PLANT LIFE CYCLES
TEACHING GUIDE

Varmints Carson-Dellosa Publishing

The activities and suggestions in The Little Book of Sequencing Skills will help you and the children in your care to explore a range of creative ways to develop

sequencing skills. The ability to sequence events and objects is essential for young children's learning and the ability to put thoughts and actions into sequence is important for the development many competencies.

Sequencing skills are often associated with communication and literacy but the ability to predict 'what will come next,' whether it be in a mathematical pattern, following instructions, understanding patterns of letters and sounds, or

understanding the consequences of actions is imperative across all areas of learning. There are many ways of developing sequencing skills. This book hopes to offer the early years practitioner a variety of practical, creative ways to help with the understanding, recognition and manipulation of sequences and to do so within the context of a variety of areas of learning.

 Have you ever closed your Bible and thought, What did I just read? Whether you're brand-new to the Bible or you

grew up in the second pew, reading Scripture can feel confusing or boring at times. Understanding it well seems to require reading it thoroughly (and even repeatedly), but who wants to read something they don't understand? If you've ever wanted to read through the Bible or even just wanted to want to read it, The Bible Recap is here to help. Following a chronological Bible reading plan, these recaps explain and connect the story of Scripture, section by

section. Soon you'll see yourself as a child of God who knows and loves His Word in the ways you've always hoped for. You don't have to go to seminary. You don't need a special Bible. Just start reading this book alongside your Bible and see what God has to say about Himself in the story He's telling. "Tara-Leigh gets me excited to read the Bible. Period. I have found a trusted guide to walk me into deeper understanding of the Scriptures."--MICHAEL DEAN MCDONALD, the
