NATIONAL BESTSELLER •

For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. "A brilliant and thoroughly modern guide to learning new languages."—Gary Marcus, cognitive

psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears

and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain

hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day. *An Introduction to the Grammar of English* Disha Publications

This book was written for ESL students whose written work looks like this: "It was a busy day at the store. She was a talk on the phone. She not want buy candy for child. He wasnt early his date, he buy eggs but his child she play." In this book, students progress slowly and methodically, with

ample writing practice each step of the way. The book starts with the basics the difference between a word, sentence, and paragraph; the difference between a paragraph and a list; how to distinguish complete from incomplete sentences and moves forward from there. Students shed bad usage and punctuation habits early as they learn to edit their work and progress from writing simple paragraphs to writing paragraphs with more varied and complex

sentences. This book's methodology is simple; each chapter includes short lessons in grammar, sentence structure, and mechanics that students work through in preparation for an end-of-chapter writing assignment that, in most cases, is based on a personal experience. Student's Book Peace Hill Press

This "Brush-Up" Series of Level Based Comprehensive Grammar Review Workbook contains a large number of Grammar exercises so Ameer, Kim, Martha, Amy and Leila - more than 150 miscellaneous exercises - of 20 (twenty) items each that will help the student and user of the Workbook to review all the grammar structures, or points introduced and listed at the beginning of each

level in the workbook (totaling 453 structural points, or Learning Objectives), which constitute the skeleton upon which the English Language builds and, without which an English sentence would not be intelligible. These Grammar Objectives are usually covered in the Beginner, Intermediate and Advanced levels of the EFL Learning process. As you will notice, these Objectives, or structural points, are introduced at the beginning of each level with an example on

each in order to be screened by users, and by teachers, if desired. They are italicized and organized in accordance with the level of complexity of the exercises. Leila and her peers will gradually move from the easiest, Beginner Level One, to the most advanced, Level Six, with confidence. Users of the workbook are, therefore, advised to answer all the exercises included in the workbook, and match their answers to the Answer keys provided at the end of each exercise,

rather than at the end of the Workbook. For the sake of diversification as well as my willingness to have the users concentrate on different kinds of exercises, I have included some exercises where Leila and her peers, Kim, Mona, Jose, Ivan, Fahd and Alexey the main users, will choose the correct item and other Error Analysis Exercises where they will find out the error in grammar usage and try to correct it. It is worth noting, however that for the sake of evaluating our progress

as learners and students I have included an Entry Self-Assessment Exercise which a user of the workbook is advised to do before starting the Review because it serves as a gateway to the book. It will also help in remembering the basics of the English Language Grammar on which a user will build progress and achieve the desired level of understanding of Grammar. An Exit Self-Assessment Exercise is also included to be done upon completing the Review Exercises. This will

help determine areas of difficulty, if any. The Exit Exercise will show how much progress a user of the workbook has made in both, the grammar and vocabulary! The answers are provided at the end of the exercises but a user is advised not to look at the answers provided until he or she has answered all the questions. For those completing the exercises, the Workbook is intended as a gateway to success in post-high school endeavors of college life, social life and career of the likes of enthusiastic

Leila and self-asserting Fahd, Kim, Nadia, Sami and Alexey! An appendix of answer keys is provided in the workbook which will

help the user in his or her search for correctness by comparing answers with the Answer keys provided.
