MOHAMMED CROSS

Castration and the Heavenly Kingdom Univ of California Press Istanbul, capital of two great empires, confluence of Asia and Europe, has called forth poetry throughout her long history, from paupers and sultans, natives and visitors alike.

When Mehmed the Conqueror first wandered through the ruins of the Byzantine palace, it was with the words of the Persian poet Ferdowsi on his lips: "The spider spins his web in the Palace of the Caesars/ An owl hoots in the towers of Afrasiyab". Since then the silhouette of thousand-year-old domes and tapering minarets, the sunsets reflected nightly in a thousand palace

windows and the bustle of her markets have inspired Sultan Suleyman, W B Yeats and Nazim Hikmet, amongst others, to salute one of the world's most remarkable cities.

The Imperial City John Murray Here is the long-awaited new edition, with coverage of all major monuments and details on how to get around, food, and accommodations. **A Classic Guide to the**

influence over the changing lives of their urban populations. *All that is Solid Melts Into Air* Cornell University Press One day Sophie comes home from school to find two questions in her mail: "Who are you?" and "Where does the world come from?" Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's

unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy. **Lonely Planet Istanbul** New York Review of Books This beloved account about an intrepid young Englishman on the first leg of his walk from London to Constantinople is simply one of the best works of travel literature ever written. At the age of eighteen, Patrick Leigh

Fermor set off from the heart of London on an epic journey—to walk to Constantinople. *A Time of Gifts* is the rich account of his adventures as far as Hungary, after which *Between the Woods and the Water* continues the story to the Iron Gates that divide the Carpathian and Balkan mountains. Acclaimed for its sweep and intelligence, Leigh Fermor's book explores a remarkable

moment in time. Hitler has just come to power but war is still ahead, as he walks through a Europe soon to be forever changed—through the Lowlands to Mitteleuropa, to Teutonic and Slav heartlands, through the baroque remains of the Holy Roman Empire; up the Rhine, and down to the Danube. At once a memoir of coming-of-age, an account of a journey, and a dazzling exposition of

the English language, A Time of Gifts is also a portrait of a continent already showing ominous signs of the holocaust to come. Istanbul Cornucopia Books/Caique Publishing First published in 2005. European scholars who came before. In reality, more than a millennium before the Renaissance, a succession of scholars paved the way for the exciting discoveries usually credited to Galileo, Newton, Copernicus, and others. In *Before Galileo*, physicist and historian John Freely examines the pioneering research of the first European scientists, many of them monks whose

influence ranged far beyond the walls of the monasteries where they studied and wrote. *Istanbul* I.B. Tauris Planning to travel to Istanbul and want to know what adventures will await you? Already been and want to know more? "Inside Out In Istanbul" is a collection of short stories about life in Istanbul by author Lisa Morrow. Lisa first went to Turkey in 1990, where she stayed in

the small village of Göreme for three months during the Gulf War. Since that time she has travelled back and forth between Turkey and Australia many times, living and working in Istanbul and Kayseri in central Turkey, before finally settling for good in Istanbul. The stories in this collection take you beyond the world famous sights of Istanbul to the shores of Asia, to an Istanbul that

is vibrantly alive with the sounds of street vendors, wedding parties, weekly markets and more. Come behind the tourist façades and venture deep into this sometimes chaotic, often schizophrenic but always charming city. Tauris Parke Paperbacks This classic guide to Istanbul by Hilary Summer-Boyd and John Freely - the 'best travel guide to Istanbul' ("The

Times"), 'a guide book that reads like a novel' ("New York Times") - is here, for the first time since its original publication thirty-seven years ago, published in a completely revised and updated new edition. Taking the reader on foot through this captivating city - European City of Culture 2010 - the authors describe the historic monuments and sites of what was once

