the first of a series of monitoring and assessment reports, under the guidance of the HIMAP Steering Committee: Eklabya Sharma (ICIMOD), Atiq Raman (Bangladesh), Yuba Raj Khatiwada (Nepal), Linxiu Zhang (China), Surendra Pratap Singh (India), Tandong Yao (China) and David Molden (ICIMOD and Chair of the HIMAP SC). This First HKH Assessment Report

consists of 16 chapters, which comprehensively assess the current state of knowledge of the HKH region, increase the understanding of various drivers of change and their impacts, address critical data gaps and develop a set of evidence-based and actionable policy solutions and recommendations. These are linked to nine mountain priorities for the mountains and people of the HKH

consistent with the Sustainable Development Goals. This book is a must-read for policy makers, academics and students interested in this important region and an essentially important resource for contributors to global assessments such as the IPCC reports.

Chand Publishing MS Office 2007 in a Nutshell teaches the basic operations of Microsoft Office 2007 (officially called 2007 Microsoft Office System) which is a

Windows version of the Microsoft Office System. Microsoft Office 2007 contains a number of new features, the most notable of which is the entirely new graphical user interface, initially referred to as the Ribbon User Interface, replacing the menus and toolbars. It features a central menu button, widely known as the 'Office Button'. This book will help the reader in understanding the core

<p>Microsoft Office applications in detail, such as Microsoft Word, Microsoft Excel, Microsoft PowerPoint and Microsoft Access. It also teaches the reader to create or edit individual items in Microsoft Outlook. This book covers the basics of Windows Vista, the Internet and viruses. All the basic operations of Windows Vista, the Internet and MS Office 2007 are</p>	<p>explained in a simple manner covering the key functions of each package along with the details of menus, commands, toolbars and icons. <u>Bollywood and Postmodernism</u> Springer Nature In order to do business effectively in contemporary South Asia, it is necessary to understand the culture, the ethos, and the region's new trading communities. In tracing the modern-day evolution of</p>	<p>business communities in India, this book uses social history to systematically document and understand India's new entrepreneurial groups. <i>Reminiscence of the Nehru Age</i> Vikas Publishing House If You Are One Of Those Who Love Technology Not For Technology's Sake, But For What It Can Do For You, This Book Would Appeal To You. The book covers the recent scientific developments, cutting edge technologies, innovations, trends, challenges and opportunities in the field of functional and smart textiles

and clothing. The contents of this volume will be of interest to researchers, professional engineers, entrepreneurs, and market stakeholders interested in functional textiles and clothing. **Office 2019 All-in-One For Dummies** Vikas Publishing House Principles Practice of Geriatric Medicine is a compilation of carefully chosen topics pertaining to Clinical Geriatrics and

Gerontology. The chapters have been written by authors with wide ranging experience in treating the Elderly, especially in India. This approach has been rendered necessary by the fact that the problems faced by the Indian elderly differ from their American or European contemporaries due to differences in race, nutrition, family set up, socioeconomic factors and climatic conditions. Since this book provides a comprehensive account of the care needed by the Indian elderly, it will be an asset for family physicians who treat elderly patients. Besides treatment part, preventive strategies relevant to our country have also been included. Geriatric Medicine is a multidisciplinary branch of Medical Sciences that has been added to the curricula of Medical Colleges. This book will therefore prove a competent guide for Medical Students in general, and students of Geriatrics in particular, who will find everything they need to know within a single volume. The reader/treating doctor will be able to answer the queries of their patients in other fields related to them like financial, legal and constitutional matters. The

inclusion of subjects like epidemiology and hospital setup will make it useful for planners as well. *Artificial Intelligence 3E* (Sie) Vikas Publishing House This is a revised edition of the eight years old popular book on operating System Concepts. In Addition to its previous contents, the book details about operating system foe handheld devices like mobile platforms. It

also explains about upcoming operating systems with have interface in various Indian language. In addition to solved exercises of individual chapters, the revised version also presents a question bank of most frequently asked questions and their solutions. Value addition has been done in almost all the 14 chapters of the book. Fundamentals of Computer KHANNA

PUBLISHING HOUSE In this book the reader will find a collection of chapters written by different research teams, describing different applications of optical fibers for sensing. This work is mainly addressed to researchers already working in this area, but it is also accessible to anyone with a scientific background who desires to have an updated overview of

the recent progress in this domain. It will also be valuable to scientists and engineers who have become newly involved in this field. Each chapter is self-contained and can be read independently of the others. This book intends to provide highlights of the current research in this area, showing the recent advances in the field of optical fiber sensing. A First Course In Computers: 2003 Edition
