This second volume of ReConFort, published open access, addresses the decisive role of constitutional normativity, and focuses on discourses concerning the legal role of constitutional norms. Taken together with ReConFort I

(National Sovereignty), it calls for an innovative reassessment of constitutional history drawing on key categories to convey the legal nature of the constitution itself (national sovereignty, precedence, justiciability of power, judiciary as constituted power). In the late 18th and early 19th centuries, constitutional normativity began to complete the legal fixation of the entire political order. This juridification in one

constitutional text resulted in a conceptual differentiation from ordinary law, which extends to alterability and justiciability. The early expressions of this 'new order of the ages' suggest an unprecedented and irremediable break with European legal tradition, be it with British colonial governance or the French ancien régime. In fact, while the shift to constitutions as a hierarchically 'higher' form of positive law was a revolutionary change, it also drew upon old liberties. The American constitutional discourse, which was itself heavily influenced by British common law, in turn served as an inspiration for a variety

of constitutional experiments - from the French Revolution to Napoleon's downfall, in the halls of the Frankfurt Assembly, on the road to a unified Italy, and in the later theoretical discourse of twentieth-century Austria. If the constitution states the legal rules for the law-making process, then its Kelsian primacy is mandatory. Also included in this volume are the French originals and English translations of two vital documents. The first - Emmanuel Joseph Sieyès' *Du Jury Constitutionnaire* (1795) - highlights an early attempt to reconcile the democratic values of the French Revolution with the pragmatic need to legally protect the Revolution. The

second - the 1812 draft of the Constitution of the Kingdom of Poland - presents the 'constitutional propaganda' of the Russian Tsar Alexander I to bargain for the support of the Lithuanian and Polish nobility. These documents open new avenues of research into Europe's constitutional history: one replete with diverse contexts and national experiences, but above all an overarching motif of constitutional decisiveness that served to complete the juridification of sovereignty.

Composizione della crisi da sovraindebitamento. In vigore dal 29 febbraio 2012. OECD

This book depicts the cultural imagination of the Italian-Jewish minority from the unification of the country to the end of the First World War. The creation of an Italian nation-state introduced new problems and new opportunities for its citizens. What did it mean for the Jewish minority? How could members of the minority combine and redefine Jewishness and Italianness in a radically new political and legal framework? Key concepts such as family, religion, nation,

assimilation and – later – Zionism are observed as they shift and change over time. The interaction between the public and private spheres plays a pivotal role in the analysis, and the self-fashioning of Italian Jewish élites is read alongside the evolution of the cultural stereotypes typical of the time. Reinterpreting the Italian national patriotic narrative through the eyes of the Jews, Carlotta Ferrara degli Uberti is able to unveil its less known layers and articulations, while at the same time offering a new perspective from which to read the modern Jewish experience in the Western World. *EU State Aids* Giuffrè Editore
New Perspectives on

Power and Political Representation from Ancient History to the Present Day offers a unique perspective on political communication between rulers and ruled from antiquity to the present day by putting the concept of representation center stage. It explores the dynamic relationship between elites and the people as it was shaped by constructions of self-representation and representative claims. The contributors to this volume – specialists in ancient, medieval, early-modern and modern history – move away from reductionist associations of political representation with formal aspects of modern, democratic, electoral, and parliamentary

politics. Instead, they contend that the construction of political representation involves a set of discourses, practices, and mechanisms that, although they have been applied and appropriated in various ways in a range of historical contexts, has stood the test of time.

It sets out the Inclusive Framework's agreed direction of work on digitalisation and the international tax rules through to 2020. It describes how digitalisation is also affecting other areas of the tax system, providing tax authorities with new tools that are translating into improvements in taxpayer services, improving the efficiency of tax collection and detecting tax evasion.

Basilio Petrà sees Christos Yannaras (b. 1935) as a philosopher and theologian whose refiguring, on the one hand, of Heidegger's refusal to define being in ontic terms and, on the other, of Wittgenstein's willingness to admit the inexpressible character of the mystical has led him to articulate a powerful vision of true human existence. This bold interpretation outlines the passage from an ontic 'mode of nature' governed by necessity to a 'mode of self-transcendence and self-offering' beyond the limitations of decay and death. In his native Greece, Yannaras revolutionised the way theology had been

done for much of the twentieth century. This book examines the trajectory of Yannaras' thought from his initial encounter with Heidegger's philosophy to his formulation (via the tradition of the Greek Fathers) of a modern critical ontology. It is for both advanced students of philosophy and the growing scholarly audience interested in Yannaras' work.

Written in accessible language that does not compromise intellectual rigour, it is the only survey of the development of Yannaras' philosophical thought as a whole.

Sustainable Public Food Procurement (PFP) represents a key game changer for food systems transformation. It can influence both food consumption and food production patterns. It can deliver multiple social, economic and environmental benefits towards sustainable food systems for healthy diets. This publication aims to contribute to the improved understanding, dissemination and use of PFP as a development tool in particular in the case of school meals programmes. In Volume 1, researchers, policymakers and

development partners can find evidence on how PFP can be used as a development tool and deliver multiple benefits for multiple beneficiaries. It argues that PFP can provide a market for local and smallholder farmers, promote the conservation and sustainable use of agrobiodiversity, and improve the nutrition and health of children and communities. Volume 2 of this publication, available at <https://doi.org/10.4060/cb7969en>, presents further analysis of the instruments, enablers and barriers for PFP implementation. It also provides case studies with local, regional and national experiences from Africa, Asia, Europe and North and South America.

