### **Accounting : an Introduction** Pearson Education

Management Extra brings all the best management thinking together in one package. The series fuses key ideas with applied activities to help managers examine and improve how they work in practice. Management Extra is an exciting, new approach to management development. The books provide the basis for self-paced learning at level 4/5. The flexible learning structure allows busy participants to study at their own convenience, minimising time away from the job. The programme allows trainers to quickly plan and deliver high quality, business-led courses. Trainers can select materials to meet the needs of their delegates, clients, and budget. Each book is divided into themes of ideal length for delivering in a training session. Each theme has a range of activities for delegates to complete, putting the training into context and relating it to their own situation and business. The books' lively style will stimulate further interest in the subjects covered. Guides for further reading and valuable web references provide a lead-in to further research. Management Extra is based on the NVQ framework to ease the creation of Diploma, Post Graduate Diploma or NVQ programmes for managers. It is accredited with all leading awarding bodies.

### *INTRODUCTORY FINANCIAL ACCOUNTING FOR BUSINESS* Ft Press

From the well-established author team of Eddie McLaney and Peter Atrill this text aims to offer non-specialist students a balanced introduction to financial and management accounting.

### *Business Finance* Cengage AU

Business finance from a user's perspective is the focus of this book, rather than being purely an academic study. It is an introduction to making decisions about investments the firm should make and how best to finance those decisions.

### **Business Finance** Financial Times/Prentice Hall

This edition of 'Accounting and Finance for Non-Specialists' provides comprehensive coverage of the basic concepts and practical applications of financial accounting, management accounting and

financial management.

### *The Intoxication of Power* Financial Times/Prentice Hall

Adopting an innovative, open-learning approach to introduce the main principles of financial management in an accessible, non-technical way, this fully updated fifth edition provides a unique focus on the practical application of financial management and its role in decision making. New to this edition: Expanded coverage of key topics such as financing the business Increased coverage of corporate governance issues Even more real-world examples to help illustrate the practical application and importance of the topics discussed Financial statements throughout based on the latest International Accounting Standards Full-colour design, packed with pedagogical features, providing an original learning experience Key features: Written in a unique, 'open learning' style Clear explanations and minimal technical jargon to aid understanding -no previous knowledge of financial management is assumed Based on a solid foundation of theory, but focusing throughout on its value for decision making Covering all the main areas of financial management in sufficient detail to provide a good grasp of the subject Numerous examples, activities and exercises throughout, allowing the reader to test his/her knowledge at frequent intervals Fully supported by a comprehensive range of student and lecturer learning resources, *Financial Management for Decision Makers* is ideal for undergraduates from a non-finance/accounting discipline taking an introductory module in financial management, and postgraduate/postexperience students on courses such as the ACCA Diploma in Financial Management, Diploma in Management Studies and MBA programmes. The text is also suitable for finance and accounting students as a foundation for further study. Peter Atrill is a freelance academic and author working with leading institutions in the UK, Europe and SE Asia. He has previously held posts as Head of Business and Management and Head of Accounting and Law at University of Plymouth Business School.

### Financial Accounting Pearson Education

From the well-established author team of Eddie McLaney and Peter Atrill this text aims to offer non-specialist students a balanced introduction to financial and management accounting.

### *Financial Management of Health Care Organizations* John Wiley & Sons

Business Finance is suitable for undergraduates in accounting and finance and for those on finance and financial management courses. It is also appropriate for postgraduate students with an option in accounting and finance and will be highly useful for professional accounting students.

### *Management Accounting for Decision Makers* McGraw-Hill/Irwin

This textbook presents an overview of how the activities of an organisation can be managed to satisfy the needs of stakeholders through the cost effective, operationally efficient and sustainable transformation of resources into outputs. Taking an interdisciplinary approach, the authors show the relationship between management and economics and within this framework present the key areas of management activity. The book explains the connections between these areas and provides tools and instruments for successful management. The book's approach and content is relevant for all kinds of organisation - private or public sector, service or manufacturing, non-profit, large or small.

Each chapter provides cases to illustrate what has been discussed and some questions to test comprehension. Throughout the book is a continuing project in which the reader is put in the position of owning their own business and must think and make decisions about what the chapter has discussed. The book combines Anglo-American and German approaches to management and management studies, making it a valuable resource both for those who are studying management and those who are working as managers.

*Accounting* Financial Times/Prentice Hall

Accounting: an introduction by Atrill provides a clear and approachable introduction to accounting and finance for those seeking to understand the main concepts and their practical application to good decision-making.

