Author addresses the deplorable
absence of discourse on black artists.
Teaching To Transgress Routledge
Ten years ago, bell hooks astonished
readers with *Teaching to Transgress:
Education as the Practice of Freedom*.
Now comes *Teaching Community: A
Pedagogy of Hope* - a powerful, visionary
work that will enrich our teaching and
our lives. Combining critical thinking
about education with autobiographical
narratives, hooks invites readers to
extend the discourse of race, gender,
class and nationality beyond the
classroom into everyday situations of
learning. bell hooks writes candidly
about her own experiences. Teaching,
she explains, can happen anywhere, any
time - not just in college classrooms but
in churches, in bookstores, in homes
where people get together to share
ideas that affect their daily lives. In
Teaching Community bell hooks seeks to
theorize from the place of the positive,
looking at what works. Writing about
struggles to end racism and white
supremacy, she makes the useful point
that "No one is born a racist. Everyone
makes a choice." *Teaching Community*
tells us how we can choose to end
racism and create a beloved community.
hooks looks at many issues-among
them, spirituality in the classroom, white
people looking to end racism, and erotic
relationships between professors and
students. Spirit, struggle, service, love,
the ideals of shared knowledge and
shared learning - these values motivate
progressive social change. Teachers of
vision know that democratic education

can never be confined to a classroom.
Teaching - so often undervalued in our
society -- can be a joyous and inclusive
activity. bell hooks shows the way.

"When teachers teach with love,
combining care, commitment,
knowledge, responsibility, respect, and
trust, we are often able to enter the
classroom and go straight to the heart of
the matter, which is knowing what to do
on any given day to create the best
climate for learning."

The Will to Change Simon and Schuster
Discusses what black males fear most,
their longing for intimacy, the pitfalls of
patriarchy, and the destruction of
oppression through redemption and
love.

Reel Inequality Routledge
Hollywood films about Asians and
interracial sexuality are the focus of Gina
Marchetti's provocative new work. While
miscegenation might seem an unlikely
theme for Hollywood, Marchetti shows
how fantasy-dramas of interracial rape,
lynching, tragic love, and model
marriage are powerfully evident in
American cinema. The author begins
with a discussion of D. W. Griffith's
Broken Blossoms, then considers later
films such as *Shanghai Express*, *Madame
Butterfly*, and the recurring geisha
movies. She also includes some
fascinating "forgotten" films that have
been overlooked by critics until now.
Marchetti brings the theoretical
perspective of recent writing on race,
ethnicity, and gender to her analyses of
film and television and argues
persuasively that these media help to
perpetuate social and racial inequality in
America. Noting how social norms and
taboos have been simultaneously set
and broken by Hollywood filmmakers,
she discusses the "orientalist" tensions
underlying the construction of American

cultural identity. Her book will be certain to interest readers in film, Asian, women's, and cultural studies.

Reel Wisdom Simon and Schuster
When the 2016 Oscar acting nominations all went to whites for the second consecutive year, #OscarsSoWhite became a trending topic. Yet these enduring racial biases afflict not only the Academy Awards, but also Hollywood as a whole. Why do actors of color, despite exhibiting talent and bankability, continue to lag behind white actors in presence and prominence? *Reel Inequality* examines the structural barriers minority actors face in Hollywood, while shedding light on how they survive in a racist industry. The book charts how white male gatekeepers dominate Hollywood, breeding a culture of ethnocentric storytelling and casting. Nancy Wang Yuen interviewed nearly a hundred working actors and drew on published interviews with celebrities, such as Viola Davis, Chris Rock, Gina Rodriguez, Oscar Isaac, Lucy Liu, and Ken Jeong, to explore how racial stereotypes categorize and constrain actors. Their stories reveal the day-to-day racism actors of color experience in talent agents' offices, at auditions, and on sets. Yuen also exposes sexist hiring and programming practices, highlighting the structural inequalities that actors of color, particularly women, continue to face in Hollywood. This book not only conveys the harsh realities of racial inequality in Hollywood, but also provides vital insights from actors who have succeeded on their own terms, whether by sidestepping the system or subverting it from within. Considering how their struggles impact real-world attitudes about race and diversity, *Reel Inequality* follows actors of color as they

suffer, strive, and thrive in Hollywood.

