The most practical, real-world presentation of cost accounting on the market, this book blends a traditional and proven method of teaching cost accounting with the integration of innovative topics. Cost topics are covered in the context of organizational strategy and operational tactics, as cost management decisions are sensitive to strategies driven by quality, cost, and innovation. Kinney, Prather-Kinsey, and Raiborn reinforce the material with real-world examples and visual illustrations that bring cost management techniques into the student's sphere of understanding. A flexible organization appropriate for either a one- or two-semester course--coupled with clear and abundant visual presentations--allows students to clearly understand difficult topics. The text's revised organizational structure streamlines chapter materials as well as reduces redundancy between cost accounting and other business courses.

Libby/Libby/Short wrote this text based on their belief that the subject of financial accounting is inherently interesting, but financial accounting textbooks are often not. They believe

most financial accounting textbooks fail to demonstrate that accounting is an exciting field of study and one that is important to future careers in business. When writing this text, they considered career relevance as their guide when selecting material, and the need to engage the student as their guide to style, pedagogy, and design. Libby/Libby/Short is the only financial accounting text to successfully implement a real-world, single focus company approach in every chapter. Students and instructors have responded very favorably to the use of focus companies and the real-world financial statements. The companies chosen are engaging and the decision-making focus shows the relevance of financial accounting regardless of whether or not the student has chosen to major in accounting.

The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable

connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

Two strengths distinguish this textbook from others. One is its presentation of subjects in the contexts wherein they occur. The other is its use of current events. Other improvements have shortened and simplified chapters, increased the numbers and types of pedagogical supplements, and expanded the international appeal of examples.

Are you looking for an engaging, decision-focussed approach to financial reporting that encourages students to develop their interpretative skills? Building on the success of the first edition, this textbook takes a 'how, why, what' approach to financial accounting, interwoven in each chapter. From chapter one, students understand how financial information is prepared and presented, why it is prepared and presented in this way, and what the resulting financial information means for users. Designed for students taking a step beyond their introductory financial accounting training, the textbook equips them with all the key tools they will require when they enter professional practice. Reflective of the latest International Financial Reporting Standards (IFRS) and International Accounting Standards (IAS), this textbook delivers concise, clear explanations of all the key issues in accounting standards that students need to know. Content maps to professional accounting body syllabi, making this the perfect choice for accounting courses which offer exemptions. Chapters are rich with 3 types of examples to enhance understanding: - Illustrative examples of real-world situations; - Worked examples demonstrating the calculation of figures required for financial statements; - Extracts from company annual reports demonstrate how the theory relates to financial reporting in practice. More engaging, more balanced, and more applied than other offerings, this is exactly the textbook your financial reporting students need! An extensive Online Resource Centre accompanies the textbook and includes: For students: DT Solutions to all the end-of-chapter questions in the book including

walkthroughs of solutions to key questions; DT Additional graded questions including professional body questions; DT Additional interpretative case studies based on real-life companies; DT A guided tour through a company report DT Specific study skills tips for accounting students For lecturers: DT Customisable PowerPoint slides DT Solutions to all the additional online questions DT Outline solutions to the interpretative case studies DT Group discussion questions

Give your students a solid foundation in core accounting concepts while helping learners develop a true appreciation for why accounting is important to business and a prosperous society.

Warren/Reeve/Duchac's FINANCIAL AND MANAGERIAL ACCOUNTING, 14E clearly demonstrates how accounting is much more than simply data and black and

white rules. Instead, students see how accounting provides key information used to make critical business decisions. A new chapter schema provides context for how each chapter's content fits into the big picture. The book focuses on why accounting is important and consistently reinforces connections to the big picture by connecting journal entries to the accounting equation. Fresh organization progresses from the simplest to the more complex topics with reorganized and fully integrated coverage of the new Revenue Recognition standard, reorganized coverage of adjustments, and reorganized managerial accounting chapters Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Intermediate Accounting, 3e, by Spiceland/Sepe/Tomassini will gain support in traditional and technology-driven accounting departments, especially those looking for a more concise, decision-making text that reinforces challenging concepts via CD-ROM. The revision of this text is based around a "Learning System." The revision of this "Learning System" was built on improving the clarity of the chapters, emphasizing more decision-making in order to prepare students for the changes taking place on the CPA exam, acknowledging the diversity of students and their learning styles by creating supplemental materials to

assure the success of every student, and creating a consistent text and supplemental package for both students and instructor's giving us the best possible intermediate text on the market. Returning to the Third edition is the award winning "Coach" CD-ROM. The Coach CD-ROM is a multimedia product integrating audio and video clips, animated illustrations, cases, and alternative reading material that helps students comprehend some of the more difficult topics associated with intermediate accounting. Designed specifically for the Spiceland text, instructors and students will find these learning tools placed strategically throughout the text. This is the most comprehensive Learning System in Intermediate Accounting. At only 1120 pages (300 pages less than the average intermediate accounting text), Spiceland/S/T has not sacrificed content for pages. Instead, the authors have created a very flexible text with a student friendly writing style that focuses on explaining not just how to apply a procedure, but why it's applied.

Financial Accounting, 9th Edition continues the strong reputation established by this leading Australian text as the most comprehensive book for students studying introductory accounting in undergraduate or postgraduate programs. The full-colour design and improved pedagogy provides students with a reader-friendly text to enhance their understanding of concepts and make their study more enjoyable. The text builds on the thorough and reliable explanation of the accounting process through the Business Knowledge chapter vignettes that apply the principles to practice. Previous editions

were renowned for the number of exercises and problems, and the new edition builds on this superior teaching feature. The end-of-chapter activities are designed to encourage student

confidence through the development of skills in decision making, critical thinking, ethical thinking, analysis and communication.