George Bush's 1988 campaign pledge, "Read my lips: no new taxes," has become a mantra for those who distrust politicians and bureaucrats. The gulf between what political leaders say and do seems to be widening, and in democratic societies around the world, contributing to an atmosphere of cynicism and apathy among the citizenry. Understanding the characteristics and functions of speech in policy processes is a requirement for trying to overcome this problem; indeed, politicians and bureaucrats spend a good proportion of their time and resources discoursing,

i.e., writing, speaking, and publishing.

However, there has been scant analysis of political discourse; the aim of this book is to fill this analytical gap, by exploring political speech from a variety of perspectives, including normative, epistemological, and empirical.

Incorporating insights from economics, political science, philosophy, and law, and evidence from the United States, Canada, France, Italy, Turkey, and the EU, the book addresses a wide variety of timely issues, including:

Fiscal discipline in speeches vs budget balance: Is an improvement (deterioration) of the budget balance preceded by a more (less) fiscally

disciplined discourse?

Revenues and spending forecasted in budget speeches vs realised budget

outcomes: Is there a systematic bias? If so, how can we explain it?

Electoral pledges vs actual realisations: Do governments follow up

on their electoral pledges? Ideological

stance in party publications vs

spending and revenues of party governments:

Do parties of the right and the left speak different languages?

How can we validly classify a government

as of the left or of the right? Is there a

systematic difference between governments

of the right and of the left in terms of their

policy? Speeches by central bank officers vs

monetary policy: Can changes in monetary

policy be predicted by official speeches? The political business cycle: How can taking into consideration the speech-action relationship strengthen (or threaten) our knowledge about electoral and partisan cycles in public spending? Other questions explored include: Should policy makers always tell the truth and all the truth? What are the benefits and the costs of transparency? How can we resolve the apparent contradiction between the democratic demand for transparency and the efficiency requirement of secrecy in many policy areas (budget preparation, monetary policy, foreign policy, security, etc.)? Under which conditions is secrecy acceptable in a

democratic society? To what extent may deception and lies lead to a breach of trust or to power abuse? What are the most efficient institutional mechanisms to prevent such abuse?

Collectively, the authors present new insights for understanding political process and government activity, and suggest avenues for further research.

Reconsidering Constitutional Formation II Decisive Constitutional Normativity Maggioli Editore

The publication is divided into three main parts : the first deals with global issues, the second with national issues and in particular, national strategy formulation; and the third with

financial and professional sector procedures. This second edition now includes additional information on understanding how terrorism is financed. It incorporates both the international standard arising from the revised Financial Action Task Force on Money Laundering 40 Recommendations and the Special Nine Recommendations. *Manuale dell'IVA negli Enti locali* Maggioli Editore Governments, companies, environmental associations and citizens all over the EU are struggling with large scale projects. On the one hand large scale projects can contribute to economic development, on the other hand they often

also raise environmental concerns. Consequently, large scale projects are excellent examples of the difficulty in balancing economic development with environmental protection. In order to promote the legal thinking about all kinds of environmental and planning law aspects of large scale projects, the second European Environmental Law Forum (EELF) Conference was held in September 2014. The conference's central topic was "Environmental and Planning Law Aspects of Large Scale Projects," with a focus on: the role of spatial and environmental planning; permitting and review procedures; critical sectoral

regimes; and horizontal measures. (Series: European Environmental Law Forum, Vol. 2) Subject: Environmental Law, Economic Law]

Il Codice dei contratti pubblici annotato con la giurisprudenza è stato concepito come importante strumento di agevole consultazione per gli operatori che intendono individuare, per ciascuna disposizione del D.Lgs. 163/2006, la preziosa, ricca ed articolata interpretazione fornita dai giudici amministrativi. L'oggettiva complessità di questa materia, il suo peculiare tecnicismo, la consistenza degli

interessi economici coinvolti ed i rilevanti profili di responsabilità per i soggetti impegnati nel ciclo della commessa pubblica, rendono oramai ineludibile la conoscenza non solo delle norme scritte ma pure del "diritto vivente". L'opera, che si presenta arricchita da utili richiami alle corrispondenti disposizioni attuative contenute nel Regolamento di cui al DPR 207/2010, in questa terza edizione tiene conto della più recente produzione giurisprudenziale e delle numerose ed importanti modifiche al Codice intervenute con la spending review (L.94/2012, L.135/2012), la legge anticorruzione (L.190/2012), i decreti "del fare" (L.98/2013),

La pubblicazione ha lo scopo di offrire al lettore, nel complesso scenario della Pubblica Amministrazione, da un lato una panoramica ampia ed aggiornata della normativa vigente relativamente al tema delle “società in house” e, dall’altro, il “caso” di una società (Noveservizi S.r.l.) costituita da un’Azienda Sanitaria della Regione del

Veneto. Dalla teoria alla pratica: in questa logica la pubblicazione assume la specificità di un manuale operativo di supporto a chi intendesse dare vita, specie nell’ambito della sanità pubblica, ad una organizzazione con le caratteristiche proprie di una “società in house”, intesa come società strumentale alla Pubblica Amministrazione. Ciò premesso, ben si comprende come questo lavoro, frutto della collaborazione fra avvocati esperti in diritto amministrativo e professionisti che hanno assistito il management di Noveservizi S.r.l. fin dal momento della sua costituzione, intenda catturare l’interesse di chi ricopre posizioni di responsabilità nell’ambito della

 side, governance is a
 decisive factor for the

On the other side, entrepreneurs and corporate decision-makers provide new business models for a decentralised energy world. Based on best practices, country studies and interviews with CEOs and founders of startups from all over the world, the “Global Game

Changer” suggests eight key principles for political decision-makers to successfully implement the transformation, and six core competencies for corporate decision-makers to thrive in the new marketplace.
