DEVAN OSBORNE

A Guide to the Criminal Law of Zimbabwe Oxford University Press, USA

With chapters written by leading clinical legal educators from every region of the world, this book demonstrates how the expansion of clinical programs has spawned an emerging global movement that can advance social justice through legal education.

An Introduction to Law Juta and Company Ltd

The world has changed radically since 1989, when the General Assembly declared the period from 1990 to 1999 as the United

Nations Decade of International Law. During that time, the international community claimed some major achievements as reflected by the adoption of conventions and treaties. This publication presents a collection of essays from legal advisers of States and international organizations, all of whom are among those committed to promoting respect for international law. Their contribution provides a practical perspective on international law, viewed from the standpoint of those involved in its formation, application and administration.

Crimes Against the State African Books Collective

Fifty years after the adoption of the Declaration on Permanent Sovereignty over Natural Resources by the General Assembly of the United Nations in December 1962, this volume assesses the evolution of the principle of permanent sovereignty over natural

resources into a principle of customary international law as well as related developments. International environmental and human rights law leave unresolved questions regarding the limitations of this principle, e.g. extraterritorial and international influences such as the applicable criminal and tort law, as well as the extraterritorial and international promotion of good governance, including transparency obligations.

Commonwealth Caribbean Law and Legal Systems Zimbabwe Labour Centre and Institute of Commercial Law Unive

This is a comprehensive textbook on Zimbabwean labour law. After detailing the history and purpose of the law, it offers a comprehensive review of contracts of employment, termination, the rights of organisation and association, and collective bargaining. Dispute settlement is discussed within the contexts of the right to strike, conciliation and arbitration, and the role of the courts in adjudication. State employment is treated separately, as it is governed by constitutional law as well as labour law. The book concludes with chapters covering aspects of social security in Zimbabwe, and a discussion on international labour law.

Collection of Essays by Legal Advisers of States, Legal Advisers of International Organizations and Practitioners in the Field of International Law Cambridge University Press

Focusing on political trials in Zimbabwe's Magistrates' Courts between 2000 and 2012, Susanne Verheul explores why the judiciary have remained a central site of contestation in post-independence Zimbabwe. Drawing on rich court observations and in-depth interviews, this book foregrounds law's potential to reproduce or transform social and political power through the narrative, material, and sensory dimensions of courtroom

performances. Instead of viewing appeals to law as acts of resistance by marginalised orders for inclusion in dominant modes of rule, Susanne Verheul argues that it was not recognition by but of this formal, rule-bound ordering, and the form of citizenship it stood for, that was at stake in performative legal engagements. In this manner, law was much more than a mere instrument. Law was a site in which competing conceptions of political authority were given expression, and in which people's understandings of themselves as citizens were formed and performed.

The History and Political Transition of Zimbabwe African Books Collective

The first single-volume history of Zimbabwe with detailed coverage from pre-colonial times to the present, this book examines Zimbabwe's pre-colonial, colonial and postcolonial social, economic and political history and relates historical factors and trends to recent developments in the country. Zimbabwe is a country with a rich history, dating from the early San hunter-gatherer societies. The arrival of British imperial rule in 1890 impacted the country tremendously, as the European rulers exploited Zimbabwe's resources, giving rise to a movement of African nationalism and demands for independence. This culminated in the armed conflict of the 1960s and 1970s and independence in 1980. The 1990s were marked by economic decline and the rise of opposition politics. In 1999, Mugabe embarked on a violent land reform program that plunged the nation's economy into a downward spiral, with political violence and human rights violations making Zimbabwe an international pariah state. This book will be useful to those studying

Zimbabwean history and those unfamiliar with the country's past. International Human Rights Law in Africa African Books Collective Rhodesia's illegal Unilateral Declaration of Independence (UDI) in 1965 is an act that not only shaped regional politics but also had a profound effect on Britain's attempt to retreat from its empire. This edited collection brings together leading voices in the field, whose contributions - on the role of finance, 'big business', and the regional and international actors involved in the country's negotiated independence - update long-held historiographical wisdoms, signalling a revival in economic and diplomatic explanations for the country's decolonisation. In particular, they shed fresh light on the role(s) played in the decolonisation of Zimbabwe by economic (private business) and political (liberation movements, Western and Southern African governments) actors that until now have been studied with very limited access to primary sources. As scholarship on Zimbabwe is currently dominated by studies that seek to understand the 'crisis' in which the country has recently found itself, this collection acts as a clarion call that reinforces the importance of studies of earlier historical processes. In doing so, the book provides a more nuanced understanding of the continuities and discontinuities between Zimbabwe's colonial and postcolonial history, and examines the roles played by external governments and individuals in the decolonisation of Zimbabwe. This book was originally published as a special issue of *The Journal of Imperial and Commonwealth History*.

