COST ACCOUNTING Routledge
Developed for an Australian and New Zealand audience, Management Accounting 9e explains the contemporary role of management accounting. It takes a broad perspective in viewing management accounting as the efficient

and effective use of resources, demonstrating how it creates and enhances value for customers and shareholders, as well as the wider aspects of business. The text has been developed using cases based on real Australian and international businesses, and includes numerous 'Real Life' illustrations of current management accounting practices. In keeping with the need to be industry focused, the new edition includes coverage of key contemporary topics including data

analytics, big data and business ethics. Highlights include: Coverage of contemporary topics including data analytics, big data and business ethics; Real Life cases that reflect the growing global nature of business and Australia's role in our region; End of Chapter exercises and problems including algorithmic questions; and comprehensive Instructor Resource Manual.
Managerial Accounting McGraw-Hill College

The emphasis of Managerial Accounting, 9th edition is on teaching students to use accounting information to best manage an organization. In a practice Hilton pioneered in the first edition, each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. Known for balanced examples of Service, Retail, Nonprofit and Manufacturing companies, Hilton offers a clear, engaging writing style that has been praised by instructors and students alike. As in previous editions, there is significant coverage of contemporary topics such as activity-based costing, target costing, the value chain, customer profitability analysis, and throughput costing while also including traditional topics such as job-order costing, budgeting and performance evaluation.

Strategic Management for Tourism, Hospitality and Events McGraw Hill

This new Southern African edition of Kim Langfield-Smith and Helen Thorne's best-selling Australian Management Accounting text explains the contemporary role of management accounting in organisations - supporting a company's quest for

enhancing shareholder and customer value. The effective management of resources, both financial and non-financial, is essential to creating value. Retaining the strategic approach and comprehensive coverage but thoroughly adapted for Southern Africa, Management Accounting Southern African edition is suitable for the one- or two-semester undergraduate course, and is ideal for use over two years of study.

Cost Management S. Chand Publishing

This book is an adaptation of the successful US text *Cost Management* by Hilton, Maher and Selto, written specifically for an international audience. Major improvements include: Diverse and truly international examples of organizations - Examples used throughout the book are from all over the world and represent manufacturing, retail, not-for-profit, and service firms in many different countries. Completely restructured and rewritten text - The book has been rewritten, restructured and also shortened significantly to align content closer with international courses. Integral use of spreadsheets - Spreadsheet software is

used for explaining techniques and making applications more realistic. In depth research - Summaries of international research studies that address important cost management issues have been updated and more references to recent research findings have been added. Intuitive explanation of accounting - The authors show directly how events impact the balance sheet and profit and loss account.

Business and Society: Stakeholder Relations, Ethics and Public Policy by Lawrence/Weber/Post, has continued through several successive author teams to be the market-leader in its field. For over thirty years, *Business and Society* has been updated and reinvented in response to society's relationship to business. *Business and Society, 11e* highlights why government regulation is sometimes required as well as new models of business-community collaboration.

Business and Society, 11e is a book with a point of view. Lawrence, Weber and Post believe that businesses have social (as well as economic) responsibilities to society; that business and government both have important roles to play in the modern economy; and that ethics and integrity are essential to personal fulfillment and to business success. The book is designed to be easily modularized; an instructor who wishes to focus on a particular portion of the material may select individual chapters or cases to be packaged in a Primis custom product.