Movies matter – that is the message of *Reel to Real*, bell hooks' classic collection of essays on film. They matter on a personal level, providing us with unforgettable moments, even life-changing experiences and they can confront us, too, with the most profound social issues of race, sex and class. Here bell hooks – one of America's most celebrated and thrilling cultural critics – talks back to films that have moved and provoked her, from Quentin Tarantino's *Pulp Fiction* to the work of Spike Lee. Including also her conversations with master filmmakers such as Charles Burnett and Julie Dash, *Reel to Real* is a must read for anyone who believes that movies are worth arguing about.

Communion Routledge

What does it mean to call a place home? Who is allowed to become a member of a community? When can we say that we truly belong? These are some of the questions of place and belonging that renowned cultural critic bell hooks examines in her new book, *Belonging: A Culture of Place*. Traversing past and present, *Belonging* charts a cyclical journey in which hooks moves from place to place, from country to city and back again, only to end where she

began--her old Kentucky home. hooks has written provocatively about race, gender, and class; and in this book she turns her attention to focus on issues of land and land ownership. Reflecting on the fact that 90% of all black people lived in the agrarian South before mass migration to northern cities in the early 1900s, she writes about black farmers, about black folks who have been committed both in the past and in the present to local food production, to being organic, and to finding solace in nature. Naturally, it would be impossible to contemplate these issues without thinking about the politics of race and class. Reflecting on the racism that continues to find expression in the world of real estate, she writes about segregation in housing and economic racialized zoning. In these critical essays, hooks finds surprising connections that link of the environment and sustainability to the politics of race and class that reach far beyond Kentucky. With characteristic insight and honesty, *Belonging* offers a remarkable vision of a world where all people--wherever they may call home--can live fully and well, where everyone can belong.

Romance and the Yellow Peril Macmillan
In an awesome meeting of minds, cultural theorists Stuart Hall and bell hooks met for a series of wide-ranging conversations on what Hall sums up as "life, love, death, sex." From the trivial to the profound, across boundaries of age, sexualities and genders, hooks and Hall dissect topics and themes of continual contemporary relevance, including feminism, home and homecoming, class, black masculinity, family, politics, relationships, and teaching. In their fluid and honest dialogue they push and pull each other as well as the reader, and the

result is a book that speaks to the power of conversation as a place of critical pedagogy.

Pre-Code Hollywood Little, Brown Books for Young Readers

Drawing on both her roots in Kentucky and her adventures with Manhattan Coop boards, *Where We Stand* is a successful black woman's reflection--personal, straight forward, and rigorously honest--on how our dilemmas of class and race are intertwined, and how we can find ways to think beyond them.

Second From Last In The Sack Race Columbia University Press

In this provocative and captivating dialogue, bell hooks and Cornel West come together to discuss the dilemmas, contradictions, and joys of Black intellectual life. The two friends and comrades in struggle talk, argue, and disagree about everything from community to capitalism in a series of intimate conversations that range from playful to probing to revelatory. In evoking the act of breaking bread, the book calls upon the various traditions of sharing that take place in domestic, secular, and sacred life where people come together to give themselves, to nurture life, to renew their spirits, sustain their hopes, and to make a lived politics of revolutionary struggle an ongoing practice. This 25th anniversary edition continues the dialogue with "In Solidarity," their 2016 conversation at the bell hooks Institute on racism, politics, popular culture and the contemporary Black experience.