An Introduction to Zimbabwean Literature in English African Books Collective

As an instrument which addresses the circumstances which affect

women's lives and enjoyment of rights in a diverse world, the CEDAW is slowly but surely making its mark on the development of international and national law. Using national case studies from South Asia, Southern Africa, Australia, Canada and Northern Europe, *Women's Human Rights* examines the potential and actual added value of the Convention on the Elimination of All Forms of Discrimination against Women in comparison and interaction with other equality and anti-discrimination mechanisms. The studies demonstrate how state and non-state actors have invoked, adopted or resisted the CEDAW and related instruments in different legal, political, economic and socio-cultural contexts, and how the various international, regional and national regimes have drawn inspiration and learned from each other.

Private International Law in Commonwealth Africa Langaa RPCIG Fully updated and revised to fit in with the new laws and structure in the Commonwealth Caribbean law and legal systems, this new edition examines the institutions, structures and processes of the law in the Commonwealth Caribbean. The author explores: - the court system and the new Caribbean Court of Justice which replaces appeals to the Privy Council - the offshore financial legal sector - Caribbean customary law and the rights of indigenous peoples - the Constitutions of Commonwealth Caribbean jurisdictions and Human Rights - the impact of the historical continuum to the region's jurisprudence including the question of reparations - the complexities of judicial precedent for Caribbean peoples - international law as a source of law - alternative dispute mechanisms and the Ombudsman Effortlessly combining discussions of traditional subjects with those on more

innovative subject areas, this book is an exciting exposition of Caribbean law and legal systems for those studying comparative law.

Labour Law in Zimbabwe Weaver Press

"Formerly known as the International Citation Manual"--p. xv.

Constitutionalism and the Rule of Law An Introduction to Zimbabwean Law

A comprehensive and in-depth analysis of how courts in the countries of Commonwealth Africa decide claims under private international law.

Family Law in Zimbabwe Routledge

This Guide provides an outline of the main aspects of the Zimbabwean Law of Delict. Delict is a concept of civil law in which a willful wrong or an act of negligence gives rise to a legal obligation between the parties, despite the lack of a contract. A Cases section follows the main text, containing summaries of salient Zimbabwean cases and also of some important South African and English cases.

Criminal Defender's Handbook Cambridge University Press

This is an introductory textbook on the Zimbabwean legal system. It sets the stage for a comprehensive description of that legal system by opening with some theoretical issues on the nature of law in general, particularly a definition of law, the role and purpose of law in society, the relationship between law and justice and how morality impacts on law. After outlining this theoretical framework, it turns to the Zimbabwean legal system and covers the following key areas: sources of Zimbabwean law, the scope of Roman-Dutch law in Zimbabwe, the law-making process and the role of Parliament, the structure of the courts in

Zimbabwe, the procedures in the civil and criminal courts, the legal aid system and the nature of the legal profession. It covers the process of appointment of judges and its effect on the independence of the judiciary. It has a long closing chapter on the interpretation of statutes covering all the rules, maxims and presumptions.

The Global Clinical Movement Cambridge University Press

If teachers want to educate deaf learners effectively, they have to apply evidence-informed methods and didactics with the needs of individual deaf students in mind. Education in general -- and education for deaf learners in particular -- is situated in broader societal contexts, where what works within the Western world may be quite different from what works beyond the Western world. By exploring practice-based and research-based evidence about deaf education in countries that largely have been left out of the international discussion thus far, this volume encourages more researchers in more countries to continue investigating the learning environment of deaf learners, based on the premise of leaving no one behind. Featuring chapters centering on 19 countries, from Africa, Asia, Latin America, and Central and Eastern Europe, the volume offers a picture of deaf education from the perspectives of local scholars and teachers who demonstrate best practices and challenges within their respective regional contexts. This volume addresses the notion of learning through the exchange of knowledge; outlines the commonalities and differences between practices and policies in educating deaf and hard-of-hearing learners; and looks ahead to the prospects for the future development of deaf education research in the context of recently adopted international legal frameworks.

