The Lost Fleet: Corsair #1 Ace

A young fleet officer and a Marine stand together to defend their colony in the continuation of the powerful and action-packed Genesis Fleet saga from New York Times bestselling author Jack Campbell. In the three years since former fleet officer Rob Geary and former Marine Mele Darcy led improvised forces to repel attacks on the newly settled world of Glenlyon, tensions have

only gotten worse. When one of Glenlyon's warships is blown apart trying to break the blockade that has isolated the world from the rest of human-colonized space, only the destroyer Saber remains to defend it from another attack. Geary's decision to take Saber to the nearby star Kosatka to safeguard a diplomatic mission is a risky interpretation of his orders, to say the least. Kosatka has been fighting a growing threat from so-called rebels-- who are actually soldiers from aggressive colonies. When a "peacekeeping force" carrying thousands

of enemy soldiers arrives in Kosatka's star system, the people of that world, including Lochan Nakamura and former "Red" Carmen Ochoa, face an apparently hopeless battle to retain their freedom. It's said that the best defense is a good offense. But even if a bold and risky move succeeds, Geary and Darcy may not survive it...

The Lost Fleet: Fearless Harper Collins Admiral John "Black Jack" Geary must battle dangers both within and without the Alliance, in this exciting continuation of the New York Times bestselling series. Geary knows that some political factions in the Alliance were just trying to get rid of him when he was assigned to escort a diplomatic and scientific mission to the far reaches of humanity's expansion into the galaxy . . . and beyond. But he views

his mission as both a duty and an opportunity to make things better wherever he can. And when a crippled Rift Federation ship tumbles out of jump space, Geary leaps into action. But the survivors' story isn't completely adding up. As Geary investigates, he soon finds himself fending off spies and assassins while leading the fleet as it fights its way across space controlled by the mysterious and hostile aliens whom humans call enigmas. Challenges arrive at every turn, including an unknown alien species that invites the fleet to visit one of their star systems. With little information to go on, Geary must weigh the benefits of potential new allies against the possibility of a trap. The fate of the fleet—and perhaps even the future of humanity—will depend on him

making the right decision. If he can stay alive long enough to do that.

Boundless Penguin

New York Times bestselling author Ian Douglas's virtuosic Star Corpsman series proves one thing: The Marines are still the toughest sons of guns in the galaxy. As Bravo Company defuses a hostage crisis on an orbiting mining station, Navy Corpsman Elliot "Doc" Carlyle not only saves the lives of a wounded Marine and two extraterrestrial friendlies—he averts a terrorist strike intended to kill billions. His reward? Deployment on a recon mission into the darkest depths known to man. Abyss Deep is a foreboding ocean planet torn by extremes: boiling storm world on one side, unbroken glacier on the other. Humans established a research colony there to study the

planet's giant sea serpents—but the colony has gone ominously silent. When Carlyle's team arrives, they discover a vessel belonging to a warlike alien species hovering above the atmosphere. But below the ice lurks a mystery so chilling it will make even Elliot Carlyle's blood run cold.

The Lost Fleet: Beyond the Frontier: Dreadnaught Penguin

Fleet Admiral Jeremy Strong is determined to preserve the planet Gaia as the new home of the lost fleets. Unfortunately, a new and frightening danger from the destroyed Dyson Sphere threatens to undo everything he has fought for. Kazak, the AI on the

Originator ship has his own agenda. The Humans and Altons will either do as he demands or he will destroy them. Can Fleet Admiral Strong outsmart the two-million-year-old AI or is he doomed to failure? Admiral Tolsen has found the Dyson Sphere in the home galaxy. However, he will have to fight to keep control of it as research teams work frantically to discover its secrets before it's too late. Both the Simulins and the Shari are determined to destroy Tolsen's fleet and take the Dyson Sphere for themselves. Both galaxies erupt into war as the titanic struggle for supremacy continues. If the Simulins win, then all hope is lost as they will destroy all organic life. If the Shari win, they will use the science and technology in the Dyson Sphere to conquer the home galaxy and

destroy the Human Federation of Worlds. The Lost Fleet: Courageous Penguin The New York Times bestselling author of The Lost Fleet series returns to the epic space saga of a rebellion against a totalitarian regime, and the determination of two people to create a better future in the farthest reaches of the colonized galaxy... The Syndicate Worlds continues to splinter as more star systems pledge allegiance to President Gwen Iceni's and General Artur Drakon's new government at Midway. But the rebels fleeing the toxic legacy of Syndicate rule have difficulty trusting one another and believing their new leaders' promises of freedom from tyranny. Before Iceni and Drakon can put their house in order, they must deal with another threat. An enigma warship has

appeared and vanished near a Syndic colony. If the aliens are capable of jumping into other human-occupied star systems, then billions of people could be vulnerable to a hostile invasion fleet anywhere it chooses to strike. But an even greater liability lies with Icenis and Drakon as a once-trusted adviser turned saboteur plans revenge...

