Cardboard Automata Exploratorium  
 Cardboard Automata are a playful way to explore simple mechanical elements such as cams, levers, and linkages, while creating a moving sculpture. This activity is easy to start but may become more and more complex as you become familiar with possible motions and

imagine ways to artistically decorate your contraption. Cardboard automata use levers, cams, cam followers, linkages, and other ...  
 Tinkering Project: Cardboard Automata | Exploratorium  
 The Cardboard Automata activity is a good introduction to another PIE activity called Sound Automata. Sound Automata introduce the idea of creating automata out of everyday objects in order to generate a variety of sounds and noises. Download the Sound Automata Activity PDF from the PIE

website.  
 Cardboard Automata - Exploratorium  
 Cardboard Automata are a playful way to explore simple machine elements such as cams, levers, and linkages, while creating a mechanical sculpture. The Cardboard Automata activity was inspired by Working with simple materials, this activity is easy to get started, and may become as complex as your mechanical sculpture ideas.