Constantinopl e and the capital in turn of the Byzantine and Ottoman Empires, in the context of the great living city. Woven throughout are vivid anecdotes, secret histories, hidden gems and every major place of interest the traveler will want to see. Practical and informative, readable and vividly described, this is the definitive guide to and story of Istanbul, by	those who know it best. <u>Turkey</u> Createspace Independent Pub Sultan Mehmet II, known to his countrymen as 'the Conqueror' and to much of Europe as 'the Terror of the World,' was once Europe's most feared and powerful ruler. Now, Turkey?s most beloved American scholar, John Freely, brings to life this charismatic hero of one of the richest histories in the world. Mehmet was	barely twenty- one when he conquered Byzantine Constantinopl e, which became Istanbul and the capital of his mighty empire. Mehmet reigned for thirty years, during which time his armies extended the borders of his empire halfway across Asia Minor and as far into Europe as Hungary and Italy. Three popes called for crusades against him as Christian Europe came face to face

with a new Muslim empire. Revered by the Turks and seen as a brutal tyrant by the West, Mehmet was a brilliant military leader as well as a renaissance prince. His court housed Persian and Turkish poets, Arab and Greek astronomers, and Italian scholars and artists. In the first biography of Mehmet in thirty years, John Freely vividly illuminates the man behind the myths.

Strolling Through Istanbul National Geographic Books Philip Mansel's highly acclaimed history absorbingly charts the interaction between the vibrantly cosmopolitan capital of Constantinople - the city of the world's desire - and its ruling family. In 1453, Mehmed the Conqueror entered Constantinople on a white horse, beginning an Ottoman love

affair with the city that lasted until 1924, when the last Caliph hurriedly left on the Orient Express. For almost five centuries Constantinople, with its enormous racial and cultural diversity, was the centre of the dramatic and often depraved story of an extraordinary dynasty. <p>Parke Elderly British men display a variety of annoying habits. They write letters to the newspapers; they drink too much; they reminisce about the old days; they make lewd comments to younger women; they shout at the television screen; and they go for long walks and get lost. Jeremy Cameron chose the last of these options. Trying to emulate Patrick Leigh</p>	<p>Fermor's feat of 1933, he walked from Hook of Holland to Istanbul. Leigh Fermor was a legendary figure. Scholar, multilingualist, beautiful prose stylist, war hero, tough guy, charmer and famous lover: Cameron is none of these things and he also suffers from a heart condition. Rest assured that there will be no tedious details of operations or stoicism in this book. Nor will there be descriptions of</p>	<p>understated generosity, quiet irony or British phlegm. The main point of travel is to recognise the virtues of staying at home. When at home, it is not possible to get bogged down in Alpine snow, fall over on one's face on Kosovan tarmac or suffer a comprehensiv e mugging on deserted roads in Greece. Nor does one have to speak foreign languages, eat foreign food or, above all, drink terrible</p>

tea. It is about two thousand miles from Hook of Holland to Istanbul. Thirteen countries lie in wait for the walker. They have many wonderful sights and much fascinating history. Readers will not find them in this book. They will, however, find a number of stories of varying authenticity and some very dubious observations about life. By the time Turkey arrived,

Cameron was utterly and completely fed up with the whole process. Never again would he do anything quite so stupid. He is currently walking round all the places in England beginning with the letter Q. Stamboul Ghosts Penguin A virtuoso performance by historian Norman Stone, who has lived and worked in the country since 1997, this concise survey of Turkey's relations with its immediate

neighbours and the wider world from the 11th century to the present day. Stone deftly conducts the reader through this story, from the arrival of the Seljuks in Anatolia in the eleventh century to the modern republic applying for EU membership in the twenty-first. It is an historical account of epic proportions, featuring rapacious leaders such as Genghis Khan and

Tamerlane through the glories of Sultan Süleyman the Magnificent to Kemal Atatürk, the reforming genius and founder of modern Turkey. At its height, the Ottoman Empire was a superpower that brought Islam to the gates of Vienna. Stone examines the reasons for the empires long decline and shows how it gave birth to the modern Turkish republic, where east

and west, religion and secularism, tradition and modernity still form vibrant elements of national identity. Norman Stone brilliantly draws out the larger themes of Turkey's history, resulting in a book that is a masterly exposition of the historians craft. On Foot to Constantinople: From the Hook of Holland to the Middle Danube Abrams Since the days of Troy historic lands

of Asia Minor have been home to Greeks. They are steeped in a rich fusion of Greek and Turkish culture and the histories of both are irrevocably entwined, fatefully connected. "Children of Achilles" tells the epic and ultimately tragic story of the Greek presence in Anatolia, beginning with the Trojan War and culminating in 1923 with the devastating population exchange that followed the
