The idea of human rights begins with a
fundamental commitment to the dignity
that is the birthright of every man,
woman and child. Progress in advancing
human rights begins with the facts. And
for the last 34 years, the United States
has produced the Country Reports on
Human Rights Practices, providing the
most comprehensive record available of
the condition of human rights around the
world. These reports are an essential
tool—for activists who courageously
struggle to protect rights in communities
around the world; for journalists and
scholars who document rights violations
and who report on the work of those who
champion the vulnerable; and for

governments, including our own, as they
work to craft strategies to encourage
protection of the human rights of more
individuals in more places. Joint
Committee Print. S. Prt. 112-40.

Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 193 countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights

defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

This eBook edition of "Ode to a Nightingale" has been formatted to the highest digital standards and adjusted for readability on all devices. "Ode to a Nightingale" is either the garden of the Spaniards Inn, Hampstead, London, or, according to Keats' friend Charles Armitage Brown, under a plum tree in the garden of Keats House, also in Hampstead. According to Brown, a nightingale had built its nest near his home in the spring of 1819. Inspired by the bird's song, Keats composed the poem in one day. It soon became one of his 1819 odes and was first published in *Annals of the Fine Arts* the following July. "Ode to a Nightingale" is a personal poem that describes Keats's journey into the state of Negative Capability. The tone of the poem rejects the optimistic pursuit of pleasure found within Keats's earlier poems and explores the themes of nature, transience and mortality, the latter being particularly personal to Keats. The nightingale described within the poem experiences a type of death but does not actually die. Instead, the songbird is capable of living through its song, which is a fate that humans cannot expect. John Keats (1795-1821) was an English Romantic poet. The poetry of Keats is characterized by sensual imagery, most notably in the series of odes. Today his poems and letters are

some of the most popular and most analyzed in English literature.
