If you intend to visit Canada, study or work in Canada, immigrate to Canada, or become a Canadian citizen, you need to

go through an application process. A typical application includes submitting some forms and documents to the immigration authorities. Some applications, however, mandate you to attend a phone or face to face interview with an immigration or border services officer. Most of the immigration applications are time-consuming and nerve-racking. Several laws, policies, and procedures govern immigration applications. Many of them, such as inadmissibility rules, are complex or ambiguous. Even when you submit a simple eTA application, you need to answer questions about these complex aspects of immigration. Al Parsai is a Regulated Canadian Immigration Consultant. He also teaches the immigration diploma courses at Ashton college and the Global School of Corporate Excellence. Al has eight years of work experience as an immigration consultant and more than 22 years of experience as an author and educator. He has dealt with hundreds of visa and immigration applications. His clients have been from more than 35 different countries so far. The combination of hands-on experience and the teaching abilities gives Al the edge to write and publish this book. This book is a unique text that explains many concepts of visa and immigration in simple and understandable terms. By reading this book, you will enter the world of immigration to Canada. The book offers you 88 different tips on immigration to Canada. If you read them carefully, you will learn about your options and obstacles. Since this book is a condensed version of what Al knows about the Canadian immigration system, it could save you hundreds of hours of wandering the internet for answers. The book is easy to read. It is full of valuable

tips. Read this book and seize the opportunity of knowing how you could move to the most welcoming country in the world.

This book solely focuses on the Cue Card Section of the IELTS exam. This book is divided into three sections, and each section depicts different approaches to answer the cue cards. In the first section, every topic has three answers, this section is meant to be taken as ideas only and students are advised not to cram the answers. In the second section, five questions are selected to which a single answer is provided (Yes! You can use a single answer in many situations). This section is also meant to be taken as ideas only, however, the answers are written in a story form which will help the students to form their answers in a storytelling way. In the third section, students will learn to organize their thoughts and ideas, and will also learn to craft answers to any cue card with their existing knowledge. The aim of the book is to help students who fear the speaking module of the IELTS exam. The approach used in this book is very unique and I assure you that after a thorough study of this book students will be able to speak on any topic.
