Joe Pike. Their search down the seamy side of Hollywood's studio lots and sculptured lawns soon leads them deep into a nasty netherworld of drugs, sex—and murder. Now the case is getting interesting, but it's also turned ugly. Because everybody, from cops to starlets to crooks, has declared war on Ellen and Elvis. For Ellen, it isn't Funtown anymore. For Elvis, it's just a living . . . He hopes. Praise for The Monkey's Raincoat "Outstanding characters, tight plot, and scintillating prose style. . . . This fast-paced story speeds Elvis Cole to a chilling, heart-stopping ending."—Mystery Scene "Is Bob Crais good? Put it this way: if they're taking you out to put you against the firing squad wall, and you want to enjoy your last moments on earth, pass on the last cigarette and ask for an Elvis Cole novel."—Harlan Ellison "Far and away the most satisfying private eye novel in years. Grab this one—it's a winner!"—Lawrence Block "The best private eye novel of the year . . . lots of action; bright, crisp dialogue; and sharply drawn characters."—The Denver Post "Robert B. Parker has some competition on his hands. . . . Elvis Cole is an appealing character and Crais's style is fresh and funny."—Sue Grafton "In Crais, a new star has appeared on the private eye scene—a dazzling first novel."—Tony Hillerman

Second International Conference, ICMDCS 2021, Vellore, India, February 11-13, 2021, Revised Selected Papers Minotaur Books

Catherine O'Brien draws on the structure of Dante Alighieri's Divine Comedy to explore Martin Scorsese's feature films from Who's That Knocking at My Door (1967-69) to Silence (2016). This is the first full-length study to focus on the trajectory of faith and doubt during this period, taking very seriously the oft-quoted words of the director himself: 'My whole life has been movies and religion. That's it. Nothing else.' Films discussed include GoodFellas, The Last Temptation of Christ, Taxi Driver and Mean Streets, as well as the more recent The Wolf of Wall Street. In Dante's poem in 100 cantos, the Pilgrim is guided by the poet Virgil down through the circles of Hell in Inferno; he then climbs the steep Mountain of the Seven Deadly Sins in Purgatory; and he finally encounters God in Paradise. Embracing this popular analogy, this study envisions Scorsese as a contemporary Dante, with his filmic oeuvre offering the dimensions of a cinematic Divine Comedy. Drawing on debates at the heart of religious studies, theology, literature and film, this book goes beyond existing explorations of religion in Scorsese's work to address issues of sin and salvation within the context of wider debates in eschatology and the afterlife.

The #1 New York Times Bestseller "There is a crack in everything. That's how the light gets in." —Leonard Cohen Christmas is approaching, and in

Québec it's a time of dazzling snowfalls, bright lights, and gatherings with friends in front of blazing hearths. But shadows are falling on the usually festive season for Chief Inspector Armand Gamache. Most of his best agents have left the Homicide Department, his old friend and lieutenant Jean-Guy Beauvoir hasn't spoken to him in months, and hostile forces are lining up against him. When Gamache receives a message from Myrna Landers that a longtime friend has failed to arrive for Christmas in the village of Three Pines, he welcomes the chance to get away from the city. Mystified by Myrna's reluctance to reveal her friend's name, Gamache soon discovers the missing woman was once one of the most famous people not just in North America, but in the world, and now goes unrecognized by virtually everyone except the mad, brilliant poet Ruth Zardo. As events come to a head, Gamache is drawn ever deeper into the world of Three Pines. Increasingly, he is not only investigating the disappearance of Myrna's friend but also seeking a safe place for himself and his still-loyal colleagues. Is there peace to be found even in Three Pines, and at what cost to Gamache and the people he holds dear? How the Light Gets In is the ninth Chief Inspector Gamache Novel from Louise Penny. One of Publishers Weekly's Best Mystery/Thriller Books of 2013 One of The Washington Post's Top 10 Books of the Year An NPR Best Book of 2013

NEW YORK TIMES AND USA TODAY BESTSELLING AUTHOR "Take my word for it, James Reece is one rowdy motherf***er. Get ready!"—Chris Pratt, all around great guy and star of The Terminal List, coming to Amazon Prime A Navy SEAL has nothing left to live for and everything to kill for after he discovers that the American government is behind the deaths of his team in this ripped-from-the-headlines political thriller that is "so powerful, so pulse-pounding, so well-written—rarely do you read a debut novel this damn good" (Brad Thor, #1 New York Times bestselling author). On his last combat deployment, Lieutenant Commander James Reece's entire team was killed in a catastrophic ambush. But when those dearest to him are murdered on the day of his homecoming, Reece discovers that this was not an act of war by a foreign enemy but a conspiracy that runs to the highest levels of government. Now, with no family and free from the military's command structure, Reece applies the lessons that he's learned in over a decade of constant warfare toward avenging the deaths of his family and teammates. With breathless pacing and relentless suspense, Reece ruthlessly targets his enemies in the upper echelons of power without regard for the laws of combat or the rule of law. With "crackerjack plotting, vivid characters both in and out of uniform, and a relentless pace to a worthy finish" (Stephen Hunter, #1 New York Times bestselling author), The Terminal List is perfect for fans of Vince Flynn, Brad Thor, and Nelson DeMille.

High Speed Digital Design discusses the major factors to consider in designing a high speed digital system and how design concepts affect the functionality of the system as a whole. It will help you understand why signals act so differently on a high speed digital system, identify the various problems that may occur in the design, and research solutions to minimize their impact and address their root causes. The authors offer a strong foundation that will help you get high speed digital system designs right the first time. Taking a systems design approach, High Speed Digital Design offers a progression from fundamental to advanced concepts, starting with transmission line theory, covering core concepts as well as recent developments. It then covers the challenges of signal and power integrity, offers guidelines for channel modeling, and optimizing link circuits. Tying together concepts presented throughout the book, the authors present Intel processors and chipsets as real-world design examples. Provides knowledge and guidance in the design of high speed digital circuits Explores the latest developments in system design Covers everything that encompasses a successful printed circuit board (PCB) product Offers insight from Intel insiders about real-world high speed digital design

The New Statesman and Nation Robert Lacoste's The Darker Side Practical Applications for Electronic Design Concepts from Circuit Cellar

This account of a tennis match played by Arthur Ashe against Clark Graebner at Forest Hills in 1968 begins with the ball rising into the air for the initial serve and ends with the final point. McPhee provides a brilliant, stroke-by-stroke description while examining the backgrounds and attitudes which have molded the players' games.

Broadband Cable Access Networks focuses on broadband distribution and systems architecture and concentrates on practical concepts that will allow the reader to do their own design, improvement, and troubleshooting work. The objective is to enhance the skill sets of a large population that designs and builds broadband cable plants, as well as those maintaining and troubleshooting it. A large cross-section of technical personnel who need to learn these skills design, maintain, and service HFC systems from signal creation through transmission to reception and processing at the customer end point. In addition, data/voice and video specialists need to master and reference the basics of HFC design and distribution before contending with the intricacies of their own unique services. This book serves as an essential reference to all cable engineers—those who specifically design and maintain the HFC distribution plant as well as those primarily concerned with data/voice technology as well as video technology. Concentrates on practical concepts that will allow the user to do his own design, improvement, and trouble-shooting work. Prepares cable engineers and technicians to work with assurance as they face the latest developments and future directions. Concise and tightly focused, allowing readers to easily find answers to questions about an idea or concept they are developing in this area.
