 Since the late 1990s, Rupert Goold has garnered a reputation as one of the UK's most exciting and provocative theatre directors. His exhilarating, risk-taking productions of both classic texts and new plays have travelled from regional stages to the National Theatre, the West End, Broadway and beyond. Through his artistic directorship of Northampton's Royal & Derngate, the touring theatre company Headlong and London's Almeida Theatre, he has radically transformed, not only the companies themselves, but the landscape of British theatre. This is the first book to survey and analyse the full range of Goold's work to date and is a vital resource for students, scholars and fans of his work. Based on extensive interviews with Goold and some of the playwrights, designers, actors and other creatives who have collaborated with him, *The Theatre of Rupert Goold* provides an account of Goold's work from the beginnings of his career to the present day, offering a backstage view of the creative processes behind some of his most successful productions including: *Paradise Lost*, *Faustus* (Royal & Derngate); *Macbeth* (Chichester Festival Theatre); *The Tempest*, *Romeo and Juliet* (RSC); *Six Characters in Search of an Author*, *ENRON* (Headlong); *Time and the Conways* (National Theatre); *Charles III and Ink* (Almeida). *The Theatre of Rupert Goold* is an accessible and fascinating guide to Goold's approach to making theatre, an approach that asks provocative questions of the modern world in the most theatrical ways imaginable.

 April, 1984. Winston Smith thinks a thought, starts a diary, and falls in love. But Big Brother is watching him, and the door to Room 101 can swing open in the blink of an eye. Its ideas have become our ideas, and Orwell's fiction is often said to be our reality. The definitive book of the 20th century is re-examined in a radical new adaptation exploring why Orwell's vision of the future is as relevant as ever.

 This book explores the idea of time travel from the first account in English literature to the latest theories of physicists such as Kip Thorne and Igor Novikov. This very readable work covers a variety of topics including: the history of time travel in fiction; the fundamental scientific concepts of time, spacetime, and the fourth dimension; the speculations of Einstein, Richard Feynman, Kurt Goedel, and others; time travel paradoxes, and much more.
The Rhapsodes Faber & Faber
 This volume argues against Gérard Genette's theory that there is

an "insurmountable opposition" between drama and narrative and shows that the two forms of storytelling have been productively intertwined throughout literary history. Building on the idea that plays often incorporate elements from other genres, especially narrative ones, the present study theorises drama as a fundamentally narrative genre. Guided by the question of how drama tells stories, the first part of the study delineates the general characteristics of dramatic narration and zooms in on the use of narrative forms in drama. The second part proposes a history of dramatic storytelling from the Renaissance to the twenty-first century that transcends conventional genre boundaries. Close readings of exemplary British plays provide an overview of the dominant narrative modes in each period and point to their impact in the broader cultural and historical context of the plays. Finally, the volume argues that throughout history, highly narrative plays have had a performative power that reached well beyond the stage: dramatic storytelling not only reflects socio-political realities, but also largely shapes them.

 Older women have never been so visible, or so problematised, in popular media culture as now; but what kinds of representations are being offered, and how can we make sense of them in the context of post-feminism and global economic change? *Aging Femininities: Troubling Representations* offers a timely intervention into the hiatus between the visibility of aging femininity in contemporary circuits of culture and its marginalisation in cultural theory. From "graceful agers" and Saga subscribers, to make-over models and pop divas, each of the essays in this collection interrogates the different manifestations of "aging femininity" in terms of both its historic invisibility and its new visibility. The book forges links between contemporary "lived" experience and feminist cultural theory and research, often through the direct and autobiographical knowledge of the writers themselves. Divided into four sections - Cultural Herstories, Regulations and Transgressions, Problematic Postfeminists? and Divas and Dolls - plus a thought-provoking photo essay, it wrests the discourse of aging away from the twin hegemonies of consumer culture and gerontology to present a diverse selection of essays and positions. *Aging Femininities: Troubling Representations* establishes the long overlooked richness and the complexity of this field of study.

Delphi Complete Works of Dorothy L. Sayers (Illustrated)
 London : W. Heinemann

A multifaceted biography of a brilliant mathematician and iconoclast A mathematician unlike any other, John Horton Conway (1937–2020) possessed a rock star's charisma, a polymath's promiscuous curiosity, and a sly sense of humor. Conway found fame as a barefoot professor at Cambridge, where he discovered

the Conway groups in mathematical symmetry and the aptly named surreal numbers. He also invented the cult classic *Game of Life*, a cellular automaton that demonstrates how simplicity generates complexity—and provides an analogy for mathematics and the entire universe. Moving to Princeton in 1987, Conway used ropes, dice, pennies, coat hangers, and the occasional Slinky to illustrate his winning imagination and share his nerdish delights. *Genius at Play* tells the story of this ambassador-at-large for the beauties and joys of mathematics, lays bare Conway's personal and professional idiosyncrasies, and offers an intimate look into the mind of one of the twentieth century's most endearing and original intellectuals.

