Can't We Talk about Something More Pleasant?  
Bloomsbury Publishing USA

Special edition slipcase edition of John Green's *Paper Towns*, with pop-up paper town. From the bestselling author of *The Fault in our Stars*. Quentin Jacobsen has always loved Margo Roth Spiegelman, for Margo (and her adventures) are the stuff of legend at their high school. So when she one

day climbs through his window and summons him on an all-night road trip of revenge he cannot help but follow. But the next day Margo doesn't come to school and a week later she is still missing. Q soon learns that there are clues in her disappearance . . . and they are for him. But as he gets deeper into the mystery - culminating in another awesome road trip across America - he becomes less sure of who and what he is looking for. Masterfully written by John Green, this is a thoughtful, insightful and hilarious coming-of-age story.

On its 150th anniversary, discover the story of the beloved classic that has captured the imaginations of generations. Soon after publication on September 30, 1868, *Little Women* became an enormous bestseller and one of America's favorite novels. Its popularity quickly spread throughout the world, and the book has become an international classic. When Anne Boyd Rioux read the novel in her twenties, she had a powerful reaction to the story. Through teaching

the book, she has seen the same effect on many others. In *Meg, Jo, Beth, Amy*, Rioux recounts how Louisa May Alcott came to write *Little Women*, drawing inspiration for it from her own life. Rioux also examines why this tale of family and community ties, set while the Civil War tore America apart, has resonated through later wars, the Depression, and times of changing opportunities for women. Alcott's novel has moved generations of women, many of them writers: Simone de Beauvoir, J. K. Rowling, bell hooks, Cynthia Ozick, Jane Smiley, Margo Jefferson, and Ursula K. Le Guin were inspired by *Little Women*, particularly its portrait of the iconoclastic young writer, Jo. Many have felt, as Anna Quindlen has declared, "Little Women changed my life." Today, Rioux sees the novel's beating heart in Alcott's portrayal of family resilience and her honest look at the struggles of girls growing into women. In gauging its current status, Rioux shows why *Little Women* remains a book with such power that people carry its characters and spirit throughout their lives.

This book presents the results of a series of literacy experiments in ten Niger-Congo languages, representing four language families and spanning five countries. It asks the research question, "To what extent does full tone marking contribute to oral reading fluency, comprehension and writing accuracy, and does that contribution vary from language to language?". One of the main findings is that the ethno-literacy profile of the language community and the social profile of the individual are stronger predictors of reading and writing performance than are the linguistic and orthographic profiles of the language. Our data also suggest that full tone marking may be more beneficial for less educated readers and those with less experience of L1 literacy. The book will bring practical help to linguists and literacy specialists in Africa and beyond who are helping to develop orthographies for tone languages. It will also be of interest to cognitive psychologists exploring the reading process, and researchers investigating writing

systems.

Typewriters Voice This book is about success of Typewriters Voice, a Facebook page which has 10 million followers is a great achievement. The Evolution of a Girl Who are we, and how do we relate to each other? Luciano Floridi, one of the leading figures in contemporary philosophy, argues that the explosive developments in Information and Communication Technologies (ICTs) is changing the answer to these fundamental human questions. As the boundaries between life online and offline break down, and we become seamlessly connected to each other and surrounded by smart, responsive objects, we are all becoming integrated into an "infosphere". Personas we adopt in social media, for example, feed into our 'real' lives so that we begin to live, as Floridi puts in, "onlife". Following those led by Copernicus, Darwin, and Freud, this metaphysical shift represents nothing less than a fourth revolution. "Onlife" defines more and more of our daily activity - the way we shop, work, learn, care for our health,

entertain ourselves, conduct our relationships; the way we interact with the worlds of law, finance, and politics; even the way we conduct war. In every department of life, ICTs have become environmental forces which are creating and transforming our realities. How can we ensure that we shall reap their benefits? What are the implicit risks? Are our technologies going to enable and empower us, or constrain us? Floridi argues that we must expand our ecological and ethical approach to cover both natural and man-made realities, putting the 'e' in an environmentalism that can deal successfully with the new challenges posed by our digital technologies and information society.

The epic made simple.

The miracle in the mundane. One day, while browsing an antique store in Helena, Montana, photographer Tyler Knott Gregson stumbled upon a vintage Remington typewriter for sale.

Standing up and using a page from a broken book he was buying for \$2, he typed a poem without thinking, without planning, and without the ability to revise anything. He fell in love. Three

years and almost one thousand poems later, Tyler is now known as the creator of the Typewriter Series: a striking collection of poems typed onto found scraps of paper or created via blackout method. *Chasers of the Light* features some of his most insightful and beautifully worded pieces of work—poems that illuminate grand gestures and small glimpses, poems that celebrate the beauty of a life spent

chasing the light.

**Paper Towns** Castle Point Books

A cultural catalog of everyday things rapidly turning into rarities—from landlines to laugh tracks.

So many things have disappeared from our day-to-day world, or are on the verge of vanishing.

Some we may already think of as ancient relics, like typewriters (and their accompanying bottles of correction fluid). Others seem like they were here just yesterday, like boom boxes and CDs. We may feel fond nostalgia for certain items of yore:

encyclopedias, newspapers, lighthouses. Other items, like MSG, not

so much. But as the pace of change keeps

accelerating, it's worth taking a moment to mark the passing of the objects of our lives, from

passbooks and pay phones to secretaries and skate keys. And to reflect

on certain endangered phenomena that may be worth trying to hold on to—like privacy, or cash.

