*From Hell: Master Edition #9* MIT Press  
From the unparalleled imagination of international bestseller Alan Moore, author of *Watchmen*, *V for Vendetta*, and other modern classics, nine stories full of wonder and strangeness, which take us to the fantastical underside of reality. In his first-ever short story collection, which spans forty years of work and features many never-before-published pieces, Alan Moore presents a series of wildly different and equally unforgettable characters who discover - and in some cases even make and unmake - the various uncharted parts of existence. In 'A Hypothetical Lizard', two concubines in a brothel for sorcerers fall in love with tragic ramifications. In 'Not Even Legend', a paranormal study group is infiltrated by one of the otherworldly beings they seek to investigate. In 'Illuminations', a nostalgic older man decides to visit a seaside resort from his youth and finds the past all too close at hand. And in the monumental novella 'What We Can Know About Thunderman', which charts the surreal and Kafkaesque history of the comics industry over the last seventy-five years through several sometimes-naive and sometimes-maniacal people rising and falling on its career ladders, Moore reveals the dark, beating heart of the superhero business. From ghosts and otherworldly creatures to the four horsemen of the apocalypse, and theoretical Boltzmann brains fashioning the universe at the big bang, *Illuminations* is exactly that - a series of bright, startling tales from a contemporary legend that reveal the full power of imagination and magic.

Eclectic British author Alan Moore (b. 1953) is one of the most acclaimed and controversial comics writers to emerge since the late 1970s. He has produced a large number of well-regarded comic books and graphic novels while also making occasional forays into music, poetry, performance, and prose. In *Alan Moore: Comics as Performance, Fiction as Scalpel*, Annalisa Di Liddo argues that Moore employs the comics form to dissect the literary canon, the tradition of comics, contemporary society, and our understanding of history. The book considers Moore's narrative strategies and pinpoints the main thematic threads in his works: the subversion of genre and pulp fiction, the interrogation of superhero tropes, the manipulation of space and time, the uses of magic and mythology, the instability of gender and ethnic

identity, and the accumulation of imagery to create satire that comments on politics and art history. Examining Moore's use of comics to scrutinize contemporary culture, Di Liddo analyzes his best-known works—Swamp Thing, V for Vendetta, Watchmen, From Hell, Promethea, and Lost Girls. The study also highlights Moore's lesser-known output, such as Halo Jones, Skizz, and Big Numbers, and his prose novel Voice of the Fire. Alan Moore: Comics as Performance, Fiction as Scalpel reveals Moore to be one of the most significant and distinctly postmodern comics creators of the last quarter-century.

*Illuminations* Top Shelf Productions

The New York Times bestseller from the author of Watchmen and V for Vendetta finally appears in a one-volume paperback. Begging comparisons to Tolstoy and Joyce, this “magnificent, sprawling cosmic epic” (Guardian) by Alan Moore—the genre-defying, “groundbreaking, hairy genius of our generation” (NPR)—takes its place among the most notable works of contemporary English literature. In decaying Northampton, eternity loiters between housing projects. Among saints, kings, prostitutes, and derelicts, a timeline unravels: second-century fiends wait in urine-scented stairwells, delinquent specters undermine a century with tunnels, and in upstairs parlors, laborers with golden blood reduce fate to a snooker tournament. Through the labyrinthine streets and pages of Jerusalem tread ghosts singing hymns of wealth and poverty. They celebrate the English language, challenge mortality post-Einstein, and insist upon their slum as Blake’s eternal holy city in “Moore’s apotheosis, a fourth-dimensional symphony” (Entertainment Weekly). This “brilliant . . . monumentally ambitious” tale from the gutter is “a massive literary achievement for our time—and maybe for all times simultaneously” (Washington Post).

Bellamy's debut novel revives the central

female character from Bram Stoker's Dracula and imagines her as an independent woman living in San Francisco during the 1980s. Hypocrisy's not the problem, I think, it's allegory the breeding ground of paranoia. The act of reading into--how does one know when to stop? KK says that Dodie has the advantage because she's physical and I'm "only psychic." ... The truth is: everyone is adopted. My true mother wore a turtleneck and a long braid down her back, drove a Karmann Ghia, drank Chianti in dark corners, fucked Gregroy Corso ... -- Dodie Bellamy, *The Letters of Mina Harker* First published in 1998, Dodie Bellamy's debut novel *The Letters of Mina Harker* sought to resuscitate the central female character from Bram Stoker's Dracula and reimagine her as an independent woman living in San Francisco during the 1980s--a woman not unlike Dodie Bellamy. Harker confesses the most intimate details of her relationships with four different men in a series of letters. Vampirizing Mina Harker, Bellamy turns the novel into a laboratory: a series of attempted transmutations between the two women in which the real story occurs in the gaps and the slippages. Lampooning the intellectual theory-speak of that era, Bellamy's narrator fights to inhabit her own sexuality despite feelings of vulnerability and destruction. Stylish but ruthlessly unpretentious, *The Letters of Mina Harker* was Bellamy's first major claim to the literary space she would come to inhabit.

From the beloved creator of Watchmen and numerous other classics, the Long

London series is a tour-de-force that tells the story of the timeless shadow city full of magic and memory somewhere beyond the "real London." Long London is a series about "a sometimes-accessible shadow city that is beyond time." This is a hugely inventive, atmospheric, mythical world of murder, magic and madness. It is a quintet of novels that sweeps across the 20th century, starting in the shell-shocked and unravelled London of 1949, and following the populations of writers, criminals, artists, and magicians through that familiar city and a version of London just beyond our knowledge.