**CORPORATE ACCOUNTING - FOURTH EDITION** Prentice Hall

Thoroughly revised, this third edition of *Financial Management of Health Care Organizations* offers an introduction to the most-used tools and techniques of health care financial management. Comprehensive in scope, the book covers a broad range of topics that include an overview of the health care system and evolving reimbursement methodologies; health care accounting and financial statements; managing cash, billings, and collections; the time value of money and analyzing and financing major capital investments; determining cost and using cost information in decision-making; budgeting and performance measurement; and pricing. In addition, this new edition includes information on new laws and regulations that affect health care financial reporting and performance, revenue cycle management expansion of health care services into new arenas, benchmarking, interest rate swaps, bond ratings, auditing, and internal control. This important resource also contains information on the 2007 Healthcare Audit Guide of the American Institute of Certified Public Accountants (AICPA). Written to be accessible, the book avoids complicated formulas. Chapter appendices offer advanced, in-depth information on the subject matter. Each chapter provides a detailed outline, a summary, and key terms, and includes problems in the context of real-world situations and events that clearly illustrate the concepts presented. Problem sets that end each chapter have been updated and expanded to support more in-depth learning of the chapters' concepts. An Instructor's Manual, available online, contains PowerPoint and Excel files. *Financial and Management Accounting: An Introduction Instructor's Manual* Pearson Higher Education AU

AUDIENCE: For upper level undergraduate and MBA Management Accounting courses. APPROACH: Atkinson is a managerially-oriented book that focuses on both quantitative and qualitative aspects of classical and contemporary managerial accounting. COMPETITORS: Garrison, MH;

**Accounting and Finance for Non-specialists** Springer

Revised edition of the author's *Business finance*, 2014.

**Accounting - An Introduction** Routledge

The SAGE Course Companion on Management Accounting is an accessible introduction to the subject that will help readers extend their understanding of key concepts and enhance their thinking skills in line with course requirements. It provides support on how to revise for exams, how to present calculations and how to prepare for and write assessed pieces. Readers are encouraged not only to think like a management accountant but also to think about the subject critically. Designed

to compliment existing textbooks for the course, the companion provides: - Easy access to the key themes in Management Accounting and an over view of its business context - Helpful summaries of the approach taken by the main textbooks on the course - Guidance on the essential study skills required to pass the course - Sample exam questions and answers, with common pitfalls to avoid - A tutor's-eye view of what course examiners are looking for - A road map for the book to help readers quickly find the information they need The SAGE Course Companion on Management Accounting is much more than a revision guide for undergraduates; it is an essential tool that will help readers take their course understanding to new levels and achieve success in their undergraduate course.

**Accounting and Finance for Non-specialists** Springer

Libby/Libby/Short wrote this text based on their belief that the subject of financial accounting is inherently interesting, but financial accounting textbooks are often not. They believe most financial accounting textbooks fail to demonstrate that accounting is an exciting field of study and one that is important to future careers in business. When writing this text, they considered career relevance as their guide when selecting material, and the need to engage the student as their guide to style, pedagogy, and design. Libby/Libby/Short is the only financial accounting text to successfully implement a real-world, single focus company approach in every chapter. Students and instructors have responded very favorably to the use of focus companies and the real-world financial statements. The companies chosen are engaging and the decision-making focus shows the relevance of financial accounting regardless of whether or not the student has chosen to major in accounting.

**Business Finance** McGraw-Hill Higher Education

The full text downloaded to your computer With eBooks you can: search for key concepts, words and phrases make highlights and notes as you study share your notes with friends eBooks are downloaded to your computer and accessible either offline through the Bookshelf (available as a free download), available online and also via the iPad and Android apps. Upon purchase, you'll gain instant access to this eBook. Time limit The eBooks products do not have an expiry date. You will continue to access your digital ebook products whilst you have your Bookshelf installed. The *Financial Times Guide to Investing* is the definitive introduction to the art of successful stock market investing. Bestselling author Glen Arnold takes you from the basics of what investors do and why companies need them through to the practicalities of buying and selling shares and how to make the most from your money. He describes different types of investment vehicles and advises you on how to be successful at picking companies, understanding their accounts, managing a sophisticated portfolio, measuring performance and risk and setting up an investment club. The 3rd edition of this investing classic will give you everything you need to choose your shares with skill and confidence. Thoroughly updated, this edition now includes: Comprehensive advice about unit trusts and other collective investments A brand new section on dividend payments and what to watch out for An expanded jargon-busting glossary to demystify those complex phrases and concepts Recent Financial Times articles and tables to illustrate and expand on case studies and examples Detailed updates of changes to tax rates and legislation as well as increases in ISA allowances and revisions to capital gains tax

*Accounting and Finance* Pearson UK

This text is an introductory course in management accounting for those seeking an understanding of basic principles and underlying concepts without detailed technical knowledge. It has a strong practical emphasis, with plenty of examples taken from the real world as well as numerical examples with step-by-step explanations.

Accounting and Finance for Non-specialists Pearson Higher Ed

Designed to help you study, *Accounting An Introduction* 4th edition is praised for its clear, accessible and uncluttered style. It provides a comprehensive introduction to the main principles of financial accounting, management accounting, and the core elements of financial management. It has a clear and unequivocal focus on how accounting information can be used to improve the quality of decision making by managers. This, combined with the book's strong practical emphasis, provides you with

the perfect grounding for your future career as a manager.

**Finney and Miller's Principles of Accounting** Pearson

Now in its fifth edition, this successful text introduces the basic principles and underlying concepts of accounting and finance. It adopts a practical, non-technical approach, making it the ideal text for students from non-accounting disciplines. The text is written from a 'user' perspective, demonstrating ways in which accounting statements and financial information can be used to improve the quality of decision making.

*Management Accounting* Pearson Education

"[This book] presents both the basic concepts underlying financial statements and the methods that allow students to prepare, interpret, analyze, and evaluate corporate financial statements and their underlying business transactions."--
