The present essays try to know how the culturally different peoples of Ethiopia remember their past, and what conceptions they entertain of each other; explore the dangers inherent in situations of cultural contact and examine how the powerful notions of pride, honor, name, and self-esteem come into play, as people struggle to maintain their identity, individually or as a group. The master trope for this kind of sensitivity and vulnerability in social and cultural interaction is "face". This is why the volume is entitled "The perils of face."

On Bullshit Zondervan

Their Eyes Were Watching God is a 1937 novel by African-American writer Zora Neale Hurston. It is considered a classic of the Harlem Renaissance of the 1920s, and it is likely Hurston's best known work.

The Federalist Papers Vintage

Stig Kanger (1924-1988) made important contributions to logic and formal philosophy. Kanger's dissertation *Provability in Logic*, 1957, contained significant results in proof theory as well as the first fully worked out model-theoretic interpretation of quantified modal logic. It is generally accepted nowadays that Kanger was one of the originators of possible worlds semantics for modal logic. Kanger's most original achievements were in the areas of

general proof theory, the semantics of modal and deontic logic, and the logical analysis of the concept of rights. He also contributed to action theory, preference logic, and the theory of measurement. This is the first of two volumes dedicated to the work of Stig Kanger. The present volume is a complete collection of Kanger's philosophical papers. The second volume contains critical essays on Kanger's work, as well as biographical essays on Kanger written by colleagues and friends.

Now in paperback, the national bestselling riches-to-rags true story of an advertising executive who had it all, then lost it all—and was finally redeemed by his new job, and his twenty-eight-year-old boss, at Starbucks. In his fifties, Michael Gates Gill had it all: a mansion in the suburbs, a wife and loving children, a six-figure salary, and an Ivy League education. But in a few short years, he lost his job, got divorced, and was diagnosed with a brain tumor. With no money or health insurance, he was forced to get a job at Starbucks. Having gone from power lunches to scrubbing toilets, from being served to serving, Michael was a true fish out of water. But fate brings an unexpected teacher into his life who opens his eyes to what living well really looks like. The two seem to have nothing in common: She is a young African American, the daughter of a drug addict; he is used to being the boss but reports to her now. For the first time in his life he experiences being a member of a minority trying hard to survive in a challenging new job. He learns the value of hard work and humility, as well as what it truly means to respect another person. Behind the scenes at one of America's most intriguing

businesses, an inspiring friendship is born, a family begins to heal, and, thanks to his unlikely mentor, Michael Gill at last experiences a sense of self-worth and happiness he has never known before. Watch a QuickTime trailer for this book.

From legendary playwright August Wilson comes the powerful, stunning dramatic bestseller that won him critical acclaim, including the Tony Award for Best Play and the Pulitzer Prize. Troy Maxson is a strong man, a hard man. He has had to be to survive. Troy Maxson has gone through life in an America where to be proud and black is to face pressures that could crush a man, body

and soul. But the 1950s are yielding to the new spirit of liberation in the 1960s, a spirit that is changing the world Troy Maxson has learned to deal with the only way he can, a spirit that is making him a stranger, angry and afraid, in a world he never knew and to a wife and son he understands less and less. This is a modern classic, a book that deals with the impossibly difficult themes of race in America, set during the Civil Rights Movement of the 1950s and 60s. Now an Academy Award-winning film directed by and starring Denzel Washington, along with Academy Award and Golden Globe winner Viola Davis.

This book of essays reflects the wide-ranging interests of Robert Freke Gould, one of the earliest Masonic writers to approach the history of the order in a systematic and thorough manner. The varied and esoteric nature of the topics reflects the intense interest in spirituality and history of writers in the early twentieth century.

Collected Papers of Stig Kanger with Essays on his Life and Work Volume II Laurel Leaf

In 1987, Dr. Benjamin Carson gained worldwide recognition for his part in the first successful separation of Siamese twins joined at the back of the head. The extremely complex and delicate operation, five months in the planning and twenty-two hours in the execution, involved a surgical plan that Carson helped initiate. Carson pioneered again in a rare procedure known as hemispherectomy, giving children without hope a second chance at life through a daring operation in which he literally removed one half of their brain. But such breakthroughs aren't unusual for Ben Carson. He's been beating the odds since he was a child.