Black Looks Routledge

A New York Times bestseller and enduring classic, *All About Love* is the acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation" trilogy. *All About Love* reveals what

causes a polarized society, and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in *All About Love*. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The *Utne Reader* declared bell hooks one of the "100 Visionaries Who Can Change Your Life." *All About Love* is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

Art on My Mind Routledge

Pre-Code Hollywood explores the fascinating period in American motion picture history from 1930 to 1934 when the commandments of the Production Code Administration were violated with impunity in a series of wildly unconventional films—a time when censorship was lax and Hollywood made the most of it. Though more unbridled, salacious, subversive, and just plain bizarre than what came afterwards, the films of the period do indeed have the look of Hollywood cinema—but the moral terrain is so off-kilter that they seem imported from a parallel universe. In a sense, Doherty avers, the films of pre-Code Hollywood are from another universe. They lay bare what Hollywood under the Production Code attempted to cover up and push offscreen: sexual liaisons unsanctified by the laws of God or man, marriage ridiculed and redefined, ethnic lines crossed and racial barriers ignored, economic injustice exposed and political corruption assumed, vice unpunished and virtue unrewarded—in sum, pretty much the raw stuff of American culture, unvarnished and unveiled. No other book has yet sought to interpret the films and film-related meanings of the pre-Code era—what defined the period, why it ended, and what its relationship was to the country as a whole during the darkest years of the Great Depression...

and afterward.

A Woman's Mourning Song Taylor & Francis

This book is a three-part report on the long-term collaboration between artist Pope.L and curator Dieter Roelstraete which revolves around issues of connectedness, home, and migration, while addressing art's relationship to knowledge. Begun in spring 2016 with an invitation, extended to the artist by Roelstraete and his colleagues Monika Szewczyk and Adam Szymczyk, to participate in the fourteenth edition of documenta, Pope.L's contribution took on the guise of an immersive, seemingly omnipresent sound installation titled *Whispering Campaign*, consisting of thousands of hours of whispered content-addressing nationhood and borders-broadcast throughout Athens and Kassel using both speakers and live "whisperers." A mere month after the closing of documenta 14 in Kassel, a second chapter of the titular campaign was inaugurated at the University of Chicago's Logan Center for the Arts, revolving centrally around the exhibition and art intervention project *Brown People Are the Wrens in the Parking Lot*, curated by Yesomi Umolu—a complex, multifaceted enterprise that involved a more or less conventional art exhibit, a DIY media campaign, a thematic library, video interviews, and a series of events ranging from impromptu performances and DJ sets to an expansive program of talks, presentations, and debates. This campaign-cum-exhibition took place at a significant moment in US history dominated by debates over immigration, race, and the plight of the 99 percent-dominated, in a sense, by constant campaigning.

The Envy of the World Routledge

"A manual for fixing our culture...In

writing that is elegant and penetratingly simple, [hooks] gives voice to some things we may know in our hearts but need an interpreter like her to process.”—Black Issues Book Review

New York Times bestselling author, acclaimed visionary and cultural critic bell hooks continues her exploration of the meaning of love in contemporary American society, offering groundbreaking, critical insight about Black people and love. Written from both historical and cultural perspectives, *Salvation* takes an incisive look at the transformative power of love in the lives of African Americans. Whether talking about the legacy of slavery, relationships and marriage in Black life, the prose and poetry of Martin Luther King, Jr., James Baldwin, and Maya Angelou, the liberation movements of the 1950s, 60s, and 70s, or hip hop and gangsta rap culture, hooks lets us know what love’s got to do with it. Combining the passionate politics of W.E.B. DuBois with fresh, contemporary insights, hooks brilliantly offers new visions that will heal

our nation’s wounds from a culture of lovelessness. Her writings on love and its impact on race, class, family, history, and popular culture will help us heal and create beloved American communities.

I Don't Want to Talk About It

HarperCollins

For bell hooks, the best cultural criticism sees no need to separate politics from the pleasure of reading. *Yearning* collects together some of hooks's classic and early pieces of cultural criticism from the '80s. Addressing topics like pedagogy, postmodernism, and politics, hooks examines a variety of cultural artifacts, from Spike Lee's film *Do the Right Thing* and Wim Wenders's film *Wings of Desire* to the writings of Zora Neale Hurston and Toni Morrison. The result is a poignant collection of essays which, like all of hooks's work, is above all else concerned with transforming oppressive structures of domination.
