The two soon find themselves at odds with Garak and embroiled in the politics of the prestigious University of the Union, where a new head is about to be appointed. Among the front-runners is one of Cardassia's most respected public figures: Professor Natima Lang. But the discovery of a hidden archive from the last years before the Dominion War could destroy Lang's reputation. As Pulaski and Alden become

Six days ago, astronaut Mark Watney became one of the first people to walk on Mars. Now, he's sure he'll be the first person to die there. After a dust storm nearly kills him and forces his crew to evacuate while thinking him dead,

Mark finds himself stranded and completely alone with no way to even signal Earth that he's alive--and even if he could get word out, his supplies would be gone long before a rescue could arrive. Chances are, though, he won't have time to starve to death. The damaged machinery, unforgiving environment, or plain old "human error" are much more likely to kill him first. But Mark isn't ready to give up yet. Drawing on his ingenuity, his engineering skills--and a relentless, dogged refusal to quit--he steadfastly confronts one seemingly insurmountable obstacle after the next. Will his resourcefulness be enough to overcome the impossible odds

against him?

Disney's Lilo & Stitch has it all: adventure, imagination, humor, and heart. And now fans can learn to re-create the fun, out-of-this-world characters from this classic tale about an adorable and spirited 5-year-old Hawaiian girl and her

best friend Stitch, a funny-looking dog (who's really a one-of-a-kind alien). The book provides step-by-step instructions for drawing these animated film characters in a variety of moods and poses. This easy-to-follow guide proves just how exciting the world of cartooning can be!

A Stitch in Time Simon and Schuster

An unique and intense tale following Elim Garak as he attempts to stitch the ravaged society of Cardassia back together. For nearly a decade Garak has longed for just one thing—to go home. Exiled on a space station, surrounded by aliens who loathe and distrust him, going back to Cardassia has been Garak's one dream. Now, finally, he

is home. But home is a world whose landscape is filled with death and destruction. Desperation and dust are constant companions and luxury is a glass of clean water and a warm place to sleep. Ironically, it is a letter from one of the aliens on that space station, Dr. Julian Bashir, that inspires Garak to look at the fabric of his life. Elim Garak has been a student, a gardener, a spy, an exile, a tailor, even a liberator. It is a life that was charted by the forces of Cardassian society with very little understanding of the person, and even less compassion. But it is the tailor that understands who Elim Garak was, and what he could be. It is the tailor who sees the

ruined fabric of Cardassia, and who knows how to bring this ravaged society back together. This is strange, because a tailor is the one thing Garak never wanted to be. But it is the tailor whom both Cardassia and Elim Garak need. It is the tailor who can put the pieces together, who can take a stitch in time.

A Novel of Time Travel Walter Foster Jr Planet Terra was a bleak and savage world, a mix of dense jungles and brutal deserts. Two kinds of people visited it: slave merchants and big game hunters. That is, until a fleeing space ship deposits young Lexa of the Clan Sinclair at the edge of the Merica Desert. With no memory of who she is, and what the web-

like tattoo on her hand means, she joins a caravan on its journey to Manhat. Meanwhile, two great battle cruisers search for her, for the fate of the galaxy rests literally in the palm of her hand.

In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less

empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage

readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

A British soldier flees to the Hebrides for reprieve from war while something else hunts for him in this historical thriller by the author of *The Crossing*.

When Cap. John Lacroix returns home from Spain, wounded, unconscious, and alone, he believes that he has seen the worst of what men may do. It is 1809, and in England's wars against Napoleon, the Battle of Corruna stands out as a humiliation: a once-proud army forced to retreat, civilized men reduced to senseless acts of cruelty. Slowly regaining his health, Lacroix journeys north to the misty isles of Scotland with the intent of forgetting the horrors of the war. Unbeknownst to him, however, something else has followed him back from the war—something far more dangerous than a memory . . . A New York Times Notable Book of 2019 "Miller's writing is a source of