Raised in inner-city Detroit by a mother with a third grade education, Ben lacked motivation. He had terrible grades. And a pathological temper threatened to put him in jail. But Sonya Carson convinced her son that he could make something of his life, even though everything around him said otherwise. Trust in God, a relentless belief in his own capabilities, and sheer determination catapulted Ben from failing grades to the top of his class --- and beyond to a Yale scholarship . . . the University of Michigan Medical School . . . and finally, at age 33, the directorship of pediatric neurosurgery at Johns Hopkins Hospital in Baltimore, Maryland. Today, Dr. Ben Carson holds twenty honorary doctorates and is the possessor of a long string of honors and awards, including the Horatio Alger Award, induction into the 'Great Blacks in Wax' Museum in Baltimore, Maryland, and an invitation as Keynote Speaker at the 1997 President's National Prayer Breakfast. Gifted Hands is the riveting story of one man's secret for success, tested against daunting odds and driven by an incredible mindset that dares to take risks. This inspiring autobiography takes you into the operating room to witness surgeries that made headlines around the world --- and into the private mind of a compassionate, God-fearing physician who lives to help others. Through it all shines a humility, quick wit, and down-to-earth style that make this book one you won't easily forget.

A New Translation From The French By Marion Wiesel Born in

Sighet, Transylvania, Elie Wiesel was a teenager when he and his family were taken from their home in 1944 and deported to the Auschwitz concentration camp, and then to Buchenwald. Night is the terrifying record of Elie Wiesel's memories of the death of his family, the death of his own innocence, and his despair as a deeply observant Jew confronting the absolute evil of man. This new translation by his wife and most frequent translator, Marion Wiesel, corrects important details and presents the most accurate rendering in English of Elie Wiesel's seminal work. ONE OF TIME MAGAZINE'S 100 BEST YA BOOKS OF ALL TIME • NEW YORK TIMES BESTSELLER A modern-day classic from Newbery Medalist Jerry Spinelli, this beloved celebration of individuality is now an original movie on Disney+! And don't miss the author's highly anticipated new novel, *Dead Wednesday!* *Stargirl*. From the day she arrives at quiet Mica High in a burst of color and sound, the hallways hum with the murmur of "Stargirl, Stargirl." She captures Leo Borlock's heart with just one smile. She sparks a school-spirit revolution with just one cheer. The students of Mica High are enchanted. At first. Then they turn on her. Stargirl is suddenly shunned for everything that makes her different, and Leo, panicked and desperate with love, urges her to become the very thing that can destroy her: normal. In this celebration of nonconformity, Newbery Medalist Jerry Spinelli weaves a tense, emotional tale about the perils of popularity and the thrill and inspiration of first love. Don't miss the sequel, *Love, Stargirl*, as well as *The Warden's Daughter*, a novel about another

girl who can't help but stand out. "Spinelli is a poet of the prepubescent. . . . No writer guides his young characters, and his readers, past these pitfalls and challenges and toward their futures with more compassion." —The New York Times