This thoughtful alphabetized compendium invites us to take a look at the many things, ideas, and behaviors that have gone the way of the subway token—and to reflect on what is ephemeral, and what is

truly timeless.

From Pasternak's country estate outside Moscow to the brutalities of the Gulag, from Washington, D.C. to Paris and Milan, *The Secrets We Kept* captures a watershed moment in the history of literature--told with soaring emotional intensity and captivating historical detail. Poems Vintage  
#1 New York Times Bestseller 2014 NATIONAL BOOK AWARD FINALIST In her first memoir, *New Yorker* cartoonist Roz Chast brings her signature

wit to the topic of aging parents. Spanning the last several years of their lives and told through four-color cartoons, family photos, and documents, and a narrative as rife with laughs as it is with tears, Chast's memoir is both comfort and comic relief for anyone experiencing the life-altering loss of elderly parents. When it came to her elderly mother and father, Roz held to the practices of denial, avoidance, and distraction. But when Elizabeth Chast climbed a ladder to locate an old souvenir from the "crazy closet"-with predictable results-the tools that had served Roz well through her parents' seventies, eighties, and into their early nineties could no longer be deployed. While the particulars are Chastian in their idiosyncrasies-an anxious father who had relied heavily on his wife for stability as he slipped into dementia and a former assistant principal mother whose overbearing personality had sidelined Roz for decades-the themes are universal: adult children accepting a parental role; aging and unstable parents leaving a family home for an institution; dealing with

uncomfortable physical intimacies; managing logistics; and hiring strangers to provide the most personal care. An amazing portrait of two lives at their end and an only child coping as best she can, *Can't We Talk about Something More Pleasant* will show the full range of Roz Chast's talent as cartoonist and storyteller.

*The Optical Unconscious* is a pointed protest against the official story of modernism and against the critical tradition that attempted to define modern art according to certain sacred commandments and self-fulfilling truths. The account of modernism presented here challenges the vaunted principle of "vision itself." And it is a very different story than we have ever read, not only because its insurgent plot and characters rise from below the calm surface of the known and law-like field of modernist painting, but because the voice is unlike anything we have heard before. Just as the artists of the optical unconscious assaulted the idea of autonomy and visual mastery, Rosalind Krauss

abandons the historian's voice of objective detachment and forges a new style of writing in this book: art history that insinuates diary and art theory, and that has the gait and tone of fiction. The *Optical Unconscious* will be deeply vexing to modernism's standard-bearers, and to readers who have accepted the foundational principles on which their aesthetic is based. Krauss also gives us the story that Alfred Barr, Meyer Shapiro, and Clement Greenberg repressed, the story of a small, disparate group of artists who defied modernism's most cherished self-descriptions, giving rise to an unruly, disruptive force that persistently haunted the field of modernism from the 1920s to the 1950s and continues to disrupt it today. In order to understand why modernism had to repress the optical unconscious, Krauss eavesdrops on Roger Fry in the salons of Bloomsbury, and spies on the toddler John Ruskin as he amuses himself with the patterns of a rug; we find her in the living room of Clement Greenberg as he complains about "smart Jewish girls with their typewriters" in the 1960s, and in colloquy

with Michael Fried about Frank Stella's love of baseball. Along the way, there are also narrative encounters with Freud, Jacques Lacan, Georges Bataille, Roger Caillois, Gilles Deleuze, and Jean-François Lyotard. To embody this optical unconscious, Krauss turns to the pages of Max Ernst's collage novels, to Marcel Duchamp's hypnotic Rotoreliefs, to Eva Hesse's luminous sculptures, and to Cy Twombly's, Andy Warhol's, and Robert Morris's scandalous decoding of Jackson Pollock's drip pictures as "Anti-Form." These artists introduced a new set of values into the field of twentieth-century art, offering ready-made images of obsessional fantasy in place of modernism's intentionality and unexamined compulsions. The Optical Unconscious Mohammed Qahtani The best-selling poet of HER & HER Vol. 2 returns with a different voice, on a different path, but with the same mission. HIM is a collection of "he-poetry" in a world of "she-poems" that tends to only refer to him when speaking ill. Through poetry and prose, Pierre wears his heart on paper and pens a

tribute to men; their undelivered feelings, unrecognized strength, their loud silence, and their neglected complaints. HIM celebrates good men, their love, their worth, and their beauty. The characteristics that often fall into the shadows are now brought to life. *An Introduction to the Theory and Application of User-centered Design* John Wiley & Sons Finalist for the International Booker Prize and the National Book Award A haunting Orwellian novel about the terrors of state surveillance, from the acclaimed author of *The Housekeeper and the Professor*. On an unnamed island, objects are disappearing: first hats, then ribbons, birds, roses. . . . Most of the inhabitants are oblivious to these changes, while those few able to recall the lost objects live in fear of the draconian Memory Police, who are committed to ensuring that what has disappeared remains forgotten. When a young writer discovers that her editor is in danger, she concocts a plan to hide him beneath her floorboards, and together they cling to her writing as the last way of

preserving the past.
