Leadership and Self-Deception Simon

#1 NEW YORK TIMES BESTSELLER •
Brené Brown has taught us what it
means to dare greatly, rise strong, and
brave the wilderness. Now, based on
new research conducted with leaders,
change makers, and culture shifters,
she's showing us how to put those ideas
into practice so we can step up and lead.
Look for Brené Brown's new podcast,
Dare to Lead, as well as her ongoing
podcast Unlocking Us! **NAMED ONE OF
THE BEST BOOKS OF THE YEAR BY
BLOOMBERG** Leadership is not about
titles, status, and wielding power. A
leader is anyone who takes responsibility
for recognizing the potential in people
and ideas, and has the courage to
develop that potential. When we dare to
lead, we don't pretend to have the right
answers; we stay curious and ask the
right questions. We don't see power as
finite and hoard it; we know that power
becomes infinite when we share it with
others. We don't avoid difficult
conversations and situations; we lean

into vulnerability when it's necessary to
do good work. But daring leadership in a
culture defined by scarcity, fear, and
uncertainty requires skill-building around
traits that are deeply and uniquely
human. The irony is that we're choosing
not to invest in developing the hearts
and minds of leaders at the exact same
time as we're scrambling to figure out
what we have to offer that machines and
AI can't do better and faster. What can
we do better? Empathy, connection, and
courage, to start. Four-time #1 New York
Times bestselling author Brené Brown
has spent the past two decades studying
the emotions and experiences that give
meaning to our lives, and the past seven
years working with transformative
leaders and teams spanning the globe.
She found that leaders in organizations
ranging from small entrepreneurial
startups and family-owned businesses to
nonprofits, civic organizations, and
Fortune 50 companies all ask the same
question: How do you cultivate braver,
more daring leaders, and how do you
embed the value of courage in your
culture? In this new book, Brown uses
research, stories, and examples to
answer these questions in the no-BS
style that millions of readers have come
to expect and love. Brown writes, "One
of the most important findings of my
career is that daring leadership is a
collection of four skill sets that are 100
percent teachable, observable, and
measurable. It's learning and unlearning
that requires brave work, tough
conversations, and showing up with your
whole heart. Easy? No. Because
choosing courage over comfort is not
always our default. Worth it? Always. We

want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

The Skillful Leader II Simon and Schuster

"Here's a delightful little book to warm the hearts of young children and teach them how to experience the joy of giving and receiving. Just think of all the little buckets this book will fill with love and encouragement." —Dr. Kevin Leman, author of *Have a New Kid by Friday* *The day you were born was a very happy*

day. You are a special gift. Everyone was so happy to see you. But, there was one part of you that they could not see. It was your bucket, your invisible bucket. While using a simple metaphor of a bucket full of hearts and stars, authors Carol McCloud and Katherine Martin, M.A. illustrate, in the sweetest of ways, that we are all born with an invisible bucket and that our bucket holds all of our good thoughts and feelings. This book highlights the many ways that families and caregivers use to fill the buckets of children but also gives young children simple ideas on how to BE a bucket filler as well. This 24-page picture book is perfect for children, parents, grandparents, teachers and people that want to teach empathy, nurture kindness and create a positive environment in their home, classroom, workplace and community. Habit 7 Simon and Schuster

The world has entered an era of the most profound and challenging change in human history. Most of our children are not prepared, and we know it. Parents around the world see the change and know that the traditional three R's -- reading, writing, and arithmetic -- are necessary, but not enough. Their children need to become far more responsible, creative, and tolerant of differences. They need to increase their ability to think for themselves, take initiative, get along with others, and solve problems. Business leaders are not finding people whose skills and character match the demands of today's global economy, including strong communication, teamwork, analytical, technology, and organizational skills. They need young people who are self-motivated, creative, and have a strong work ethic. How will we bridge this ever-widening gap? The Leader in Me is the story of the extraordinary schools, parents, and business leaders around the world who are preparing the next generation to meet the great challenges and opportunities of the twenty-first century. In 1999, the A.B. Combs Elementary School in North Carolina was on the verge of being cut as a magnet school and needed to find new ways to educate its students. Teachers and administrators began teaching practical, principle-based leadership skills -- with remarkable results. In a short time, the number of students passing end-of-grade tests vaulted from 84 to 97

percent. Simultaneously, the school began reporting significant increases in students' self-confidence, dramatic drops in discipline problems, and striking increases in teacher and administrator job satisfaction. Parents, meanwhile, reported equivalent improvements in their children's attitudes and behavior at home. As news of the school's success spread, schools around the world began adopting the mantra to "develop leaders, one child at a time." Business and civic leaders started partnering with schools in their communities to sponsor teacher training and student resources. Each school and family approached the principles differently, but the results were the same -- attentive, energized young people engaging in the world around them. The best way to prepare the next generation for the future is to emphasize the value of communication, cooperation, initiative, and unique, individual talent -- for nothing undermines confidence more than comparison. Whether in the classroom or at home, it is never too early to start applying leadership skills to everyday life. Drawing on the many techniques and examples that have already seen incredible success around the world, *The Leader in Me* shows how easy it is to incorporate these skills into daily life. It is a timely answer to many of the challenges facing today's young people, businesses, parents, and educators -- one that is perfectly matched to the global demands of the twenty-first century.
