Lectures on the Prophetic Office of the Church, Cambridge University Press

This book is a commentary on the norms of *Mitis iudex* and *Mitis iudex et Misericors* as well as on the others norms of Code of Canon Law which pertain to the process for the declaration of marriage nullity. You find in this book extensive materials pertaining to the revised matrimonial law procedures. Some of the main principles that guided the reform were to streamline process for handling cases of marriage nullity, to preserve the doctrine of the indissolubility of marriage, and to bring the Church close to those number of faithful who, while wishing to be at peace with their conscience, are too often separated from the legal structures of the Churches due to physical or moral distance. Charity and mercy, therefore, require that the Church, as a mother, to be closer to her children who consider themselves alienated from the Church on account of their marital status.

These are some of the themes discussed in this book. This book also revises and incorporates materials from other books published by this author on marriage nullity process. This book puts the norms of *Mitis iudex* and *Mitis iudex et Misericors* within the larger context of the Latin rite and Eastern rites Codes on the process for the declaration of marriage nullity. As almost every lawyer knows, justice cannot be done to the interpretation or explanation of a single canon or norm of law without referring, in most cases, to related canons. "Ecclesiastical laws must be understood in accord with the proper meaning of the words considered in their text and context. If the meaning remains doubtful and obscure, recourse must be made to parallel places, if there are such, to the purpose and circumstances of the law, and to the mind of the legislator." (c. 17). Therefore, you will find in this book extensive references and citations to other parts of the law that pertain to the *Mitis iudex* canon under discussion.

Monasticism, in all of its variations, was a feature of almost every landscape in the medieval West. So ubiquitous were religious women and men throughout the Middle Ages that all medievalists encounter monasticism in their intellectual worlds. While there is enormous interest in medieval monasticism among Anglophone scholars, language is often a barrier to accessing some of the most important and groundbreaking research emerging from Europe. The Cambridge History of Medieval Monasticism in the Latin West offers a comprehensive treatment of medieval monasticism, from Late Antiquity to the end of the Middle Ages. The essays, specially commissioned for this volume and written by an international team of scholars, with contributors from Australia, Belgium, Canada, England, France, Germany, Italy, the Netherlands, Spain, Switzerland, and the United States, cover a range of topics and themes and represent the most up-to-date discoveries on this topic.

Marriage will always be a subject of law and of great interest to both legal scholars and sociologists alike because the anthropology that support marriage perceives justice to be a particular reality. With respect to realization of justice in marriage, the Catholic intellectual tradition has identified a legal category that does not exist anywhere else--namely, the consensual incapacity to marry. the Code of Canon Law promulgated in 1983 contains a juridical innovation (canon 1095), but this has not yet been fully digested by American canonists. Furthermore, its application reveals a vast disconnect with historical exegesis. In the last fifty years, American canonical practice in the sphere of marriage law has lost its foundation. The consequences of this include mechanisms of judgment that are rendered incoherent although not inactive--in other words, the application of law in the Catholic Church moves forward without a clear indication of its anthropological basis. Canon law, then, must either be oppressive or absolutely meaningless. There is one canon in particular that in its formula of consensual incapacity to marry is the center of the attempt to define and resolve this question: canon 1095. As of this moment, however, there is no comprehensive treatment of this canon in its current usage and how it developed into positive law after hundreds of years of implicit reference to the grounds for marriage nullity that it now indicates. professors of canon law, members of the Roman Curia and judicial bodies acknowledge that more than a general response to this crisis of law and marriage what might be needed most is a revision of this single canon. they furthermore acknowledge that American canonical practice is perhaps the most influential in the world. A profile of this canon in American jurisprudence is fundamental and demanded presently. There are over one hundred tribunals of varying functions, over two hundred seminaries and more than five thousand seminarians (each year), seventy million Catholics and tens of millions of these Catholics call their vocation marriage. The question of marriage validity is eternal--both with respect to its relation to an historical past as well as individual present day unions. the readership is vast and this book will be included in syllabi in seminaries, Catholic universities and other faculties of sociology, religion and law. It will be a reference guide in tribunals and studied in the course of legislative reform, but it will also be accessible to both scholars and laypersons. the question of consensual incapacity is asked tens of thousands of times each year anew and there is not yet a definitive study that provides answers and guidance for further development of this notion. Another example of the longevity of this work: the manual it will effectively replace was in print for twenty years with five editions (L. Wrenn, 1970, CuA).

