The Old Testament: Our Call to Faith and Justice is geared toward an introductory class in Scripture. This textbook has been found in conformity with The Catechism of the Catholic Church and can serve as an ancillary or primary text for Course I or Elective Course A of the USCCB curriculum framework. The Old Testament: Our Call to Faith and Justice covers the remarkable journey of God's Chosen People and their journey in Scripture. As with any relationship, the divine-human one described in the Old Testament has dramatic episodes of jealousy and angry disappointment, but also shows moments of moving love, compassion, and forgiveness. The Jewish people forged an intimate relationship with God that was brought to fullness in the coming of God's Son, Jesus Christ. This text also includes a Catholic Handbook for Faith, an appendix section with a wealth of information to help students review material they have covered in other religion courses.

McKenna incorporates the essential teachings of Pope Francis in Evangelium Gaudium, Laudato Si', and Amoris Laetitia to offer a clear, beginner-level reference tool and study guide for Church leaders and other interested Catholics to help them navigate this vast body of teaching. Building on core themes of human dignity, community, rights and responsibilities, option for the poor, dignity of work, solidarity, and care of creation, McKenna distills a vast amount of Catholic teaching into easily digestible summaries, each carefully referenced to its primary source and correlated to pressing issues making today's headlines. The book includes crucial teachings of the popes from Louis XIII through Francis as well as from the United States Conference of Catholic Bishops. Each chapter concludes with questions for reflection and dialogue and appendices provide tools for parishes and study groups. This practical and thorough guide remains a perennial favorite for study and reference in Catholic parishes, universities, and ministry formation programs.

Luigi Taparelli, SJ, 1793-1862, in his *Theoretical Treatise of Natural Right Based on Fact*, 1840-43, presents a neo-Thomistic approach to social, economic, and political sciences grounded in an integral conception of the human person as social animal but also as rational truth seeker. His conceptions of social justice and of subsidiarity are fundamental to modern Catholic social teaching (CST). His work moves away from traditionalist-conservative reaction in favor of an authentically human, moderately liberal, modernity built on the harmony of faith and reason. He zealously deconstructs laissez-faire liberal ideology and its socialist progeny in scores of articles in the *Civiltà Cattolica*, the journal that he co-founded in 1850. His arguments figure prominently in the *Syllabus of Errors* (1864) of Pius IX. Though a moderate liberal himself, his reputation as anti-liberal reactionary and defender of Papal temporal sovereignty is the chief reason why Pope Leo XIII later sought to quiet Taparelli's contribution to the foundations and pillars of modern CST that began with the restoration of Thomistic philosophy in *Aeterni Patris* (1879), and the "magna carta" of modern Catholic social teaching, *Rerum Novarum* (1891). Pius XI relies heavily on Taparelli's concept of subsidiarity in *Quadragesimo Anno* (1931), and sought to advance interest in Taparelli studies. However, Taparelli's eclectic philosophical orientation and writing style have been a considerable stumbling block. In this present book, Taparelli's ideas are evaluated both for their philosophical character but also in their historical context. Taparelli's theories of the just society and ordered liberty, are as timely nowadays for reasoned political and ethical discourse as ever. The book includes an appendix of translated portions of the *Theoretical Treatise of Natural Right Based on Fact* that relate to subsidiarity.

Social Justice Isn't What You Think It Is Our Sunday Visitor

Moral theologian Samuel Gregg addresses issues surrounding the Pope's personal influence on developments in Catholic social teaching. He compares the treatment of industrial relations, capitalism, and relations between developed and developing countries in John Paul's three social encyclicals with the handling of these three topics in the teachings of the Council and Paul VI, arguing that John Paul's critical engagement with the modern world has contributed significantly to Catholic social teaching, particular its moral-anthropological dimensions. A history of Catholic social thought Many Americans assume that the Catholic Church is inherently conservative, based on its stances on abortion, contraception, and divorce. Yet there is a longstanding tradition of progressive Catholic movements in the United States that have addressed a variety of issues from labor, war, immigration, and environmental protection, to

human rights, women's rights, exploitive development practices, and bellicose foreign policies. These Catholic social movements have helped to shift the Church from an institution that had historically supported incumbent governments and political elites to a Church that has increasingly sided with the vulnerable and oppressed. This book provides a concise history of progressively oriented Catholic Social Thought, which conveys the Catholic Church's position on a variety of social justice concerns. Sharon Erickson Nepstad introduces key papal encyclicals and other church documents, showing how lay Catholics in the United States have put these ideas into practice through a creative and sometimes provocative political engagement. Nepstad also explores how these progressive movements have pressured the religious hierarchy to respond to pressing social issues, such as women's ordination, conscription, and the morality of nuclear deterrence policies. Catholic Social Activism vividly depicts how these progressive movements have helped to shape the religious landscape of the United States, and how they have provoked controversy and debate among Catholics and non-Catholics alike.

