"An excellent book. . . . [It] provides a unique picture of the processes of globalist institution transformation in a crucial, less developed country."—John Willoughby, American University

Genre and Contemporary Hollywood Information Today, Inc.

Includes reports of activities of: National Institute of Science and Technology, Philippine Atomic Energy Commission, Philippine Coconut Research Institute, Philippine Textile Research Institute, Philippine Inventors Commission and Forest Products Research and Industries Development Commission.

IPGRI Annual Report 1998 Hodder Education

In January 2007, New York City Police Commissioner Raymond W. Kelly asked the RAND Corporation to examine the quality and completeness of the New York City Police Department's firearm-training program and identify potential improvements in it and in the police department's firearm-discharge review process. This monograph reports the observations, findings, and recommendations of that study.

Concerning parks, playgrounds and bathing beaches.

Annual Report, 1989 Hodder Education

The last comprehensive review of Nottinghamshire's birds was produced more than four decades ago. Much has changed since then, and a new avifauna is long overdue. This book draws together historic reports from the nineteenth century, records from the files of the county bird club (Nottinghamshire Birdwatchers), and data from national and regional surveys and monitoring programmes. The resulting account presents an overview of the present state of the county's birdlife, set against a context of environmental and climatic change. The gravel pits in the Trent and Idle Valleys form major corridors for birds moving across Britain and Nottinghamshire has attracted more than its share of national rarities. These include Britain's first Egyptian Nightjar and Lesser Yellowlegs in the nineteenth century, Bufflehead, Redhead, Cedar Waxwing and breeding Black-winged Stilts in the twentieth century, and a memorable nesting attempt by European Bee-eaters in 2017. The woods and heaths of Sherwood lying in the middle of the county also provide a haven for an array of iconic species including European Nightjar, Eurasian Woodcock, Honeybuzzard and Hawfinch. This book describes the past and present status of the 334 species that have been recorded in Nottinghamshire up to 2018. Lavishly illustrated with photographs taken within the county, and sketches from the internationally recognised artist Michael Warren, it is intended to be an authoritative reference to the birds of Nottinghamshire.