In this lively comedy of love and money in sixteenth-century Venice, Bassanio wants to impress the wealthy heiress Portia, but lacks the necessary funds. He turns to his merchant friend, Antonio, who is forced to borrow from Shylock, a Jewish moneylender. When Antonio's business falters, repayment becomes impossible, and by the terms of the loan agreement, Shylock is able to demand a pound of Antonio's flesh. Portia cleverly intervenes, and all ends well (except of course for Shylock).

 The Classic British Telefantasy Guide is derived from the second edition of *The Guinness Book of Classic British TV* with various corrections and a revised introduction to bring it up to date. It was written when the Internet barely existed, and at a time when few books had been published on the subject. This is, however, by no means a new or completely revised version of the original material - too much time has passed, and if we were to start reworking and correcting the text now, it would probably never be finished! Instead, *Classic British Telefantasy* is an electronic reprint of some of the authors' earliest work, repackaged for a new format and, perhaps, a new age.

Time and the Shape of History Cambridge University Press
 "So all the time, while you were pretending to work, you've been having the most astonishing adventures in that corner?" A forgotten masterpiece from one of Britain's greatest dramatists, J.B. Priestley. As bankruptcy looms, the ever optimistic Jim Cornelius, partner at import firm Briggs and Murrison, is fighting to keep his creditors happy and his spirits up. Tensions rise with the arrival of Judy, the beautiful, young typist who shows Cornelius the life he could have led... Written for Ralph Richardson in 1935, Priestley observes the politics and tensions of daily office life with searing wit and humanity in this hilarious and heart-breaking story of friendship, unrequited love and business.

 What does it mean for a play to be political in the 21st century?

Does it require explicit engagement with events and situations with the aim of bringing about change or highlighting social wrongs? Is it purely a matter of content or is it also a matter of structure? *The Contemporary Political Play: Rethinking Dramaturgical Structure* examines the politics of contemporary 'political' drama. It traces the origins of the contemporary British political play to the emergence of the idea of 'serious drama' in the late 19th century through the work of Bernard Shaw, and argues that a Shavian version of serious drama was inextricably linked to the social and political structures of British society at the time. While political drama is still often thought of as adhering to a Shavian model in which social issues are presented through a dialectical structure, Grochala argues that the different political structures of contemporary Britain give rise to formally inventive dramaturgies that are no less 'serious' or political than their Shavian forebears. Through analysing the experimental dramaturgies of contemporary plays by playwrights including Caryl Churchill, Simon Stephens, Anthony Neilson, Debbie Tucker Green and Mark Ravenhill, among others, it offers a set of new principles for understanding how a play functions politically and reveals how today the dramaturgical structure of a play is as political as its content.

Manfred Pfister's book is the first to provide a coherent comprehensive framework for the analysis of plays in all their dramatic and theatrical dimensions. The material on which his analysis is based covers all genres and periods. His approach is systematic rather than historical, combining more abstract categorisations with detailed interpretations of sample texts.

Time is one of life's great mysteries. From sand passing through an hourglass to 'time's winged chariot hurrying near', we often perceive it as an unrelenting force which exists outside of ourselves. And yet anyone who remembers the long summers of childhood or has sat watching an agonisingly slow ticking clock feels that time is elastic. So which is it? Anthony Peake puts forward an incredible hypothesis about the relationship between time and consciousness. His theory explains many enigmatic phenomena, including déjà vu, precognition, near-death experience and altered states. Building upon the ideas of his groundbreaking *Is There Life After Death?* and drawing upon a remarkable breadth of science, philosophy and literature, his utterly compelling theory may change the way you view your life forever. Praise for Anthony Peake "Peake has the gift to explain complex theories in simple words" - Evelyn Elsaesser-Valarino, author of *Lessons from the Light*. "I found Peake's theory to be as thought-provoking an exhilarating as a great film" - Colin Wilson, author of *The Outsider*.

The year is 2393, and the world is almost unrecognizable. Clear warnings of climate catastrophe went ignored for decades, leading to soaring temperatures, rising sea levels, widespread drought and—finally—the disaster now known as the Great Collapse of 2093, when the disintegration of the West Antarctica Ice Sheet led to mass migration and a complete reshuffling of the global order. Writing from the Second People's Republic of China on the 300th anniversary of the Great Collapse, a senior scholar presents a gripping and deeply disturbing account of how the children of the Enlightenment—the political and economic elites of the so-called advanced industrial societies—failed to act, and so brought about the collapse of Western civilization. In this haunting, provocative work of science-based fiction, Naomi Oreskes and Eric M. Conway imagine a world devastated by climate change. Dramatizing the science in ways traditional nonfiction cannot, the book reasserts the importance of scientists and the work they do and reveals the self-serving interests of the so-called "carbon combustion complex" that have turned the practice of science into political fodder. Based on sound scholarship and yet unafraid to speak boldly, this book provides a welcome moment of clarity amid the cacophony of climate change literature.
