A case study consists of a complete analysis of a bounded . system (Merriam, 2009). A bounded system is a single unit that has

boundaries (Merriam, 2009).(PDF) Qualitative Research associated with qualitative researchers is phenomenology (Bogdan & Biklen, 2004). Following the phenomenological approach, researchers seek to understand meaning in events and in human interactions. Further, the context is important to the interpretation of data. This approach requires Qualitative Research Proposal Sample Description This concise, applied, and very clearly written introduction to qualitative research methods can be used effectively in any semester, or year-long course.
