Reads the Newspaper

In *Artifacts of Loss*, Jane E. Dusselier looks at the lives of these internees through the lens of their art. These camp-made creations included flowers made with tissue paper and shells, wood carvings of pets left behind, furniture made from discarded apple crates, gardens grown next to their housing—anything to help alleviate the visual deprivation and isolation caused by their circumstances. Their crafts were also central in sustaining, reforming, and inspiring new relationships. Creating, exhibiting, consuming, living with, and thinking about art became embedded in the everyday patterns of camp life and helped provide internees with sustenance for mental, emotional, and psychic survival.

*Open Minds to Equality* Rainbow Horizons Publishing

The activities in this book have two intentions: to teach concepts related to earth and space science and to provide students the opportunity to apply necessary skills needed for mastery of science and technology curriculum objectives. Throughout the experiments, the scientific method is used. In each section you will find teacher notes designed to provide guidance with the learning intention, the success criteria, materials needed, a lesson outline, as well as provide insight on what results to expect when the experiments are conducted. Suggestions for differentiation are also included so that all students can be successful in the learning environment. Topics covered include: Rocks, Minerals and Erosion; Weather and Waste and Our World. 96 Pages Using Real-World Applications With Middle School Students On The Mark Press

"Carter G. Woodson didn't just read history. He changed it." As the father of Black History Month, he spent his life introducing others to the history of his people. Carter G. Woodson was born to two formerly enslaved people ten years after the end of the Civil War. Though his father could not read, he believed in being an informed citizen. So Carter read the newspaper to him every day. When he was still a teenager, Carter went to work in the coal mines. There he met a man named Oliver Jones, and Oliver did something important: he asked Carter not only to read to him and the other miners, but also research and find more information on the subjects that interested them. "My interest in penetrating the past of my people was deepened," Carter wrote. His journey would take him many more years, traveling around the world and transforming the way people thought about history. From an award-winning team of author Deborah Hopkinson and illustrator Don Tate, this first-ever picture book biography of Carter G.

Woodson emphasizes the importance of pursuing curiosity and encouraging a hunger for knowledge of stories and histories that have not been told. Illustrations also feature brief biological sketches of important figures from African and African-American history.

NEW STUDENT GETS OLD TEACHER The bad news is that Cara

Landry is the new kid at Denton Elementary School. The worse news is that her teacher, Mr. Larson, would rather read the paper and drink coffee than teach his students anything. So Cara decides to give Mr. Larson something else to read—her own newspaper, *The Landry News*. Before she knows it, the whole fifth-grade class is in on the project. But then the principal finds a copy of *The Landry News*, with unexpected results. Tomorrow's headline: Will Cara's newspaper cost Mr. Larson his job?
