 Stunningly stylish art accompanies indulgent word play, ridiculous rhymes, and giggle-inducing punch lines Suitcase... FRUITcase! This deceptively simple pattern offers up one surprising rhyme per spread revealed behind a dramatic gatefold flap. Readers will delight in wagering guesses ? rhyming, of course ? before casting their eyes on the satisfying visual conclusion of the riddle. The list is subtly arched as a chronological day, from fresh orange GOOSE in the morning to TWEET dreams at night. Anything is possible in this beautifully packaged book of toddler comedy, which builds pre-literacy, vocabulary, and auditory skills,

and encourages natural extensions outside of the book.

This is the book fans of Candace Bushnell have been waiting for. From the author of *Sex and the City*, *Lipstick Jungle*, and *The Carrie Diaries* comes an addictive story about fame, love, and foolishness that will keep readers enthralled to the very last enticing scene. Pandy "PJ" Wallis is a renowned writer whose novels about a young woman making her way in Manhattan have spawned a series of blockbuster films. After the success of the *Monica* books and movies, Pandy wants to attempt something different: a historical novel based on her ancestor Lady Wallis. But Pandy's publishers and audience only want her to keep cranking out more *Monica*-as does her greedy husband, Jonny, who's gone deeply in debt to finance his new restaurant in Las Vegas. When her marriage crumbles and the boathouse of her family home in Connecticut goes up in flames, Pandy suddenly realizes she has an opportunity to reinvent herself. But to do so, she will have to reconcile with her ex-best friend and former partner in crime, SondraBeth Schnowzer, who plays *Monica* on the big screen-and who may have her own reasons to derail Pandy's startling change of plan. In *Killing Monica*, Candace Bushnell spoofs and skewers her way through pop culture, celebrity worship, fame, and the meaning of identity. With her trademark humor and style, this is Bushnell's sharpest, funniest book to date

"Natacha y Pati incursionan en el oficio de escribir cartas de amor por encargo. Esto da origen a situaciones divertidas, en la escuela y fuera de ella: Natacha le escribe a Federico, que le escribe a Valeria, que le escribe a Rubén, que le escribe a Sabrina... pues no todos quieren escribirles a quienes ellas pretenden, y así cada uno recibe algún disparate en papel." --From publisher's description.

*On Ghosts - Mary Shelley - Mary Wollstonecraft Shelley (née Godwin) (1797-1851)* was an English romantic gothic novelist. She received an excellent education, which was unusual for girls at the time. She never went to school, but she was taught to read and write by Louisa Jones, and then educated in a broad range of subjects by her father, who gave her free access to his extensive library. In particular, she was encouraged to write stories, and one of these early works *Mounseer Nongtongpaw* was published by the Godwin Company's Juvenile Library when she was only eleven. One night, perhaps attributable to Galvani's report, Mary had a waking dream; she recounted the episode in this way: "What terrified me will terrify others; and I need only describe the spectre which had haunted my midnight pillow. " This nightmare served as the basis for the novel that she entitled *Frankenstein*; or, *The Modern Prometheus* (1818). Amongst her other works are: *The Last Man* (1826), *Proserpine and Midas* (1922) and *Notes to the Complete Poetical Works of Percy Byshe Shelley*. *On Ghosts* is an essay written by Mary Shelley, first published in *London Magazine* (March 1824).

Extracorporeal membrane oxygenation (ECMO) has been in clinical use for some 40 years, but it is only in the past decade that its application in the treatment of life-threatening circulatory and respiratory failure has truly flourished. This book presents a comprehensive overview of both pathophysiological and practical aspects of circulatory and respiratory extracorporeal support. The basics of ECMO, including its history, the "ECMO team", cannulation, materials, and blood-surface interactions, are first discussed. The various indications for and particular characteristics of circulatory and respiratory extracorporeal life support are then described in detail in the main part of the book. Patient care during ECMO and

monitoring of the ECMO patient are also carefully covered, with explanation of the management of technical and clinical complications and transport-related problems. Further topics include long-term therapy options beyond ECMO, such as ventricular assist devices and transplants, outcome, the new frontiers of ECMO for organ procurement and future challenges. The authors are well-known experts in the field whose authoritative contributions and attention to practical aspects will be invaluable for novices and experienced practitioners alike.
