'This extraordinarily lucid book demonstrates that women from all walks of life get the short end of the stick because of their gender. From

welfare mothers to corporate executives, Albelda and Tilly show and why the powers-that-be benefit from scapegoating and marginalizing women.' Professor Mimi Abramowitz, author, *Regulating the Lives of Women* A cogent analysis of the economic and social realities for women in the United States, across class lines. In an age when the right wing manipulates the dialogue around women's issues to separate middle- and upper-class women from their poorer sisters this book's facts, figures, and analysis provide a much needed antidote.
