RayAnne Dahl goes fishing for a different life, catching much more than she'd bargained for.... Having fled the testosterone-soaked world of pro fishing to finally settle in her Minneapolis fixer-upper, thirty-something RayAnne unexpectedly lands at the helm of the first all-women fishing and talk show. Between her dad's falling off the wagon, unwanted advice from Mom--a life coach to the menopausal rich--and her clingy dog, she needs the advice of her beloved grandmother more than ever. With the show's surprise success, producers press for celebrity appearances, but fans tweet support for RayAnne and her quirky guests, real women with unique stories and something to say. And though handsome Hal tempts RayAnne, he is a sponsor, rocketing him to the top of her don'ts list. Just when she's shedding uncertainty, RayAnne's world nearly capsizes, and she's faced with gut-wrenching choices. Will she live by the rules, or by her heart?

Auto Repair For Dummies, 2nd Edition

(9781119543619) was previously published as Auto Repair For Dummies,

2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and

maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
