Features an audio read-along! With a simple, witty story and free-spirited illustrations, Peter H. Reynolds entices even the stubbornly uncreative among us to make a mark -- and follow where it takes us. Her teacher smiled. "Just make a mark and see where it takes you." Art class is over, but Vashti is sitting glued to her chair in front of a blank piece of paper. The words of her teacher are a gentle invitation to express herself. But Vashti can't draw - she's no artist. To prove her point, Vashti jabs at a blank

sheet of paper to make an unremarkable and angry mark. "There!" she says. That one little dot marks the beginning of Vashti's journey of surprise and self-discovery. That special moment is the core of Peter H. Reynolds's delicate fable about the creative spirit in all of us.

#### A Preface to Marketing Management

Prentice Hall

Each year American executives make nearly eight million trips overseas for international business. In the process,

they leave billions of dollars on the negotiation table. Global Negotiation provides critical tools to help businesspeople save money (and face) when negotiating across cultural divides. Drawing on their more than 50 combined years of experience, as well as extensive field research with over 2000 business people in 21 different cultures, John L. Graham and William Hernández Requejo have discovered how to create long-lasting commercial relationships around the world. The authors provide a rare combination of practical insight and illuminating anecdotes, and offer examples from well-known companies such as Toyota, Ford, Intel, AT&T, Rockwell, Boeing, and Wal-Mart.

**Marketing** Prentice Hall

Cross-cultural marketing is an important

element of the contemporary business environment. Many conventional accounts of the topic have conflated cross-cultural and cross-national marketing, but in this groundbreaking, new book, Burton argues that these generalizations have little meaning given the extent of multi-culturalism in many societies. Given the importance of new emerging markets in the Far East, Middle East, Asia and Latin America, this book raises important questions about the applicability of existing marketing theory and practice, which was originally developed using the model of Western society. An extensive range of cross-cultural marketing issues is addressed, including: Cross-cultural consumer behaviour Cross-cultural management practice Promotional strategies Product

development Distribution Marketing research methods Cross-cultural Marketing offers a new, more complex and sophisticated approach to the important challenges for existing marketing theory and practice and their continued relevance for stakeholders. As such, it is an invaluable text for students of international and cross-cultural marketing, as well as for practitioners who wish to assess new developments in the field.
