A Comparison of World Religions John Wiley & Sons

Over 7 billion people live on the earth, and 84 percent of them

describe themselves as being religious. Few topics incite such passion as religion. What does that mean? Why are humans invested in ideas that may never be proved? Why has religion played such an important role in history? In *Comparative Religion: Investigate the World through Religious Tradition*, readers seek answers to these questions by comparing and contrasting the cultural, spiritual, and geographical underpinnings of five different religions. By developing a better understanding of the similarities and differences among religions of the world, readers gain a strong foothold in a dialogue that has continued for thousands of years. Combining hands-on activities with theology, history, geography, world cultures, art, and architecture, *Comparative Religions* encourages deeper understanding of the world's religions. Entertaining graphic art, fascinating sidebars, and links to primary sources bring the topic to life, while key questions reaffirm foundational concepts. Activities include conducting an interview with a rabbi, comparing the story of Abraham and Isaac in three sacred texts, studying the architecture of the National Cathedral in Washington, DC, studying the Hindu practice of yoga and meditation, and examining how religious doctrines shape the behavior of

believers.

HarperCollins Concise Guide to World Religions OUP Oxford

The book proposes the hypothesis that six generic ways of being religious may be found in any large-scale religious tradition such as Christianity or Buddhism or Islam or Hinduism: sacred rite, right action, devotion, shamanic mediation, mystical quest, and reasoned inquiry. These are recurrent ways in which, socially and individually, devout members of these traditions take up and appropriate their stories and symbols in order to draw near to, and come into right relationship with, what the traditions attest to be the ultimate reality.

Religions in today's culture seem to be multiplying. Have you ever wondered why certain religions believe and practice what they do? Or how they view the Bible? This volume delves into these and other engaging questions, such as: How can a Christian witness to people in these religions? Do these other religions believe in creation and a Creator? How do we deal with these religions from a biblical authority perspective? Many religions and cults discussed in this first volume openly affirm that the Bible is true, but then something gets in their way. And there is a common factor every time—man's fallible opinions. In one way or another the Bible gets demoted, reinterpreted, or completely ignored. Man's ideas are used to throw the Bible's clear teaching out the window while false teachings are promoted. This book is a must for laymen, church leaders, teachers, and students to understand the trends in our culture and around the world where certain religions dominate, helping you discern truth and guard your faith. When you understand a religion's origins and teachings, you are in a better position to know how to proclaim the gospel of Jesus Christ as you take the good news to those in false religions.

The Yoruba of southwestern Nigeria are exceptional for the copresence among them of three religious traditions: Islam, Christianity, and the indigenous orisa religion. In this comparative study, at once historical and anthropological, Peel explores the intertwined character of the three religions and the dense imbrication of religion in all aspects of Yoruba history up to the present. For over 400 years, the Yoruba have straddled two geocultural spheres: one reaching north over the Sahara to the world of Islam, the other linking them to the Euro-American world via the Atlantic. These two external spheres were the source of contrasting cultural influences, notably those emanating from the world religions. However, the Yoruba not only imported Islam and Christianity but also exported their own orisa religion to the New World. Before the voluntary modern diaspora that has brought many Yoruba to Europe and the Americas, tens of thousands were sold as slaves in the New World, bringing with them the worship of the orisa. Peel offers deep insight into important contemporary themes such as religious conversion, new religious movements, relations between world religions, the conditions of religious violence, the transnational flows of contemporary religion, and the interplay between tradition and the demands of an ever-changing present. In the process, he makes a major theoretical contribution to the anthropology of world religions.

Believers All - a Book of Six World Religions Wadsworth Publishing Company

"The living faith of millions of people in the world's most important religious traditions is portrayed here with sympathy and intelligence, in each case emphasizing key elements. Author Kevin O'Donnell does not dissect each tradition, however. Instead he looks at each faith from a more personal angle, asking what it means for a person to belong to such a faith. Covering six major traditions—Hinduism, Buddhism, Sikhism, Judaism, Christianity, and Islam, together with shorter sections on Zoroastrianism, Baha'i, Confucianism, Taoism, and Shinto - the author follows the same pattern for each." "O'Donnell asks the reader to join in a spiritual exercise, personalizing the insights of each tradition into one's own journey of faith. Illustrated throughout with full color

photography, Inside World Religions invites the reader on a journey of encounter and self-discovery."--BOOK JACKET.

Rose Publishing has produced one of the finest books I have ever seen. Every aspect of the charts, maps and time lines leaps off the page with spectacular color, incredible accuracy and intricate detail. . . . A must for every pastor and teacher who wants to clearly present the truths of the Bible." --Dr. Jerry Falwell, Founder of Liberty University "A compendium of charts, time lines, lists and illustrations to accompany study of the Bible. This visually appealing resource provides a wide array of illustrative and textually concise references, beginning with three sets of charts covering the Bible as a whole, the Old Testament and the New Testament. These charts cover such topics as biblical weights and measures, feasts and holidays and the 12 disciples. Most of the charts use a variety of illustrative techniques to convey lessons and provide

visual interest. A worthwhile example is 'How We Got the Bible,' which provides a time line of translation history, comparisons of canons among faiths and portraits of important figures in biblical translation, such as Jerome and John Wycliffe. The book then presents a section of maps, followed by diagrams to conceptualize such structures as Noah's Ark and Solomon's Temple. Finally, a section on Christianity, cults and other religions describes key aspects of history and doctrine for certain Christian sects and other faith traditions. Overall, the authors take a traditionalist, conservative approach. For instance, they list Moses as the author of the Pentateuch (the first five books of the Hebrew Bible) without making mention of claims to the contrary. When comparing various Christian sects and world religions, the emphasis is on doctrine and orthodox theology. Some chapters, however, may not completely align with the needs of Catholic and Orthodox churches. But the author's leanings are muted enough and do not detract from the work's usefulness. As a resource, it's well organized, inviting and visually stimulating. Even the most seasoned reader will learn something while browsing. Worthwhile reference stuffed with facts and illustrations." --Kirkus Reviews

Christianity, Islam, and Orisa-Religion Rose Publishing Inc

A Comparative Study of Religions has been written by a scholar who has occupied himself with the subject of religion for over fifty years. But no finality can be claimed. The reason is that religion deals with what is transcendent in the sense that it deals with what man is going to be. Advaitism terms this futuristic end as becoming Brahman, Jainism as regaining one's pristine glory, theists as becoming gold fit for heaven. However, Bergson and other evolutionists would say that religion is a collective and cooperative effort of men to become gods. This simply means the divinising of man what Aurobindo calls 'supermind'. They refer to a state beyond human ills, beyond human infatuation and beyond the befogging of human intellect. This is known in Jainism as sarvajnata. One thing is clear that fighting with other human beings in the name of religion is subhuman. As religious men, we are fellow travellers in the direction of the realm of spirit. Here the nomenclature of Hindus, Muslims, Christians etc., ceases to be meaningful. Of course, we have to go very far and we have not made any beginning yet. However, at present, the advaitic principle of differences Brahman can serve the purpose of harmonizing all religions. Here we have adopted this principle. Secondly, the key concepts of different religions have been shown to mingle with one another.
