The Phoenix Suns' Steve Nash shines in running the break, but how do his teammates know where to go to get open to receive his passes?

Orlando's Dwight Howard is a tremendous talent in the post, but how has he improved and added new dimensions to his game? And how is it that Utah's Deron Williams and Carlos Boozer run the screen-and-roll as smoothly as Jazz legends John Stockton and Karl Malone did years before?

Coaching. Yes, even in a league loaded with superior athletic talent, the teaching, tactical maneuvers, and strategies provided by NBA coaches are second to none. And as younger, sometimes less mature and less experienced players from all over the world have entered the league, those coaching skills are more diverse and better honed than ever before. Now NBA Coaches Playbook takes you into the practice sessions and sideline

huddles with detailed Xs and Os and more from the game's best at maximizing performance on the court. Let the likes of Phil Jackson, Mike D'Antoni, Avery Johnson, Stan Van Gundy, George Karl, Eddie Jordan, Mike Dunleavy, Kareem Abdul-Jabbar, and many other head and assistant coaches provide you with new insights to benefit your own team and individual players.

Human Kinetics STUFF Good Players Should Know may very well be the best book ever written for basketball players. It is conversational and easy

to understand, yet filled with subtle insights into the game of basketball. STUFF is page after page of creative concepts, common sense, and special tips that can not be found anywhere else. ? How do you guard a stronger player? ? How do you set up a game-winning steal? ? How do you ?strip? a rebound? ? How do you score with a strong-handed dribble while going to the weak side? ? How do you practice shooting for maximum game effectiveness? ? How do you recognize defensive changes? STUFF is like having a coach right beside you, in your room, discussing the fine points of the games. How do you think in the minutes of the game? How do you react to mistakes? What is your attitude about fouls? Eating? Superstitions? Injuries? All this and more makes STUFF a book that players will find indispensable. Basketball fans will enjoy it, but players won't do

In six decades as a player, assistant coach, and the head man on the bench for Syracuse University's basketball program, Jim Boeheim is synonymous with the blood and

thunder of East Coast hoops. In *Bleeding Orange*, Boeheim recounts for the first time all the pleasures and perils of a career spent battling the "Beasts of the Big East," the NCAA, and his own fear of failure. Coach Boeheim has always been full of life, and his combative nature helped ignite what was arguably the most fascinating and competitive college basketball conference ever—the Big East of the 1980s. Boeheim's battles with fellow coaches turned the Big East into the best show in college basketball. Combining a real-time, inside-the-program account of the 2013–14

season—Syracuse's first in the ACC—with a narrative of his most cherished memories of coming-of-age on the Syracuse campus and of coaching two Olympic gold medal-winning teams, *Bleeding Orange* is a must-read both for Syracuse fans and anyone who calls himself or herself an aficionado of college basketball history.

Guaranteed. *The Book of Basketball* HarperCollins The Dribble Drive Motion Offense - or Princeton on steroids as University of Kentucky coach John Calapari called it - was invented by coach Vance Walberg only a few years ago. There isn't a lot of information about it out there, but this book is an instruction manual in the Dribble Drive Offense, there to fill the void. The manual deals with the strengths and weaknesses of the Dribble Drive, the fundamentals needed to run the offense, the basics needed to run it, how to enter into it, off the break or from a half court set, the reads and X's and O's and how to teach it. The book contains 40 pages of drills, including the best of Vance Walberg's and John Calipari's drills. Also it contains four appendixes which detail special plays and quick hitters, playing against a sagging defence, two oone offences, and a

complimentary screening type offence. Black and White Version - more expensive color version also available. See [www.coachdribbledrive.com](http://www.coachdribbledrive.com)

[A Complete System for Teaching the Quarterback to Run Any Option Play](#) Coaches Choice Books Provides an overview of the motion offense used at the University of Cincinnati. Covers the basic movements of the five player open post motion offense, offense before cuts begin, cut-to-the-ball options, cut-to-the-ball options, cut-away-from-the-ball options, offense from the wings, involvement of corners in the motion offense, weakside play, drilling (individual, two-on-two, three-on-three and weakside) and much more. Contains 90 easy-to-read diagrams. Independently Published In basketball, as in most sports, a large part of a coach's responsibility is to prepare his or her team for games. Yet, little time in practice is typically devoted to readying the players and coaches for specific game situations. For instance, what are the various ways to use dead ball moments to maximum advantage? What adjustments should

be made to launch a comeback in particular circumstances? When is it favorable to purposefully miss a foul shot? In *Odds-On Basketball Coaching: Crafting High-Percentage Strategies for Game Situations*, Michael J. Coffino presents an innovative system for coaches to prepare for specific game scenarios. Coffino challenges coaches to think differently about what they emphasize in practice, placing greater value on preparing for recurring game situations, crafting strategies by assessing the odds, and creating a culture that elevates how players think about the game. Each chapter begins with an actual game scenario that illustrates the chapter's content and includes discussions of notable college and professional basketball games in order to demonstrate specific points. *Odds-On*

*Basketball Coaching* provides a framework for making game decisions beyond instincts and habits. It is intended, more than anything, to stimulate coaches and players to think comprehensively and realistically about how to approach games and practices, fostering an environment where everyone can more incisively make game-time decisions. While high school and youth basketball coaches will find this book most helpful, coaches at all levels will benefit from this novel approach to the game.