In 2012, media outlets from CNN to EWTN announced that Leah Libresco, a gifted young intellectual, columnist, and prolific blogger on the Atheist channel on Patheos, was converting to Catholicism. In *Arriving at Amen*, Libresco uses the rigorous rationality that defined her Atheism to tell the story behind that very personal journey and to describe the seven forms of Catholic prayer that guided her to embrace a joyful life of faith. As a Yale graduate, Libresco launched her writing career by blogging about science, literature, mathematics, and morality from a distinctively secular perspective. Over time, encounters with friends and associates caused her to concede the reasonableness of belief in God in theory, though not yet in practice. In *Arriving at Amen*, Libresco uniquely describes the second part of her spiritual journey, in which she encountered God through seven classic Catholic forms of prayer—Liturgy of the Hours, lectio divina, examen, intercessory prayer, the Rosary, confession, and the Mass. Examining each practice through the intellectual lens of literature, math, and art, Libresco reveals unexpected glimpses of beauty and truth in the Catholic Church that will be appreciated by the curious and convinced alike.

In 1869 Russian scientist Dmitri Mendeleev was puzzling over a way to bring order to the fledgling science of chemistry. Wearing by the effort, he fell asleep at his desk. What he dreamed would fundamentally change the way we see the world. Framing this history is the life story of the nineteenth-century Russian scientist Dmitri Mendeleev, who fell asleep at his desk and awoke after conceiving the periodic table in a dream—the template upon which modern chemistry is founded and the formulation of which marked chemistry's coming of age as a science. From ancient philosophy through medieval alchemy to the splitting of the atom, this is the true story of the birth of chemistry and the role of one man's dream. In this elegant, erudite, and entertaining book, Paul Strathern unravels the quixotic history of chemistry through the quest for the elements.

"No one lives alone. No one sins alone. No one is saved alone," wrote Pope Benedict XVI, whose words resonate with today's teens, particularly because the prevalence of social media allows them to better see how their lives are interwoven with those around them. Foundations of Catholic Social Teaching: Living as a Disciple of Christ builds on those connections by helping teens find their place in the community of the faithful as they advocate for charity and justice in the world. The textbook, the second in the Encountering Jesus series released by Ave Maria Press, adheres to the USCCB guidelines for Elective Course C: Living as a Disciple of Jesus Christ. Organized around the seven principles of Catholic social teaching, Foundations of Catholic Social Teaching helps students gain a greater understanding of the roots of social teaching in the Church, its context in the Bible and the Catechism and real-life examples of charity and justice in action. A Concise Guide to Catholic Social Teaching

What is social justice? For Friedrich Hayek, it was a mirage—a meaningless, ideological, incoherent, vacuous cliché. He believed the term should be avoided, abandoned, and allowed to die a natural death. For its proponents, social justice is a catchall term that can be used to justify any progressive-sounding government program. It endures because it venerates its champions and brands its opponents as supporters of social injustice, and thus as enemies of humankind. As an ideological marker, social justice always works best when it is not too sharply defined. In *Social Justice Isn't What You Think It Is*, Michael Novak and Paul Adams seek to clarify the true meaning of social justice and to rescue it from its ideological captors. In examining figures ranging from Antonio Rosmini, Abraham Lincoln, and Hayek, to Popes Leo XIII, John Paul II, and Francis, the authors reveal that social justice is not a synonym for "progressive" government as we have come to believe. Rather, it is a virtue rooted in Catholic social teaching and developed as an alternative to the unchecked power of the state. Almost all social workers see themselves as progressives, not conservatives. Yet many of their "best practices" aim to empower families and local communities. They stress not individual or state, but the vast social space between them. Left and right surprisingly meet. In this surprising reintroduction of its original intention, social justice represents an immensely powerful virtue for nurturing personal responsibility and building the human communities that can counter the widespread surrender to an ever-growing state.