The Catholic Formulary in Accordance with the Code of Canon Law, Volume 4: Second Instance Marriage Nullity Acts has been completely revised and updated pursuant to the promulgations of Mitis Iudex and Mitis et Misericors. This volume treats the various appellate processes which appellate bishops or appellate tribunals are competent to adjudicate in accordance with the norm of law. Even if the bishop or the tribunal is incompetent to adjudicate the appeal, the canonical procedures for absolute incompetence are included in this book. You will find in this volume, for

example, the step-by-step procedural norms of the law which are to be observed and sample forms of the various documents which are to be drawn up when a processus brevior appeal from a first instance bishop has been made to the competent second instance bishop. These norms of law and the sample documents pertain to both when the second instance bishop rejects the processus brevior appeal or when he remits the processus brevior appeal to ordinary examination in second instance. In addition, there are also in this book a step-by-step outline and discussion of more than ten canonical procedures pertaining to ordinary second instance tribunals. Each of the appellate procedure included in this book is accompanied by sample form documents which can be adapted and modified by the appellate bishop or appellate tribunal. Canonists, students of canon law, tribunal officials, jurists, and other interested permissions will find in this book a goldmine of information on the canon law of judicial appeal and complaint of nullity and appeal in matrimonial nullity causes of the Roman Catholic Church.

Code of Canon Law, Latin-English Edition

Historians and theologians have long recognized that at the heart of the sixteenth-century Protestant Reformation were five declarations, often referred to as the 'solas': sola scriptura, solus Christus, sola gratia, sola fide, and soli Deo gloria. These five statements summarize much of what the Reformation was about, and they distinguish Protestantism from other expressions of the Christian faith. Protestants place ultimate and final authority in the Scriptures, acknowledge the work of Christ alone as sufficient for redemption, recognize that salvation is by grace alone through faith alone, and seek to do all things for God's glory. In Faith Alone - The Doctrine of Justification renowned biblical scholar Thomas Schreiner looks at the historical and biblical roots of the doctrine of justification. He summarizes the history of the doctrine, looking at the early church and the writings of several of the Reformers. Then, he turns his attention to the Scriptures and walks readers through an examination of the key texts in the Old and New Testament. He discusses whether justification is transformative or forensic and introduces readers to some of the contemporary challenges to the Reformation teaching of sola fide, with particular attention to the new perspective on Paul. Five hundred years after the Reformation, the doctrine of justification by faith alone still needs to be understood and proclaimed. In Faith Alone you will learn how the rallying cry of "sola fide" is rooted in the Scriptures and how to apply this sola in a fresh way in light of many contemporary challenges.

Empowerment for Ministry is a must-have reference book that provides a comprehensive treatment of diocesan faculties for priests, deacons, and lay ministers. It develops a coherent theory of the juridical nature and the delegation of faculties; identifies and organizes the pertinent rules of canon law and the canonical tradition on the grant, supply, use, and cessation of diocesan faculties; and offers model faculties and commentaries on them for clergy, lay ministers, and chancery officials. Part I, Canonical Theory and Rules, presents a comprehensive treatment of diocesan faculties and all the canonical rules applicable to them. Part II, Model Faculties and Commentaries, offers lists of faculties and commentaries on them. Audience: --diocesan leadership and those who advise them in the preparation and updating of diocesan faculties --canonists and students of canon law --priests, deacons, and lay ministers who have faculties by law and/or delegation --those preparing for ecclesial ministries--seminarians, deacon candidates, and lay ministers in formation
