The sun temple of Konark in Orissa, also famous as the Black Pagoda, is undoubtedly one of the finest monuments of India. Even in ruins, the temple complex is a magnificent monument where the vitality and spirit of bygone creative age in the history of Orissa are echoed even today in its life like sculptures.

Fictional literature, when enkindled with spiritual ideas, creates an appeal that transcends time and place. This has been the case with many literary works produced in India and other parts of the world, and this is so even in our modern times characterized by consumerist culture that hardly sees below the surface of things. A compilation from 'Prabuddha Bharata', this book presents to the readers, through a series of articles, a systematic record of some of those writers who added the spiritual dimension to their fictional works in India and the Americas. This volume brings together key findings of the long-term research project 'Religious Individualisation in Historical Perspective' (Max Weber Centre for Advanced Cultural and Social Studies, Erfurt University). Combining a wide range of disciplinary

approaches, methods and theories, the volume assembles over 50 contributions that explore and compare processes of religious individualisation in different religious environments and historical periods, in particular in Asia, the Mediterranean, and Europe from antiquity to the recent past. Contrary to standard theories of modernisation, which tend to regard religious individualisation as a specifically modern or early modern as well as an essentially Western or Christian phenomenon, the chapters reveal processes of religious individualisation in a large variety of non-Western and pre-modern scenarios. Furthermore, the volume challenges

prevalent views that regard religions primarily as collective phenomena and provides nuanced perspectives on the appropriation of religious agency, the pluralisation of religious options, dynamics of de-traditionalisation and privatisation, the development of elaborated notions of the self, the facilitation of religious deviance, and on the notion of dividuality.

Epic and Romance Criticism: Classical and continental epics and metrical romances Taylor & Francis History of Indian Nation India, the cradle for one of the most ancient civilizations in the world, has a long and rich history, spanning thousands of

years. In fact, the history of India begins with evidence of human activity millions of years ago. The Indus Valley Civilization was the first major civilization. Vedic Civilization witnessed the rise of major polities. Almost the whole country was controlled by Mauryan Empire and it was again united under Gupta Empire. Muslim rule in the subcontinent began when the Arabs conquered Sindh and Multan. Then, several invasions from Central Asia led to the formation of Muslim empires, such as the Delhi Sultanate and the Mughal Empire. Mughals conquered most of northern India and finally controlled the entire sub-continent and

Afghanistan. Mughal Empire declined in the 18th century. Then, East India Company gained ascendancy over South Asia. Dissatisfaction with Company rule led to an unsuccessful revolt in 1857, after which India was directly administered by the British Crown. In the 20th century, a nationwide struggle for independence was launched by Indian National Congress. The subcontinent gained independence from Great Britain in 1947, but the country was partitioned into two dominions of India and Pakistan. After Independence, a new era began. This comprehensive book, comprising four volumes covers the entire history of the Indian Nation in a very

compact manner. This  
book is an asset for

historians, teachers,  
students and general  
readers, at par.