Lord of the Flies Springer Science & Business Media

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

Do They Really Respect Us? and Other Essays Penguin

Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his

possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

A #1 NEW YORK TIMES BESTSELLER One of the most salient features of our culture is that there is so much bullshit. Everyone knows this. Each of us contributes his share. But we tend to take the situation for granted. Most people are rather confident of their ability to recognize bullshit and to avoid being taken in by it. So the phenomenon has not aroused much deliberate concern. We have no clear understanding of what bullshit is, why there is so much of it, or what functions it serves. And we lack a conscientiously developed appreciation of what it means to us. In other words, as Harry Frankfurt writes, "we have no theory." Frankfurt, one of the world's most influential moral philosophers, attempts to build such a theory here. With his characteristic combination of philosophical acuity, psychological insight, and wry humor, Frankfurt proceeds by exploring how bullshit and the related concept of humbug are distinct from lying. He argues that bullshitters misrepresent themselves to their audience not as liars do, that is, by deliberately making false claims about what is true. In fact, bullshit need not be untrue at all. Rather, bullshitters seek to convey a certain impression of themselves without being concerned about whether anything at all is true. They quietly change the rules governing their end of the conversation so that claims about truth and falsity are irrelevant. Frankfurt concludes that although bullshit can take many innocent forms, excessive indulgence in it can eventually undermine the practitioner's capacity to tell the truth in a way that lying does not. Liars at least acknowledge that it matters what is true. By virtue of this, Frankfurt writes, bullshit is a greater enemy of the truth than lies are.

A Raisin in the Sun Scholastic Inc.

This book examines the manner in which successful firms develop, transfer, protect, and capture value from technological innovation. In essence, it is about “knowledge management”, which lies at the foundation of firm level competitive advantage in today's global economy. The essays contain some of the fundamental contributions to the field of knowledge management by one of its best-known thinkers; they also constitute an immensely practical guide for those managers who wish to look below the surface of what is going on in Silicon Valley and elsewhere. Contents: Capturing Value from Technological Innovation Sustaining Value Creation and Capture Licensing, Technology Transfer, and the Market for Know-How Technological Change and Competition Policy Technological Innovation and the Theory of the Firm Readership: Professionals and academics in management studies. Keywords: Reviews: “Anyone interested in strategy or policy towards knowledge industries will learn much from this collection, written throughout with the elegance and lucidity which is a hallmark of Teece's work.” Research Policy *What Waits in the Woods* Oxford University Press

Woman in the Nineteenth Century BRILL

Classic Books Library presents this brand new edition of “The Federalist Papers”, a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing

doctrines and policies of the States lacked cohesion. “The Federalist”, as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

The Outsiders Penguin

Seeing things. You were just seeing things. For city girl Callie Velasquez, nothing sounds more terrifying than a night out in the wilderness. But, wanting to bond with her popular new friends, Lissa and Penelope, she agrees to join them on a camping trip. At least Callie's sweet new boyfriend, Jeremy, will be coming too. But nothing goes as planned. The group loses half their food supply. Then they lose their way. And with strange sounds all around her--the snap of a twig, a sinister laugh--Callie wonders if she's losing her mind. Tensions swirl among the group, with dark secrets suddenly revealed. And then, things take a fatal turn: Callie stumbles upon a cold dead body in the woods. Is the murderer close by, watching them? Callie has to figure out where she can turn and who she can trust, before her own life is at stake. Kieran Scott weaves a thrilling mystery that explores love,

loyalty--and the dangerous decisions we make in order to survive. Collected Papers of Stig Kanger with Essays on his Life and Work Hill and Wang

The “dazzling” and essential portrayal of 1960s America from the author of *South and West* and *The Year of Magical Thinking* (The New York Times). Capturing the tumultuous landscape of the United States, and in particular California, during a pivotal era of social change, the first work of nonfiction from one of American literature’s most distinctive prose stylists is a modern classic. In twenty razor-sharp essays that redefined the art of journalism, National Book Award-winning author Joan Didion reports on a society gripped by a deep generational divide, from the “misplaced children” dropping acid in San Francisco’s Haight-

Ashbury district to Hollywood legend John Wayne filming his first picture after a bout with cancer. She paints indelible portraits of reclusive billionaire Howard Hughes and folk singer Joan Baez, “a personality before she was entirely a person,” and takes readers on eye-opening journeys to Death Valley, Hawaii, and Las Vegas, “the most extreme and allegorical of American settlements.” First published in 1968, *Slouching Towards Bethlehem* has been heralded by the New York Times Book Review as “a rare display of some of the best prose written today in this country” and named to Time magazine’s list of the one hundred best and most influential nonfiction books. It is the definitive account of a terrifying and transformative decade in American history whose discordant reverberations continue to sound a half-century later.
