Soon enough, nobody will remember life before the Internet. What does this unavoidable fact mean? Those of us who have lived both with and without the crowded connectivity of online life have a rare opportunity. We can still recognize the difference between Before and After. We catch ourselves idly reaching for our phones at the bus stop. Or we notice how, midconversation, a fumbling friend dives into the perfect recall of Google. In this eloquent and thought-provoking book, Michael Harris argues that amid all the changes we're experiencing, the most interesting is the end of absence—the loss of lack. The daydreaming silences in our lives are filled; the burning solitudes are extinguished. There's no true "free time" when you carry a smartphone. Today's rarest commodity is the chance to be alone with your thoughts. Michael Harris is an award-winning journalist and a contributing editor at *Western Living* and *Vancouvermagazines*. He lives in Toronto, Canada.

The Red Blood Cell Grove/Atlantic, Inc. Expertly edited and endorsed by the International Society for Laboratory Hematology, this is the newest international textbook on all aspects of laboratory hematology. Covering both traditional and cutting-edge hematology laboratory technology this book emphasizes international recommendations for testing practices.

Illustrative case studies on how technology can be used in patient diagnosis are included. Laboratory Hematology Practice is an invaluable resource for all those working in the field.

### Understanding Your Complete Blood Count Springer Nature

A standard blood test indicates how well the kidneys and liver are functioning, the potential for heart disease, and a host of other vital health markers.

Unfortunately, most of us cannot decipher these results ourselves, nor can we even formulate the right questions to ask about them—or we couldn't until now. In *Your Blood Never Lies*, best-selling author James LaValle clears up the mystery surrounding blood test results. In simple language, he explains all of the information found on these forms, making it understandable and accessible. This means that you can look at the results yourself and know the significance of each marker. Dr. LaValle even recommends the most effective conventional and complementary treatments for dealing with any problematic findings. Rounding out the book are the names of test markers that should be requested for a more complete physical picture. A blood test can reveal so much about your body, but only if you can interpret the results. *Your Blood Never Lies* provides the up-to-date information you need to take control of your health.

This textbook is a practical guide to the application of the philosophy and principles of Integrative and Functional Medical Nutrition Therapy (IFMNT) in the practice of medicine, and the key role nutrition plays in restoring and maintaining wellness. The textbook provides an overview of recent reviews and studies of physiological and biochemical contributions to IFMNT and address nutritional influences in human health overall, including poor nutrition, genomics, environmental toxicant exposures, fractured human interactions, limited physical movement, stress, sleep deprivation, and other lifestyle factors. Ultimately, this textbook serves to help practitioners, healthcare systems, and policy makers better understand this different and novel approach to complex chronic disorders. It provides the reader with real world

examples of applications of the underlying principles and practices of integrative/functional nutrition therapies and presents the most up-to-date intervention strategies and clinical tools to help the reader keep abreast of developments in this emerging specialty field. Many chapters include comprehensive coverage of the topic and clinical applications with supplementary learning features such as case studies, take-home messages, patient and practitioner handouts, algorithms, and suggested readings. *Integrative and Functional Medical Nutrition Therapy: Principles and Practices* will serve as an invaluable guide for healthcare professionals in their clinical application of nutrition, lifestyle assessment, and intervention for each unique, individual patient. A "soucoyant" is an evil spirit in Caribbean lore, a reminder of past transgressions that refuse to diminish with age. In this beautifully told novel that crosses borders, cultures, and generations, a young man returns home to care for his aging mother, who suffers from dementia. In his efforts to help her and by turn make amends for their past estrangement from one another, he is compelled to re-imagine his mother's stories for her before they slip completely into darkness. In delicate, heartbreaking tones, the names for everyday things fade while at the same time a beautiful, haunted life, stained by grief, is slowly revealed. This publication meets the EPUB Accessibility requirements and it also meets the Web Content Accessibility Guidelines (WCAG-AA). It is screen-reader friendly and is accessible to persons with disabilities. A Simple book with few images, which is

defined with accessible structural markup. This book contains various accessibility features such as alternative text for images, table of contents, page-list, landmark, reading order and semantic structure.

*Clinician's Guide to Laboratory Medicine* Bloomsbury Publishing  
National bestseller — Based on the classic folk song made famous by a beloved trio of children's entertainers, this board book is best sung aloud! "Skinnamarink" is a timeless anthem of love and inclusion. What does "skinnamarink" mean? You may not find its definition in a dictionary, but the meaning is clear to the generations of children who sang along: friendship,

happiness, sharing, community and, ultimately, love. This song has been sung in weddings and in classrooms. It can be fun and silly — especially with the accompanying actions! And it has a way of bringing people together. Through Qin Leng's wonderfully imaginative illustrations, this delightful board book tells the story of a community coming together. Young and old, from little mice to a big elephant, people and animals gather into a spontaneous parade as they follow the sound of music. Sharon, Lois and Bram formed as a trio of children's entertainers in Toronto in 1978 and went on to create two top-rated children's television shows, most notably *The Elephant Show*, and to release 21 full-length albums (many of which reached gold, platinum, double platinum and triple platinum). In 2018, Sharon and Bram celebrated their 40th anniversary and they continue to entertain children and share their message of love.

MCNALLY ROBINSON BOOK OF THE YEAR

and inspiring memoir from renowned

Cree environmental activist Clayton

Thomas-Muller, who escaped the world

of drugs and gang life to take up the

warrior's fight against the assault on

Indigenous peoples' lands—and

eventually the warrior's spirituality.

There have been many Clayton Thomas-

Mullers: The child who played with toy

planes as an escape from domestic and

sexual abuse, enduring the

intergenerational trauma of Canada's

residential school system; the angry

youngster who defended himself with

fists and sharp wit against racism and

violence, at school and on the streets of

Winnipeg and small-town British

Columbia; the tough teenager who, at

17, managed a drug house run by

members of his family, and slipped in

and out of juvie, operating in a world of

violence and pain. But behind them all,

there was another Clayton: the one who remained immersed in Cree spirituality, and who embraced the rituals and ways of thinking vital to his heritage; the one who reconnected with the land during summer visits to his great-grandparents' trapline in his home territory of Pukatawagan in northern Manitoba. And it's this version of Clayton that ultimately triumphed, finding healing by directly facing the trauma that he shares with Indigenous peoples around the world. Now a leading organizer and activist on the frontlines of environmental resistance, Clayton brings his warrior spirit to the fight against the ongoing assault on Indigenous peoples' lands by Big Oil. Tying together personal stories of survival that bring the realities of the First Nations of this land into sharp focus, and lessons learned from a career as a frontline activist committed to addressing environmental injustice at a global scale, Thomas-Muller offers a narrative and vision of healing and responsibility.

A moving collection of poetry about navigating mid-life, full of humour and wit, from acclaimed novelist Farzana Doctor This debut poetry collection from acclaimed novelist Farzana Doctor is both an intimate deep dive and a humorous glance at the tumultuous decade of her forties. Through crisp and vivid language, Doctor explores mid-life breakups and dating, female genital cutting, imprints of racism and misogyny, and the oddness of sex and love, and urges us to take a second look at the ways in which human relationships are never what we expect them to be.
