Androids St. Martin's Press
After learning how to curb her spending habits, Lauren Greutman shares her hard-earned knowledge on how to get out of debt and live without the financial pressures that many people face today. Millions of Americans today are near financial disaster—spending more money than they are bringing in, and losing control of their money. Lauren Greutman knows how that feels. For years, she struggled with too many bills to pay and not enough money to pay them. When Lauren found herself drowning in debt, she finally faced her extreme spending habits and took action. In *THE RECOVERING SPENDER*, Lauren shares her story and offers advice that is based on the many strategies she developed to change her own life and bring her family budget back to black. Lauren shows her readers, step-by-step, how to get rid of bad money habits, pay down debt, and stay

within a budget. Some of the action chapters in the book are: Take an Inventory of Your Spending Declutter Your Finances Do an Expense Audit Curb Your Spending and Define Your Values Lauren exchanged the overrated, stressed-out American dream for a new one—a happier life filled with family, friends, and financial freedom—and now you can do the same! What's Good? Yellow Kite Tailored to mirror the AP Statistics course, "The Practice of Statistics" became a classroom favorite. This edition incorporates a number of first-time features to help students prepare for the AP exam, plus more simulations and statistical thinking help, and instructions for the TI-89 graphic calculator." *The Coffeehouse Investor* Createspace Independent Publishing Platform The International Bestseller "This book blew my mind. More importantly, it made financial independence seem achievable. I read *Financial Freedom* three times, cover-to-cover." —Lifehacker Money is unlimited. Time is not. Become financially independent as fast as

possible. In 2010, 24-year-old Grant Sabatier woke up to find he had \$2.26 in his bank account. Five years later, he had a net worth of over \$1.25 million, and CNBC began calling him "the Millennial Millionaire." By age 30, he had reached financial independence. Along the way he uncovered that most of the accepted wisdom about money, work, and retirement is either incorrect, incomplete, or so old-school it's obsolete. *Financial Freedom* is a step-by-step path to make more money in less time, so you have more time for the things you love. It challenges the accepted narrative of spending decades working a traditional 9 to 5 job, pinching pennies, and finally earning the right to retirement at age 65, and instead offers readers an alternative: forget everything you've ever learned about money so that you can actually live the life you want. Sabatier offers surprising, counter-intuitive advice on topics such as how to: * Create profitable side hustles that you can turn into passive income streams or full-time businesses * Save money without

giving up what makes you happy * Negotiate more out of your employer than you thought possible * Travel the world for less * Live for free--or better yet, make money on your living situation * Create a simple, money-making portfolio that only needs minor adjustments * Think creatively--there are so many ways to make money, but we don't see them. But most importantly, Sabatier highlights that, while one's ability to make money is limitless, one's time is not. There's also a limit to how much you can save, but not to how much money you can make. No one should spend precious years working at a job they dislike or worrying about how to make ends meet. Perhaps the biggest surprise: You need less money to "retire" at age 30 than you do at age 65. Financial Freedom is not merely a laundry list of advice to follow to get rich quick--it's a practical roadmap to living life on one's own terms, as soon as possible.

Practicing Strategy "O'Reilly Media, Inc."

Whether you want to make an extra \$100 a month or an extra \$10,000, the high-level process is the same:

Someone has to buy what you're selling. The money has to come from somewhere, right? (Hint: it comes from customers.) Sadly, there's an epidemic going around. The reason most entrepreneurs, wantpreneurs, and side hustlers fail is a lack of customers. If you've ever failed in your own efforts to start a business or earn money on the side, I'm guessing that was the root cause. On top of that, you're in a constant battle of not having enough hours in the day and you don't know where to focus your limited time, energy, and money. That's the bad news. The Answer The good news is you have more opportunity today to earn income in your spare time than ever before. And you don't need a killer new business idea or millions of dollars in startup capital to do it. The good news is there isn't a shortage of customers. They're out there! This book will share specifics on how to increase your earning power--on your own time, on your own terms, and without getting another job. We'll look at real-life examples of people just like you making it happen. I'm going to arm you with dozens of income-generating ideas that

don't require a ton of time or money to get started. And spoiler alert: there are no get-rich-quick schemes inside. Instead, you'll learn proven strategies for tapping into the growing peer-to-peer economy to supplement your income, diversify your revenue sources, and reduce your reliance on your day job for your livelihood. *Go Where the Cash Is Already Flowing Buy Buttons* focuses on marketplaces that already exist, where you can put your expertise, time, and assets up for sale or rent. There are hundreds of platforms that you can add your "buy buttons" to. You don't have to build a customer base from scratch, design a website, or even worry about payment processing. Each platform already has an eager audience of buyers looking for what you have to sell. Not sure what to sell? In the 300+ platforms featured inside, you're bound to find an idea or two that's a fit. These platforms are the "gateway drugs" of entrepreneurship. They're easy to get started on, to get the high from your first sale, and to keep coming back for more. *Does It Really Work?* I've used the same "buy buttons" marketplace

strategy over and over again for the last 15 years as an entrepreneur. Even more exciting, thousands of SideHustleNation.com readers and Side Hustle Show listeners just like you are already seeing results by implementing the strategies in this book. The common thread is they set up their businesses on pre-existing platforms that made it easy for buyers to find them and spend money with them. This book will show you exactly where and how to set up your "buy buttons" to generate hundreds or thousands of dollars a month in side income. My Guarantee I guarantee you'll find at least one "buy button" platform that you can use to generate your own job-free income stream. If you don't, just send me a note (my contact info is at the end of the book), and I'll buy the book back from you, no questions asked. Now, where else are you going to find a deal like that? Ready? Hit the Buy Now button and let's get started!

Yearbook "O'Reilly Media, Inc."

If you plan to develop a mobile app, but you want to be sure it will be a success before you spend any time (or money) programming, then this book is for you! In all major app markets, the

biggest problem is to find the best app for the user's needs. Google, Apple, Microsoft, Amazon, etc. all have algorithms in place to ensure that the user gets the best app a user is searching for. The problem is that it's often only the most popular apps that are downloaded, while the others are left to rot in oblivion. Another problem is that many of the apps downloaded, 20% to be exact, are used only once. This makes it even worse for developers who use a freemium model (free download, in-app purchases) for their apps. The question is then asked: how can developers ensure that they make quality apps, plus retain their users in order to make money? That's where this book comes in. I am going to help you consider all the things that you'll need to do to make sure your app is successful, even before you waste any time or money programming.