Stimulating academic exchange regionally and globally among scholars and teachers who are fascinated by and invested in deaf education, this volume strengthens the foundation for further improvement of education for deaf children all around the world. Guide to Foreign and International Legal Citations United Nations Publications

Labour law has traditionally aimed to protect the employee under a hierarchy built on constitutional provisions, statutory law, collective agreements at various levels, and the employment contract, in that order. However, in employment regulation in recent years, 'flexibility' has come to dominate the world of work – a set of policies that reshuffle the relationship among the fundamental pillars of labour law and inevitably lead to degrading the protection of employees. This book, the first-ever to consider the sources of labour law from a comparative perspective, details the ways in which the traditional hierarchy of sources has been altered, presenting an international view on major cross-cutting issues followed by fifteen country reports. The authors' analysis of the changing hierarchy of labour law sources in the light of recent trends includes such elements as the following: the constitutional dimension of labour rights; the normative intervention by the State; the regulatory function of collective bargaining and agreements; the hierarchical organization of labour law sources and the 'principle of favour'; the role played by case law in both common law and civil law countries; the impact of the European Economic Governance; decentralization of collective bargaining; employment conditions as key components of global competitive strategies; statutory schemes that allow employees to sign away their rights. National reports –

Australia, Brazil, China, Denmark, France, Germany, Hungary, Italy, Poland, Russia, Spain, Sweden, South Africa, the United Kingdom and the United States – describe the structure of labour law regulations in each legal system with emphasis on the current state of affairs. The authors, all distinguished labour law scholars in their countries, thus collectively provide a thorough and comprehensive commentary on labour law regulation and recent tendencies in national labour laws in various corners of the globe. With its definitive analysis of such crucial matters as the decentralization of collective bargaining and how individual employment contracts can deviate from collective agreements and statutory law, and its comparison of representative national labour law systems, this highly informative book will prove of inestimable value to all professionals concerned with employment relations, labour disputes, or labour market policy, especially in the context of multinational workforces.

Transnational Land Grabs and Restitution in an Age of the (De-) Militarised New Scramble for Africa: A Pan African Socio-Legal Langaa RPCIG

"This book delves into issued of 'Civil justice' which refers to that part of a legal system that is concerned with the legal relations between people (including 'legal persons') as distinct from 'criminal justice' i.e. that part of the legal system concerned with actions by the state against people and looks at contracts, personal injury, property and the breakdown of family relations as familiar examples of civil disputes"--

A Guide to the Law and Practice of Conveyancing in Zimbabwe Springer

This Handbook is intended to give guidance to legal practitioners

representing clients who are charged with criminal offences in Zimbabwe. It is particularly aimed at newly qualified legal practitioners, but it also contains reference material that will be useful for more experienced practitioners. It covers selective aspects of criminal procedure, evidence, substantive law and sentencing.

Business Law and the Legal Environment Cambridge University Press

This is a comprehensive textbook on Zimbabwean labour law. After detailing the history and purpose of the law, it offers a comprehensive review of contracts of employment, termination, the rights of organisation and association, and collective bargaining. Dispute settlement is discussed within the contexts of the right to strike, conciliation and arbitration, and the role of the courts in adjudication. State employment is treated separately, as it is governed by constitutional law as well as labour law. The book concludes with chapters covering aspects of social security in Zimbabwe, and a discussion on international labour law.

Women's Human Rights Kluwer Law International B.V.

The establishment of legal institutions was a key part of the

process of state construction in Africa, and these institutions have played a crucial role in the projection of state authority across space. This is especially the case in colonial and postcolonial Zimbabwe. George Karekwaivanane offers a unique long-term study of law and politics in Zimbabwe, which examines how the law was used in the constitution and contestation of state power across the late-colonial and postcolonial periods. Through this, he offers insight on recent debates about judicial independence, adherence to human rights, and the observation of the rule of law in contemporary Zimbabwean politics. The book sheds light on the prominent place that law has assumed in Zimbabwe's recent political struggles for those researching the history of the state and power in Southern Africa. It also carries forward important debates on the role of law in state-making, and will also appeal to those interested in African legal history.

Zimbabwe: Mired in Transition La Commission

This comprehensive edition covers all areas of business law in the Zimbabwean context. It includes cases and legislation, and South African, English and other authorities have been relegated to the detailed footnotes.
