Fitzroy Maclean was one of the real-life inspirations for super-spy James Bond. After adventures in Soviet Russia before the war, Maclean fought with the SAS in North Africa in 1942. There he specialised in hair-raising commando raids behind enemy lines, including the daring and outrageous kidnapping of the German Consul in Axis-controlled Iraq. Maclean's extraordinary adventures in the Western Desert and later fighting alongside Tito's partisans in Yugoslavia are blistering reading and show what it took to be a British hero who broke the mould . . .

A compassionate, shame-free guide for your darkest days "A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized."—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn't cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to "choose joy" and "pray more." So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you're left wondering if God has abandoned you. You just want a way out. But there's hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn't look like what you expect.

"In this remarkably economical, clear and informed book, Mike Howe... sets about unravelling the formidable semantic, logical and empirical knots into which IQ testers and their supporters have tied themselves.... Howe suggests that we have, for decades, been asking the wrong kinds of questions. He points to the number of alternative, theoretically richer, views of human intelligence that don't reduce all to a single dimension... this is rendered with an easy, readable style which assumes no previous technical knowledge" - *British Journal of Educational Psychology* In this provocative and accessible book, Michael Howe exposes serious flaws in our most widely accepted beliefs about intelligence. He shows that cr

From the vampire-haunted alleyways of mediaeval Averroigne to the shining spires of dying Zothique, Clark Ashton Smith weaves his literary sorcery, transporting us to forgotten realms of necromancies and nightmares, lost worlds and other dimensions. In the enchanted regions of Hyperborea, Atlantis and Xiccarph, encounter malefic magic and demonic deeds beneath the last rays of a fading sun . . . For the first time ever, this volume encompasses Clark Ashton Smith's entire career as a writer. Smith virtually stopped writing stories in 1937, for reasons that have never been satisfactorily explained, but he left behind a unique legacy of fantasy fiction which is as imaginative and decadent today as when it was first published in the pulp magazines more than half a century ago.
