The exploits of the British Army's elite 22nd Special Air Service Regiment - the regiment of the SAS that forms part of the Regular army - are shrouded in mystery and myths about its members. But what is the truth behind the public facade of clinical professionalism? How has such a small regiment attracted so many weighty legends? And what is the purpose of the

SAS in the 21st century? "Special Force" provides an original and unusually critical overview of the activities of the SAS from the Malayan Emergency of 1950 to the present day. In the context of a detailed and often controversial analysis of the post-war activities of the Regiment, MacKenzie establishes that the Regiment's almost legendary professional competence is often not backed up by reality. Far from being part of a structured deployment of strategic military assets, MacKenzie argues that the use of the SAS in recent years has been primarily driven by the 'entrepreneurial' actions of a few SAS commanding officers. "Special Force" not only offers a revelatory history of the SAS in the modern period, it is also a disturbing expose of the truth behind the myth. It will be essential reading for anyone with an interest in the British military - past, present and future.

The killing part is the easy bit; the tricky part is finding the right people to kill. Rob was a Special Forces operator with some of the world finest regiments and served in four national armies over a career that has spanned forty years and continues today. In 1965 he earned the converted Green Beret as a member of 2 Commando Australia. He left in 1968 to Southeast Asia. Finding work of a military nature in Laos, (in the war that never was). The end of the contract found him in England where he joined the British Parachute Regiment and completed three tours in Northern Ireland at the height of the troubles, taking part in Operation Demetrius. On his last tour, he was detached from his battalion and worked covert operations with a little-known group called the MRF (Military Reaction Force). 1974 saw Rob in Rhodesia as a member of the internationally acclaimed C Squadron SAS, where he was wounded on operations twice. This was a turning point in Rob's life as he surrendered to Christ becoming a Christian. He was to carry on as an operator, but now with a biblical world view. Rob was recruited in 1980 by the South African Defense Force and was a member of 6 Reconnaissance Commando Special Forces and later became an operative with what was commonly called 'the funnies' or CSI Chief of Staff Intelligence. From 1996 to 2007 Rob was in South Sudan and Iraq, receiving a letter of commendation from

the United States Army. Still active today, Rob specializes in close protection and tactical security training for civilian personnel.

The SAS 1983-2014 SAS

During the 10,000-day Vietnam war Australia had agreed with the United States to have a team of Australian Army Special Air Services (SAS) soldiers conduct covert missions into Cambodia. The SAS soldiers would be bivouacked in Thailand. With their names changed for security and personal safety reasons, this is a dramatized story of events that actually happened involving a small band of Australian Special Air Service trained specialists involved in covert intelligence activities who were co-opted into the Defence Intelligence Organisation (DIO) repertoire of Plausibly Deniable assets deployed worldwide into the shadows of political indulgence in locations where Australian forces should not be seen or heard. These Australian

SAS Covert operations undertaken are incidents that have never before been exposed and include cross-sovereign-border infiltrations into Cambodia and the daily operations of the elimination of Viet Cong munition dumps. Also revealed are an unauthorized fatal attack by United States Army helicopters on SAS warriors; the rescue of French tourists kidnapped by Muslim terrorists in Mindanao, Philippines, and Operation Eye of the Storm into Northern Kuwait/Eastern Iraq evolving into Desert Storm. As revealed these covert operations included offshore intervention of East Timorese Fretilin Terrorists sabotaging Australian offshore Exploration and Oil Drilling activities in the Timor Sea; Back Door into Hell during the Somalia conflict, plus covert black ops elimination of Muslim Jihadist activities on homeland soil assisted by Israeli intelligence. This astounding exposé opens the closed door behind which governments operate to deal quietly with situations they prefer not to mention.

SAS and Special Forces Fitness Training Pen and Sword Military

The Special Air Service (SAS) is the toughest regiment in the British Army and is fabled as the best Special Forces unit in the world. Members of the SAS live in a shadow world, unable to divulge their whereabouts or mission details, living a hard life of combat and secrets. This book brings to life the stories of 20 soldiers who were genuine heroes, although many were never recognised as such during their lives or even in death. Who Dares Wins contains former SAS soldier Pete Scholey's memories of some of those men. It is a book about soldiers who bravely fought for their country in extreme circumstances with no desire to be famous, fabled or rewarded. Each chapter tells us about the life and combat stories of the men who, although capable of superhuman effort, were very much human beings. Some of the stories of Pete's heroes have never been heard before and certainly none of these dramatic tales of combat and life in the regiment have

been told in such a touching and compelling manner.

Uniforms of the Elite Forces : [including the S.A.S. and American Special Forces]
SAS

A hard-hitting history of special-forces operations over the past fifty years in the United States, United Kingdom, and Israel. After eight challenging years in Afghanistan, the new U.S. strategy, aimed at winning hearts and minds rather than search-and-destroy, refocuses the conflict on Special Forces: unorthodox soldiers who work outside of traditional military forces to combine secret military operations with nation building. Tony Geraghty, an expert author in this field for almost thirty years, unveils the extraordinary evolution of this refined style of war-making from its roots in anti-guerrilla warfare in Ireland and Palestine, by way of the creation of the C.I.A., the S.A.S., the Green Berets, and America Office of Strategic Services (O.S.S.), and many others. Israel's Special Forces, including Mossad, are an organic part of the same

coherent history, and their story is narrated here for the first time. This history is more than a tale of derring-do, although James Bond-like characters stalk every page. It is a sweeping examination of Black Ops at a time when they represent the future of an open-ended global war against terrorism.
