LEARNING AND TEACHING Sterling Publishers Pvt. Ltd

The quality and productivity of a research work very much depends on the competency of the researchers. Such competency needs to be generated and nurtured properly among the researchers from the very beginning of their research career. This comprehensive book on research methodology discusses in detail how to carry out research studies in various disciplines of behavioural sciences in an organized manner. The book is meant for the postgraduate students of Education (M.Ed.), Sociology, Psychology and Management. In addition, it will also be useful to research scholars in learning the art of doing qualitative and quantitative research studies in behavioural sciences. Key Features Systematic and logical organization of the subject matter providing step-by-step description of the research methodology for conducting research studies. Extensively illustrated with working examples, diagrams and tables. A comprehensive description of the essential data collection tools employed in quantitative and qualitative research studies, along with their proper construction, standardization and validation. Complete and workable description of the techniques and methods of data analysis used in quantitative and qualitative research studies. A complete chapter devoted to the use of computer technology for the execution of the quantitative and

qualitative research studies.

Advanced Educational Psychology Sterling Publishers Pvt. Ltd

This revised and expanded edition is a sequel to the first edition which was warmly received by the student and teaching community for its in-depth analysis and refreshing approach to the subject. Psychology of Individual differences Transfer of Learning or Training Emotional Development and Emotional Intelligence Learning Disabilities and Learning Disabled Children Beginning with an introduction to the nature and scope, and the various schools of psychology, the book discusses the systems propounded by Freud, Adler, Jung and Piaget, taking into account their critical importance to the subject. It then focuses on the psychology of growth and development, psychology of individual differences, motivation, attention and personality, with an emphasis on the individual's attitude towards learning, and the factors influencing learning. The text also elaborates the nature and theories of learning and the aspects of memory such as remembering and forgetting. The cognitive aspect, i.e. intelligence, and vital topics like creativity and the psychology of thinking, reasoning and problem-solving have been accorded due prominence. A detailed discussion on exceptional children and learning disabled children together with the educational measures for overcoming such disabilities is also included. The text concludes with an important aspect of human behaviour, namely, adjustment. Interspersed with examples, illustrations and tables, this text is ideally suited for postgraduate students of education and psychology. It can also be profitably used by teachers, teacher-educators, guidance and counselling personnel, and administrators of educational institutions.

PSYCHOLOGY OF LEARNING AND DEVELOPMENT PHI Learning Pvt. Ltd.

India is evolving in every sphere, and its education system is no exception. The change, however, is largely towards the betterment of the society as a whole; but still constraints are many in achieving a stringent yet 'beneficial for all' education system in the country. This book gives a thorough account on the Indian Education system—from its inception to the present day, and underlines the hurdles faced and the improvements needed to achieve a flawless system of imparting value education to the students. The book begins by explaining fundamental theories of education—its meaning, nature and so on, and then proceeds to discuss the emerging Indian society and the constraints faced by its education system, like corruption, poverty, social discrimination, ill practices (drugs, violence, etc.). It further discusses the philosophies preached by the Indian and Western philosophers and educationists, like Swami Vivekananda, Sri Aurobindo, Rabindra Nath Tagore, Mahatma Gandhi, Rousseau, Froebel, and Maria Montessori, and their contribution in shaping the Indian Education system in some way or the other. The book further explains the concepts integral to Education in Emerging India, which are Education for All (Sarva Shiksha Abhiyan), Education for Women (girl child), Education for the Children with Special Needs, Education for National Integration, and Adult Education. It also discusses the revised education policies, with special emphasis on education commissions, and organizations involved in it. The book is designed for the undergraduate and postgraduate students of Education.

PEDAGOGY OF SOCIAL SCIENCES Vikas Publishing House

Emotional Intelligence (EI) is a personality development tool which can be developed at any stage of life to enhance one's ability and get desired success in various life pursuits. This book is conceived to prove as an effective source of motivation and know-how of getting imbued with the EI skills. The book describes emotional intelligence as a key to attain success in life. It

highlights how managing emotional traits like anger, jealousy, empathy, love and so on can help a person to be a better human being and emerge as a winner in life. Organized well, the chapters comprehensively explain the concept of emotional intelligence with relation to its development and utilization for getting desired success in one's personal, social and professional life. The book, thus, has the needed potential to equip the readers with the knowledge, skills and applied aspects of EI and its measure, EQ, for deriving rich dividends through the development and application of EI skills (mostly emotional and social in nature). The book also helps people with high IQ to analyze that EQ and IQ goes hand-in-hand, and by developing the EI skills they can excel in those spheres of life, where they otherwise fail to excel with IQ alone. The book is designed for the postgraduate students of Psychology, Education and Management. Besides, the book is also useful for the professionals and general readers. It is going to prove an asset for those who are suffering from failures and lack of confidence. Key features Provide an easy workable model of EI for utilizing EI skills as key to success. Includes reader-friendly features like key ideas (within boxes), figures, tables, case studies and illustrations from daily life and Panchatantra stories and folk tales.

Gender, Culture, and Ethnicity, Fourth Edition Routledge

The big ideas of educational psychology covered in 10 chapters. The first book of its kind, Essentials of Educational Psychology focuses squarely on the core concepts, principles, and underlying assumptions of the field of educational psychology—the big ideas of ed psych.
