BRILL  
A sociologist and oral historian explores the interwoven histories of sports and civil rights activism in this

extensively researched volume. In 1968, noted sociologist Harry Edwards established the Olympic Project for Human Rights, calling for a boycott of that year's games in Mexico City as a demonstration against racial discrimination. Though the boycott never materialized, Edwards's ideas struck a chord with athletes and incited African American Olympians Tommie Smith and John Carlos to protest by

raising their black-gloved fists on the podium after receiving their medals. Sidelined draws upon a wide range of historical materials and more than forty oral histories with athletes and administrators to explore how the black athletic revolt used professional and college sports to promote the struggle for civil rights in the late 1960s. By examining activists' successes and failures in

promoting racial equality on one of the most public stages in the world, Henderson sheds new light on an often-overlooked subject and gives voice to those who fought for civil rights both on the field and off. *Daily Graphic* OECD Publishing Loaded with more than 7,500 individual signatures and values from football, baseball, hockey, and other sports, this reference