The Cruel Stars Penguin

In this epic sci-fi adventure for fans of *The Expanse* and *Battlestar Galactica*, five intrepid heroes must unite to save civilization after a long-dormant enemy awakens and strikes a devastating blow “This jarring, engrossing story of a species-wide fight for survival is recommended for all science fiction readers.”—*Publishers Weekly* (starred review) The galaxy was once terrorized

by the Sturm, a group of “species purists” intent on destroying any human with genetic or cybernetic enhancements. Fashioning themselves as the one true “Human Republic,” the Sturm cut a bloody swath across the stars, killing billions before finally being defeated and driven into the far reaches of Dark Space. Centuries of peace bred complacency. Everyone believed the Sturm had died out in the Dark. They were wrong. The enemy has returned and, with a brutal and decisive attack, knocks out almost all of humanity’s defenses. Now on the brink of annihilation, humankind’s only hope is a few brave souls who survived the initial attack: Commander Lucinda Hardy, thrust into uncertain command of the Royal Armadalen Navy’s only surviving

warship. Booker3, a soldier of Earth, sentenced to die for treason, whose time on death row is cut short when the Sturm attack his prison compound. Princess Alessia, a young royal of the Montanblanc Corporation, forced to flee when her home planet is overrun and her entire family executed. Sephina L'trel, the leader of an outlaw band who must call on all of her criminal skills to resist the invasion. And, finally, Admiral Frazer McLennan, the infamous hero of the first war with the Sturm hundreds of years ago, who hopes to rout his old foes once and for all—or die trying. These five flawed, reluctant heroes must band together to prevail against a relentless enemy and near-impossible odds. For if they fail, the future itself is doomed. “Frenetic action viewed in a black fun-

house mirror.”—Kirkus Reviews Penguin

The dictatorial regime has ordered the ex-Syndicate CEOs terminated with extreme prejudice and the system's citizens punished for their defiance. Outnumbered and led by junior officers hastily promoted in the wake of the uprising, Midway's warships are no match for the fleet massing and

preparing to strike. But the Syndicate isn't the only threat facing Icení and Drakon. Another former CEO has taken control of the Ulindi Star System, the first calculated move toward establishing his own little empire. Vanguard Titan Books

The New York Times–bestselling author of the Lost Fleet series tells tales of an alien ambush, time-traveling cavalymen, and a military lawyer in space. In his New York Times bestselling Lost Fleet series, author Jack Campbell has taken readers and Captain “Black Jack” Geary on a fast-paced journey of conquest across vast reaches of space. Now, in the three novellas contained in *Swords and Saddles*, first in a series of short fiction collections from Jack Campbell, readers can explore the entire universe of Campbell’s fiction. A new author’s note accompanies each story. Begin by entering “The Rift.” Answering a distress call from a colonized planet, a combat team finds themselves

ambushed. They manage to scabble their way to a remote research facility in the countryside, joining a group of schoolchildren that have holed up with the researchers—three groups united in fear that their lives will last only as long as they can avoid discovery by the aliens that have come to their planet. When the aliens do come, it becomes clear that despite all the years of research, the humans' understanding of the aliens is woefully incomplete. "Swords and Saddles" is one of several alternate history stories that Jack Campbell has written. When lightning strikes Captain Ulysses Benton and his U.S. Cavalry Fifth Regiment, they recover to find an ancient structure in the desert that they've never seen before—and writing

in a language none of them recognize. When the next find themselves skirmishing with soldiers wearing armor more appropriate to Roman centurions than 1870s Kansas, it becomes clear that wherever it is they are, it isn't Kansas. But where are they, then? And how do they make their way home? The *Lost Fleet* isn't the only Jack Campbell series full of outer space intrigue. "Failure to Obey" is a novella in his Paul Sinclair series. When Lieutenant Jen Shen saves the day after a terrorist attack on a space station, she gets a medal, but Ivan Sharpe, a fellow officer and Paul's former master-at-arms, gets a court martial. In a classic court martial scene that rivals the best in American literature, Paul must work behind the scenes to save Ivan's military career.
