A big reason that a true sense of urgency is rare is that it's not a natural state of affairs. It has to be created and recreated. In organizations that have survived for a significant period of time, complacency is more likely the norm.

A Sense Of Urgency
John

John Kotter: A false sense of urgency is a terrible, terrible problem. A false sense of urgency is an anxiety driven, frenetic behaviour of running around in circles, your tongue dragging after a certain point, and becoming stressed out. You have meeting after meeting, taskforce after taskforce, but it's activity not productivity.

Leading Change:

Creating a Sense of Urgency (Step 1)

To lead a change effort and gain the cooperation of necessary stakeholders, the first step leaders must take is to create a sense of urgency. It requires clear and honest communications that create a sense of urgency rather than a sense of doom. By creating both a compelling picture of a desired future and the danger of accepting the status quo, leaders greatly improve their chances of gaining the commitment of organizational stakeholders for a necessary change effort.
