The renaissance of Larry McMurtry, “an alchemist who converts the basest materials to gold” (New York Times Book Review), continues with the publication of *Thalia*. Larry McMurtry burst onto the American literary scene with a force that would forever redefine how we perceive the American West. His first three novels— *Horseman, Pass By* (1961),* *Leaving Cheyenne* (1963), and *The Last Picture Show* (1966)— all set in the north Texas town of *Thalia* after World War II, are collected here for the first time. In this trilogy, McMurtry writes tragically of men and women trying to carve out an existence on the plains, where the forces of modernity challenge small- town American life. From a cattleranch rivalry that confirms McMurtry’s “full- blooded Western genius” (Publishers Weekly) to a love triangle involving a cowboy, his rancher boss and wife, and finally to the hardscrabble citizens of an oil- patch town trying to keep their only movie house alive, McMurtry captures the stark realities of the West like no one else. With a new introduction, *Thalia* emerges as an American classic that celebrates one of our greatest literary masters. *Just named in 2017 by Publishers Weekly the #1 Western novel worthy of rediscovery.

NEW YORK TIMES BESTSELLER • Pierce Brown’s relentlessly entertaining debut channels the excitement of *The Hunger Games* by Suzanne Collins and *Ender’s Game* by Orson Scott Card. “Red Rising ascends above a crowded dystopian field.”—USA Today NAMED ONE OF THE BEST BOOKS OF THE YEAR BY ENTERTAINMENT WEEKLY, BUZZFEED, AND SHELF AWARENESS “I live for the dream that my children will be born free,” she says. “That they will be what they like. That they will own the land their father gave them.” “I live for you,” I say sadly. Eo kisses my cheek. “Then you must live for more.” Darrow is a Red, a member of the lowest caste in the color-coded society of the future. Like his fellow Reds, he works all day, believing that he and his people are making the surface of Mars livable for future generations. Yet he toils willingly, trusting that his blood and sweat will one day result in a better world for his children. But Darrow and his kind have been betrayed. Soon he discovers that humanity reached the surface generations ago. Vast cities and lush wilds spread across the planet. Darrow—and Reds like him—are nothing more than slaves to a decadent ruling class. Inspired by a longing for justice, and driven by the memory of lost love, Darrow sacrifices everything to infiltrate the legendary Institute, a proving ground for the dominant Gold caste, where the next generation of humanity’s overlords struggle for power. He will be forced to compete for his life and the very future of civilization against the best and most brutal of Society’s ruling class. There, he will stop at nothing to bring down his enemies . . . even if it means he has to become one of them to do so. Praise for *Red Rising* “[A] spectacular adventure . . . one heart-pounding ride . . . Pierce Brown’s dizzyingly good debut novel evokes *The Hunger Games*, *Lord of the Flies*, and *Ender’s Game*. . . . [Red Rising] has everything it needs to become meteoric.”—Entertainment Weekly “Ender, Katniss, and now Darrow.”—Scott Sigler “Red Rising is a

sophisticated vision. . . . Brown will find a devoted audience.”—Richmond Times-Dispatch Don’t miss any of Pierce Brown’s Red Rising Saga: RED RISING • GOLDEN SON • MORNING STAR • IRON GOLD • DARK AGE

From Joshua Dalzelle comes the follow up to the #1 Bestseller "Warship." Captain Jackson Wolfe survived the initial incursion of a vicious alien species into human space ... barely. He had assumed the juggernaut that had devastated three Terran systems was the herald for a full invasion, but for the last few years it has been eerily quiet along the Frontier. Jackson now struggles to convince the Confederate leadership the threat is still imminent and needs to be taken seriously. While powerful factions make backroom deals he is desperate to find irrefutable proof that the invaders are coming and if humanity expects to survive they must marshal their forces and make a stand before it's too late.

Call to Arms Simon and Schuster

Aliens exist... and, as it turns out, most of them aren't that friendly. Jacob Brown wasn't even born yet the first time they attacked Earth. He was only fourteen the second time it happened. When Earth finally came together and fielded its first spaceborne military, Jacob didn't hesitate to volunteer. Serving aboard a mighty starship, he'd be able to defend his planet-and his family-when, inevitably, they came again. Just as he's about to graduate training, however, Jacob is approached by an officer from Naval Special Operation Command and given a choice: volunteer for a risky mission to a dangerous, lawless world, or give up his dream of serving in the military and go home. He has no idea why he's being singled out in such an unusual manner, but now it's either agree to their demands or give up his dream of being on a starship. Soon, getting his career back on the right track will be the least of his concerns when it seems like everyone-and everything-he meets is trying to kill him. When he stumbles upon a secret most people on Earth are blissfully unaware of he realizes it's not just the aliens he needs to be worried about. "Marine" is the first book in the Terran Scout Fleet Series by the bestselling author of the Omega Force Series and Black Fleet Trilogy.

From Joshua Dalzelle, author of the bestselling "Omega Force" series, comes an all new vision of humanity's future. In the 25th century humans have conquered space. The advent of faster-than-light travel has opened up hundreds of habitable planets for colonization, and humans have exploited the virtually limitless space and resources for hundreds of years with impunity. So complacent have they become with the overabundance that armed conflict is a thing of the past, and their machines of war are obsolete and decrepit. What would happen if they were suddenly threatened by a terrifying new enemy? Would humanity fold and surrender, or would they return to their evolutionary roots and meet force with force? One ship-and one captain-will soon be faced with this very choice. Against incredible odds, Jackson Wolfe is determined to save humanity-and in the process, might end up saving himself.

Bright and well-educated, an excellent horseman with an advantageous engagement, Nevare's future appears golden. But as his Academy instruction progresses, Nevare begins to realize that the road before him is far from straight. In addition, he is disquieted by his unconventional girl-cousin Epiny—who challenges his heretofore unwavering world view—and by the bizarre dreams that haunt his nights. For twenty years the King's cavalry has pushed across the grasslands, subduing and settling its nomads and claiming the territory in Gernia's name. Now they have driven as far as the Barrier Mountains, home to the Speck people, a quiet, forest-dwelling folk who retain the last vestiges of magic in a world that is rapidly becoming modernized. From childhood Nevare has been taught that the Specks are a primitive
