Things are not right at the Strega-Borgia castle. Signor Luciano Strega-Borgia has been kidnapped. Signora Baci Strega-Borgia is struggling with her spells at the Advanced Witchcraft Institute. Titus and Pandora don't like their suspiciously cheerful and fearless new nanny. Baby Damp has been accidentally shrunk, e-mailed, and lost on the World Wide Web. And to top it off, there's a gangster in a bunny suit lurking about. . . . This

seriously over-the-top, gothic romp is sure to have readers clamoring for the next Strega-Borgia adventure.

 "Prealgebra is designed to meet scope and sequence requirements for a one-semester prealgebra course. The text introduces the fundamental concepts of algebra while addressing the needs of students with diverse backgrounds and learning styles. Each topic builds upon previously developed material to demonstrate the cohesiveness and structure of mathematics. Prealgebra follows a nontraditional approach in its presentation of content. The beginning, in particular, is presented as a sequence of small steps so that students gain confidence in their ability to succeed in

the course. The order of topics was carefully planned to emphasize the logical progression throughout the course and to facilitate a thorough understanding of each concept. As new ideas are presented, they are explicitly related to previous topics."--BC Campus website.
